4. Statutory Authority Permitting Other Than Full & Open Competition

This J&A is based upon the authority of 10 USC 3204(A) (1), only one or a limited number of responsible sources will satisfy agency requirements, as implemented by FAR 6.302-1

5. Rationale Justifying Use of Cited Authority

A/RMC 4

Acquire, for the first time, directly from the actual manufacturer.

A/RMSC B

This part must be acquired from/repared by a source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data rights, or manufacturing/repair knowledge are not available to permit acquisition from/repair by other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained. If one source is available, A/RMCs 3, 4, or 5 are valid. If at least two sources exist, A/RMCs 1 or 2 are valid.

This acquisition will be solicited to

Cobham Mission Systems - Wimborne, Ltd. (U1918) This acquisition will be solicited to Cobham Mission Systems - Wimborne, Ltd. (U1918) 3415610. This item is governed by source-controlled technical data. Cobham Mission Systems - Wimborne, Ltd. (U1918) is the only source listed on Source Control Drawing #901-366-686, owned by Boeing Aerospace Company (77272). IAW this drawing, NAVSUP anticipates receiving a single acceptable offer from this source. In addition to the source-controlled drawings restrictions, JDRS has deemed this item as a Critical Safety Item (CSI), further limiting competition. The Government does not possess sufficient rights in the technical data to distribute to potential new suppliers of the item. Any additional sources would have to be approved by Boeing Aerospace Company (77272) and added to the approved sources listed on the drawing.

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

15 MAR 2019 Class Waiver of the Requirement to Post a Request for Information or Sources Sought Notice applies to this requirement

The proposed contract action was synopsized on the government-wide point of entry on

05/08/2025

and as a result

No other sources expressed an interest in the solicitation. IAW this drawing, NAVSUP anticipates receiving a single acceptable offer from this source, which is Cobham (U1918) and not the drawing owner, Boeing (77272).

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

The latest configuration has been checked and all records (ITIMP, JDRS/ASE, etc.) have been properly aligned, identified, and documented. This item is on Source Controlled Drawing #901-366-686 owned by Boeing Aerospace Company (77272) listing only Cobham Mission Systems - Wimborne, Ltd. (U1918) as an approved source. This item has been deemed a Critical Safety Item, further limiting qualified sources. The Government does not possess sufficient rights in the technical data to distribute them to potential new suppliers of the item. Any additional sources would have to be approved by Boeing Aerospace Company (77272) and added to the approved sources listed on the drawing. The available technical data is insufficient for the development of new sources. Source Development Department files indicate no Source Approval Request (SAR) has been received from any party interested in becoming an approved source. Cobham Mission Systems (U1918) is the only approved source at this time.

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition

To promote competition, NAVSUP WSS will continue to encourage vendors with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority per the (WSS) guidelines. Also, future requirements will be advertised on the government-wide point of entry. For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
