5. If drawings are included in the solicitation, access needs to be requested on the individual solicitation page under Contract Opportunities on SAM.gov website. After requesting access, send an email to the POC listed on the solicitation.

6. NAVSUP WSS Mechanicsburg will be considering past performance in the evaluation of offers IAW FAR 13.106(a)(2).

7. This solicitation requires First Article Testing (FAT).

FOB Destination

Vendor must be ISO9001. Provide proof with your quote.

DD1423 Data Item A001 may be waived if already on file at NAVSUP WSS and is current.

Unanswered questions below will constitute an inadequate quote.

Questions to answer within your quote, in addition to your price per unit _____*:

1. Delivery Lead Time for first batch of units: _____
2. If more than one unit to build, after shipping the first batch, the number of assets able to ship each month thereafter _____
3. Offer valid until _____. I prefer that quotes be valid through at least 30 Sep, if feasible.)
4. Source Inspection Location (CAGE): _____ Note, inspection by DCMA is required prior to shipping. Destination Inspection is not allowed.
5. Source Acceptance Location (CAGE): _____ Inspection by DCMA is required prior to shipping. Destination Acceptance is not allowed.
6. Pack Location (CAGE): _____ Indicate if packaging will be done by an outside source.

7. Is this going to be manufactured in the US? _____

8. POC name and email: _____

9. This quote is for NIIN _____.

Fill out the same thing for each other NIIN on this solicitation that you can quote.

The solicitation may result in multiple awards. You can bid on one or all NIINs. No bid the ones you cannot provide.

Emailing all these answers is required within your quote.

CONTACT INFORMATION**

When a DCMA office is shown on a Contract/Purchase Order, the Administrative Contracting Officer (ACO) is the primary point of contact and all inquiries shall initially be directed to that office for necessary action.

Inquiries and correspondence directed to the Post Award PCO should be addressed as follows:

Code: (<N744.13>) Weapon System LRC: (<WVA>)
Telephone: (<n/a>)
E-Mail: (<gordon.kohl@navy.mil>)

In the event that the listed PCO contact information is no longer valid and a follow-on PCO cannot be identified, contact itimp.wss.fct@navy.mil.

**WSSTERMBZ04
IMPORTANT NOTICE REGARDING HAZARDOUS MATERIAL**

FAR clause 52.223-3, Hazardous Material Identification and Material Safety Data, is incorporated by reference in Section I in this solicitation and required offerors to--

- (1) identify any hazardous material (defined in FED STD 313 as an item or chemical which is a "health or physical hazard" per OSHA in 29 CFR 1910.1200) that will be delivered under a resultant contract, and
- (2) provide a Material Safety Data Sheet meeting OSHA/FED STD 313 requirements for all hazardous material identified.

While not an all-inclusive listing of hazardous material, at a minimum, any item with a four-digit Federal Supply Code (FSC), which correlates to the first four positions of the National Stock Number (NSN), of 6810, 6820, 6830, 6840, 6850, 7930, 8010, 8030, 8040, 9110, 9135, 9140, 9150, or 9160 is considered hazardous material and requires submission of a Material Safety Data Sheet or an appropriate representation that there is no hazardous material contained in the item.

Failure to provide the required information and documentation may render you ineligible for award. If you have questions about whether a solicited item is classified as hazardous, contact the NAVSUP WSS HAZMAT point of contact, NAVSUP WSS Code 0772, at (717)605-1361. (10-06)

ITEM NAME: RING,GLOBE SEAT**

ACTIVITY USE ONLY: TDP VERSION NO.: 007

1. SCOPE

1.1 The material covered in this contract/purchase order will be used in a crucial shipboard system. The use of incorrect or defective material would create a high probability of failure resulting in serious personnel injury, loss of life, loss of vital shipboard systems, or loss of the ship itself. Therefore, the material has been designated as SPECIAL EMPHASIS material (Level I, Scope of Certification, or Quality Assured) and special control procedures are invoked to ensure receipt of correct material.

1.1.1 LI-SOC ITEM - It has been determined that this item falls within both the Level I boundary and the Scope of Certification (SOC) boundary.

2. APPLICABLE DOCUMENTS

2.1 Order of Precedence - In the event of a conflict between the text of this contract/purchase order and the references and/or drawings cited herein, the text of this contract/purchase order must take precedence. Nothing in

this contract/purchase order, however, must supersede applicable laws and regulations unless a specific exemption has been obtained.

2.2 Applicable Documents - The document(s) listed below form a part of this contract/purchase order including modifications or exclusions.

