

Up to Simplified Acquisition Procedures (SAP) (Commercial Items, Single Source Justification)

This justification template is used for single source commercial item procurements using Simplified Acquisition Procedures, up to, but not exceeding the Simplified Acquisition Threshold.

SAP Commercial Item Single Source Justification

SECTION I: Introduction

In this document, citations to Revolutionary FAR Overhaul Part 12 are citations specifically to Federal Acquisition Regulation (FAR) Class Deviation 25-21 R1 for FAR Part 12 which was issued as part of the Revolutionary FAR Overhaul (RFO), which was implemented in response to Executive Order 14275, *Restoring Common Sense to Federal Procurement*, signed April 15, 2025.

The Transportation Security Administration (TSA), Harry Reid International Airport (LAS), and Contracting and Procurement propose to solicit and issue a purchase order based on soliciting only one source.

The procurement request number is PR265903F008, and the Contracting and Procurement's tracking number is JA-'2026'-05-1408.

This acquisition is conducted under FAR Part 12.

SECTION II: Description of Action Being Approved

- (a) Contractor: Vanderlande Industrices Inc. (Vanderlande)
- (b) Type of action: Firm Fixed-Price Purchase Order
- (c) Estimated Amount: [REDACTED]
- (d) Period of Performance: 60 days from date of award.
- (e) The requirement is for security bins for Vanderlande Automated Screening Lane (ASL) x-ray machines. Only bins manufactured by Vanderlande are compatible with the Vanderlande ASL x-ray system.

SECTION III: Description of Supplies or Services

The requirement is for 1,000.00 security bins for Vanderlande ASL x-ray systems to be delivered to LAS. The bins are used at the screening checkpoint in conjunction with the x-ray machine for passengers to load their accessible property to be screened.

SECTION IV: Identification of the Single Source Justification

- ☒ Only one source is capable of responding due to the unique or specialized nature of the work.
- ☐ Brand Name Only. Note: if using "brand name", clearly explain why brand name or equal is not a viable solution.

☐ An urgent and compelling need exists and soliciting more than one vendor would result in unacceptable delays.

☐ A licensing agreement is required as a part of this purchase order, which is available from only one source.

SECTION V: Description of Rationale

The bins manufactured by Vanderlande are the only bins that are compatible with Vanderlande ASL x-ray systems. These bins contain Vanderlande proprietary information and Radio-Frequency Identification (RFID) chip for use in the ASL machine.

Each bin has a unique RFID chip that allows Transportation Security Officers (TSOs) to track the x-ray image to the bin, which is critical for screening and security purposes. Any competitors bin will trigger an error message in the ASL machine, preventing the TSO from determining which bin belongs to the x-ray image. This situation would seriously degrade the ability of the officer to determine threat items in a bin.

No other company manufactures this bin and only this bin will work in the LAS ASL x-ray system.

SECTION VI: Contracting Officer's Determination that the Order Represents the Best Value

The Contracting Officer determines that the anticipated price(s) will be fair and reasonable based on comparisons of the proposed prices to historical prices paid for the same or similar items.

SECTION VII: Market Research Description

While there are multiple bins in the market that could be used at checkpoints, only bins from Vanderlande which include proprietary RFID codes embedded in the base of the bin are compatible with the LAS Vanderlande automated screening lanes. No other bins will operate properly with the Vanderlande equipment installed at LAS. Unauthorized trays may trigger multiple errors degrading performance and ultimately compromising security.

In addition, Vanderlande Industries will void all warranties to the machine if any other vendor's bins are used.

A Notice of Intent to sole source was posted on SAM.gov on 18 August 2026 and it closed on 2 September 2026. No responses were received.

SECTION VIII: Contracting Officer Certification

I certify that this information is accurate and complete to the best of my knowledge and belief.

[Redacted Signature]

Name (Printed)

Signature

Date

SECTION IX : Technical or Requirements Personnel Certification

I certify that this requirement meets the Government's minimum need and that the supporting data, which forms a basis for this justification, is complete and accurate.

[Redacted Signature]

Name (Printed)

Signature

Date

SECTION X: Concurrence and Approval

The required levels of concurrence and approval of this justification for single source solicitation depends on the estimated total value of the procurement. Concurrence and approval must be obtained for that level and each previous level.

Estimated Procurement Value:
\$2,000 and greater for Construction
\$2,500 and greater for Services
\$10,000 and greater for Supplies, up to SAT

Acquisition Official Approval:

Contracting Officer (CO approves up to SAT):
