16. REMARKS BLK 4: The DMSMS Health Assessment Report shall contain a health assessment of the systems or end item deliverables specified by the contract using the Data Elements in Table 1 of the Data item Description (DID). The information shall be included to the lowest indenture level (component level) for all items, including subcontractor items, which are not commercial items. Commercial items are defined in 48 CFR 2.101 - Definitions. Follow format and content preparation and requirements listed in the DID. **The contractor shall deliver DMSMS impact assessment reports in accordance with this DID, for all assemblies, line replaceable units, and weapon replaceable assemblies and their related software used on the end item deliverables. The report will detail the predicted impact of known DMSMS issues and projected DMSMS issues. It will use the most accurate forecasting data available to the contractor. The report will detail the date the assembly and its related higher assemblies will most likely become unsupportable considering inventories, usage, repair capability, funded upgrades, redesigns, and similar attributes or actions. The Contractor should provide sufficient reports to the government to enable government oversight if the contractor is tasked to manage DMSMS.