2.2.1 Specification Revisions - The specification revisions listed under "Documents References" below are the preferred revision. Older and/or newer revisions are acceptable when listed within Contract Support Library Reference Number CSD155 in ECDS (Electric Contractor Data Submission) at: <https://register.nslc.navy.mil/>. This is to allow Contractors to use certain acceptable older specification revisions to purge their existing stock of material certified to those older revisions or to use newer specification revisions when material is certified to newly released revisions, without requiring the submittal of waiver/deviation requests for each specification revision on every contract. Revisions of specifications reflecting editorial and/or re-approval (e.g. E2009, R2014, etc.) are considered inconsequential, but are acceptable when their revisions are listed within CSD155 or elsewhere within this contract.

2.2.2 Documents, drawings, and publications supplied are listed under "Drawing Number". These items should be retained until an award is made.

2.2.3 "Document References" listed below must be obtained by the Contractor. Ordering information is included as an attachment to this contract/purchase order.

3. REQUIREMENTS

3.1 <Seat Ring for size 1 inch globe valve to be in accordance with NAVSEA Drawing 803-6397434, Item 49 and general notes of NAVSEA Drawing 803-5959311, except as amplified or modified herein.>

3.2 General Application Cleaning - Cleaning must be in accordance with < MIL-STD-1622> .

3.3 Material for Parts Requiring Certification - Quantitative chemical and mechanical analysis is required for the parts listed below unless specifically stated otherwise:

Part - <Seat Ring, Item 49>

Material - <MIL-DTL-24252, Composition I, Condition A>

3.4 Testing Certification - Certifications are required for the following tests on the items listed below. Additional testing on other piece parts (if any) per applicable drawings and specifications is still required, but certifications are only required as listed below.

Test - Ultrasonic Inspection
 Item - <Seat Ring (starting material or finished item)>
 Performance - MIL-STD-2132 and MIL-DTL-24252
 Acceptance - MIL-DTL-24252

3.5 <The original melter, melter/converter, and converter of MIL-DTL-24252 material must be qualified in accordance with paragraph 3.2.6 of MIL-DTL-24252.>

3.6 <No weld repair allowed on MIL-DTL-24252 material>

3.7 Thread Inspection Requirements - All threads on threaded parts must be inspected using appropriate inspection methods, inspection systems, and inspection gages/instruments in accordance with FED-STD-H28 series. Substitution of the commercial equivalent inspection in accordance with ASME B1 series is acceptable.

3.7.1 System 21 of FED-STD-H28/20 must be used as a minimum inspection requirement for threads when the design drawing or design specification does not specify an inspection requirement.

3.7.2 For Navy and Shipyard drawings, system 21 of FED-STD-H28/20 may be substituted for System 22 without further Navy approval when the design drawing invokes System 22 and does not cite governing specifications that specifically require system 22. System 22 of FED-STD-H28/20 must be used when the drawing references other governing specifications that specifically require System 22, such as certain thread types of MIL-DTL-1222.

3.7.3 A written request for concurrence must be submitted when utilizing alternative measuring equipment or measuring systems not applicable to the specified inspection system.

3.8 Certificate of Compliance - (SPECIAL EMPHASIS MATERIAL) The Contractor must prepare and submit a certificate of compliance certifying that the items/components furnished under this contract comply with the requirements of the procurement document, including any/all invoked specifications and drawings.

3.9 Configuration Control - The Contractor must maintain the total equipment baseline configuration. For items of proprietary design, Contractor drawings showing the latest assembly configuration must be provided to the Government in electronic (C4) format. Definitions are provided elsewhere in the Contract/Purchase Order.

3.9.1 Waivers/Deviations - All waivers and deviations, regardless of significance or classification require review and approval by the Contracting Officer. Waivers and Deviations must be designated as Critical, Major, or Minor. The Contractor must provide a copy of this request to the QAR. Requests must include the information listed below.

- a. A complete description of the contract requirement affected and the nature of the waiver/deviation (non-conformance), including a classification of Critical, Major, or Minor.
- b. Number of units (and serial/lot numbers) to be delivered in this configuration.
- c. Any impacts to logistics support elements (such as software, manuals, spares, tools, and similar) being utilized by Government personnel or impacts to the operational use of the product.
- d. Information about remedial action being taken to prevent reoccurrence of the non-conformance.

3.9.2 All requests for Waivers/Deviations on NAVSUP-WSS Contracts must be submitted to the NAVSUP WSS Contracting Specialist via eMail.

