

SOLICITATION NOTICE ID: N40085-26-R-0270

TITLE: Inspection & Testing of Electric and Diesel Fire Pumps, Engines, Controllers, and Oil/Water Separator at NWS Earle, BLDG R38

Requests for Information & Responses

1. Is there an **existing vendor currently servicing the Oil/Water Separator**?
 - No, the equipment has not been serviced recently.
2. To facilitate removal of the **Vertical Turbine Fire Pumps for physical inspection**, can the Government confirm the **length of the pump sections and connection type** (flanged/bolted or threaded)? Please also confirm the same information for the **caisson(s) shown on Drawing M-343**.
 - Please see the attached typical drawings for additional information. These drawings are for general information only. The contractor shall verify all field conditions prior to starting work or preparing cost estimates.
3. Has the Government considered or discussed installation of **roof access hatches above each Vertical Turbine Fire Pump** to support removal and future servicing?
 - There is no existing roof access hatch, and modifying the roof to install one is not within the project scope. Equipment exceeding the dimensions of the two entry doors must be sectionalized or disassembled for transport.
4. Are the **Vertical Turbine Jockey Pump(s) shown on Drawing M-6** included within the required scope of this proposal?
 - No, the Jockey Pump is not part of this scope of work.
5. Would it be possible to arrange an **additional site visit** so the technical team can further evaluate the equipment and access requirements before finalizing the proposal?
 - Yes, the 2nd site visit is scheduled for **Tuesday September 29, 2026 at 10:30am** at the Waterfront part of the base.

Contractor will meet Gov. Representative at the Waterfront Visitor Control Center parking lot on Tuesday, September 29th at 1030 EST hours sharp.

Do NOT go directly to the project site. All attendees will be escorted in a van provided by the Government: GPS:

801 Highway 36-N, Leonardo, NJ, 07737.

All interested Contractors must send a list of attendees NLT 1000 EST, Monday, September 28th so that adequate transportation can be arranged to:

Engineering Tech., Azeb Hailu (azeb.a.hailu.civ@us.navy.mil)