3.9.3 ECPs - The Government will maintain configuration control and change authority for all modifications or changes affecting form, fit, function, or interface parameters of the Equipment and its sub-assemblies. The Contractor must submit an Engineering Change Proposal (ECP) for any Class I or II changes that impact the Equipment covered by this contract. ECPs must be prepared in Contractor format, and must include the following information:

- a. The change priority, change classification (Class I or Class II), and change justification.
- b. A complete description of the change to be made and the need for that change.
- c. A complete listing of other Configuration Items impacted by the proposed change and a description of the impact on those CIs.
- d. Proposed changes to documents controlled by the Government.
- e. Proposed serial/lot number effectivities of units to be produced in, or retrofitted to, the proposed configuration.
- f. Recommendations about the way a retrofit should be accomplished.
- g. Impacts to any logistics support elements (such as software, manuals, spares, tools, and similar) being utilized by Government personnel in support of the product.
- h. Impacts to the operational use of the product.
- i. Complete estimated life-cycle cost impact of the proposed change.
- j. Milestones relating to the processing and implementation of the engineering change.

3.10 Mercury Free - Mercury and mercury containing compounds must not be intentionally added or come in direct contact with hardware or supplies furnished under this contract. Mercury contamination of the material will be cause for rejection.

3.11 NAVSEA 0948-LP-045-7010 - Any applicable requirements of NAVSHIPS 4410.17, NAVSEA 0948-LP-045-7010, or

0948-045-7010 which the contractor must meet are included in this contract/purchase order. The above documents are for Government Use Only. Further application of the above documents is prohibited.

3.11.1 Marking of material with a Material Designator per the Drawing is also prohibited, with the exception of Fasteners. Fasteners must be marked with a Material Symbol/Designator as specified elsewhere in this contract.

* QUALITY ASSURANCE REQUIREMENTS *

3.12 See CDRL DI-MISC-80678 (Test Certification) - A statement of tests performed, listing the pieces tested must be furnished along with a copy of the test results. Certification must include the contractor's name, address and date, quantity inspected, identified to the contract/purchase order and item number, and the Contractor's or authorized personnel's signature. Test certifications must reference the standard/specification, including the revision, to which the testing was performed and the acceptance criteria used. Test procedure numbers may also be referenced on test reports. Test reports on weldments must be identified to weld joint and layer.

3.13 Quality System Requirements - The Contractor furnishing items under this contract/purchase order must provide and maintain a quality system in accordance with ISO-9001 as amplified or modified herein, with the calibration system requirements of ISO-10012 or ANSI-Z540.3 with ISO-17025. A Quality System in accordance with MIL-I-45208, with the calibration system requirements of MIL-STD-45662, is acceptable as an alternate.

3.13.1 The Contractor's quality system and products supplied under the system are subject to evaluation, verification inspection, and acceptance/nonacceptance by the Government representative to determine the system's effectiveness in meeting the quality requirements established in the Contract/Purchase Order.

3.13.2 The Contractor's quality system must be documented and must be available for review by the Contracting Officer or his representative prior to initiation of production and throughout the life of the contract. The Prime Contractor must, upon notification, make his facilities available for audit by the contracting Officer or his authorized representative.

3.13.3 See CDRL DI-QCIC-81110 (Inspection System Procedures) - All suppliers of Level I/SUBSAFE (LI/SS) material are required to submit a copy of their current documented quality system procedures to the Procurement Contracting Officer (PCO) prior to award of any contract/purchase order. Suppliers that have a copy of their current quality system procedures on file at the Procuring Activity may request the PCO waive this requirement.

3.13.4 This contract provides for the performance of Government Quality Assurance at source. The place or places of performance may not be changed without the authorization of the Procurement Contracting Officer. Upon receipt of this order, promptly notify the Government representative who normally services your plant so that appropriate planning for Government inspection can be accomplished. If you do not have an assigned Government representative, notify the nearest Defense Contract Management Agency (DCMA) Office. In the event that a local Government representative or DCMA Office cannot be located, our purchasing agent should be notified immediately.

3.13.5 Any changes made by the Contractor to a qualified quality system will require re-submittal to the PCO and concurrence by the Government Quality Assurance Representative prior to adoption.

3.14 Contractor Inspection Requirements - The Contractor must maintain adequate records of all inspections and tests. The records must indicate the nature and number of observations made, the number and type of deficiencies found, the quantities approved and rejected and the nature of corrective action taken as appropriate. Inspection records must be traceable to the material inspected.

3.14.1 The supplier's gages, measuring and test equipment must be made available for use by the Government representative when required to determine conformance with Contract requirements. When conditions warrant, the supplier's personnel must be made available for operations of such devices and for verification of their accuracy and condition.

3.14.2 All documents and reference data applicable to this contract must be available for review by the Government representative. Copies of documents required for Government inspection purposes must be furnished in accordance with the instructions provided by the Government representative.

3.15 Subcontractor Inspection Requirements - The Government has the right to inspect at source, any supplies or services that were not manufactured or performed within the contractor's facility. Such inspection can only be requested by or under authorization of the Government representative. Any purchasing documents to a subcontractor must cite the applicable portions of the contractually invoked quality system (e.g. calibration requirements), plus any product requirements that apply to the supplies being purchased. When the Government elects to perform source inspection at the subcontractor's facility, applicable purchase documents must be annotated with the following statement: "A Government inspection is required prior to shipment from your plant. Upon receipt of this order, promptly notify the Government representative who normally services your plant so that appropriate planning for Government inspection can be accomplished. If you do not have an assigned Government representative, notify the nearest Defense Contract Management Agency (DCMA) Office. In the event that a local Government representative or DCMA Office cannot be located, our purchasing agent should be notified immediately."

3.15.1 The prime contractor's program must include procedures to assess the capability of the prospective suppliers to produce the products or supply the services in accordance with the contract, prior to the issuance of any purchase

document.

3.15.2 Each sub-tier supplier of material or services for items in Section 3 of this contract must be subjected to a periodic review or audit by the Prime to determine the continued capability of the supplier to control the quality of the products or services specified in the purchase order or contract.

3.15.3 The prime contractor must ensure that the purchased product conforms to specified purchase requirements and this contract. The type and extent of control applied to the supplier and the purchased product must be dependent upon the effect of the purchased product on the end item represented by this contract.

3.15.4 The prime contractor must evaluate the requirements of the contract and select suppliers based on their ability to supply the product in accordance with the prime contractor's requirements and the contract. Criteria for selection and evaluation must be established. Records of this effort must be available for review by the government.

3.15.5 The prime contractor's supplier quality assurance program must provide for a review of purchase documents to assure applicable quality requirements are included or referenced in the documentation for compliance by the supplier.

3.16 Government Furnished Material and/or Equipment (GFM/GFE) - When material or equipment is furnished by the Government, the Contractor must develop documented control procedures that require at least the following:

3.16.1 Visual examination upon receipt to detect damage during transit.

3.16.2 Inspection for completeness and proper type.

3.16.3 Verification of material quality received.

3.16.4 Periodic inspection and precautions to assure adequate storage conditions and to guard against damage from handling and deterioration during storage.

3.16.5 Functional testing, either prior to or after installation, or both, as required by the Contract to determine satisfactory operation.

3.16.6 Identification and protection from improper use or disposition.

3.16.7 Reporting to the Government, any GFM or GFE property found damaged, malfunctioning, or otherwise unsuitable for use. In the event of damage or malfunction during or after installation, the supplier must determine and record probable cause and necessity for withholding the material from use.

3.16.8 For GFE material, and as required by the terms of the bailment agreement, the supplier must establish procedures for adequate storage, maintenance, and inspection of bailed Government material. Records of all inspection and maintenance performed on bailed property must be maintained.

3.16.9 Material returned to the contractor must be handled as GFM.

3.17 Traceability and Certification Requirements - To assure that correct materials are installed in Level I/SUBSAFE systems, it is imperative that traceability be maintained from the material to the material certification test report and other required Objective Quality Evidence (OQE). The material certification report must completely and accurately reflect that the material supplied meets the specified requirements. Materials requiring Traceability and Certification Data are identified within Paragraph 3, Section C of this contract/purchase order.

3.17.1 The following provides the minimum requirements for maintaining material traceability and supplements the requirements specified in DI-MISC-81020 and elsewhere in the contract/purchase order. The Contractor must develop written procedures that implement the material control requirements stated herein and elsewhere in this Contract/Purchase Order.

3.18 Material Traceability - The certification data report must be identified through a unique traceability number, heat-lot number, or heat-treat number, as applicable, which must also be marked on the material. This traceability marking on the material must provide direct traceability to the material's chemical composition and mechanical properties certification data. For material produced by batch, continuous cast, or continuous pour processes, samples must be taken no less than once in every eight hours of operation for the purpose of validating proper chemical composition and mechanical properties. Traceability must be maintained through all process operations including any subcontracted operations, to the finished component.

3.18.1 Material Marking for Traceability and Identification - The following are the minimum marking requirements. Additional/alternate marking requirements, if applicable, will be specified elsewhere in the contract/purchase order. In addition to the marking requirements on applicable drawings and/or specifications, marking for traceability is required. All traceability markings must be permanently applied in accordance with MIL-STD-792 (except as specified below). An alternate marking method is permissible provided it is an available option in the contractually invoked specification or drawing, except in instances where the material has been modified by this contract/purchase order and differs from that specified in the specification or drawing.

3.18.2 Traceability markings for items with precision machined or plated surfaces, or material with suitable marking surface areas less than 3/8 inches square (either 3/8" x 3/8" or an area equal to 0.1406 inches square) must be applied to a durable tag and the tag securely affixed to the material.

3.18.3 Marking must be legible and must be located so as to not affect the form, fit, and function of the material.
< >

3.19 See CDRL DI-MISC-81020 (Chemical and Mechanical) - Material Certification - In addition to the certification data requirements specified in DI-MISC-81020, the following material certification requirements apply:

3.19.1 Quantitative chemical and mechanical analysis of material traceable to traceability markings is required. Material certification test reports must include the class, form, condition, grade, type, finish, and/or composition, as applicable, of the material supplied.

3.19.2 Re-identification and re-certification of material is required when the material is subjected to a process which alters its properties. If the starting material or raw stock is processed in a manner that will not affect its chemical composition or mechanical properties, the original certifications for the chemical composition and mechanical properties, as required by the material specification, are acceptable. Re-certification of the chemical or mechanical properties is required if a process is used during fabrication that alters the original properties of the material (e.g. alloying, heat treating, or forming). In these instances, the properties of the material must be re-determined and documented to reflect the altered condition. The altered material must be uniquely re-identified with a new traceability number. The properties thus determined and documented, are required for final certification and must conform to the material specification or the contract/purchase order requirements. When only the mechanical properties are altered, the original certification for chemical composition must be over stamped and annotated with the unique traceability marking used with the altered material and at a minimum contain the information below.

3.19.3 Material certification data forwarded by the manufacturer must contain a signed certification that the report results represent the actual attributes of the material furnished and indicate full compliance with all applicable specification and contract requirements. Transcription of certification data is prohibited.

3.19.4 ELECTRONIC SIGNATURES.

3.19.5 Electronic signatures on Level I certification documents are considered equivalent to handwritten signatures.

3.19.6 Suppliers that use electronic signatures to authenticate company certifications and reports must ensure that process is controlled and unique to the individual signing the document. The signer must take a distinct action to electronically sign the document

3.19.7 Suppliers must develop one method of authentication to be provided at the time of signature. The authentication method must be based on something known only to the signer (e.g., a password) or based on something only the signer possesses (e.g., a card or other device).

3.19.8 Electronic signature applications must not allow unauthorized users to change electronically signed documents or records. All changes to electronically signed documents or records made by authorized users must be revision- or date-controlled, must identify the person making the change, and must clearly reflect that the document or record has been revised.

3.19.9 The prime contractor, as a minimum, must flow down the electronic signature requirements to their sub-tier suppliers and sub-contractors that provide electronically signed company certifications and reports to ensure that they have a procedure to control and identify unique processes for only allowing authorized individuals to sign documents.

3.19.10 Statements on material certification documents must be positive and unqualified. Disclaimers such as "to the best of our knowledge" or "we believe the information contained herein is true" are not acceptable.

3.19.11 If material is received without the required certification papers or with incorrect/missing data on the certification papers, the material will be rejected.

3.19.12 Revisions of OQE must be provided by the originating organization and must include a description of the data modified along with the proper signature requirements herein.

3.19.13 In cases of foreign certification, conversion of foreign language units of measure and properties measured into U.S. units of measure must be annotated on the furnished foreign certifications, if space permits, or placed on an addendum in the same format as the foreign certification data. Such conversion must be identified as to origin with name, title, and signature of the authorized representative of the company making the conversion.

3.19.14 The certification data requirements contained in this appendix must be invoked on the prime contractor who must delegate these requirements to all sub-tier contractors supplying Level I material.

3.20 Material Handling - The written material control process must include the following:

3.20.1 All raw materials must have traceability markings (except as specified below).

3.20.2 Stored raw materials requiring traceability must be segregated to preclude intermingling with materials not requiring traceability.

3.20.3 When traceability markings will be removed by a manufacturing or fabrication process, the marking must be recorded prior to removal and be immediately restored upon completion of the process. If this cannot be done or is impractical, an appropriate material control procedure (such as a bag and tag, tagging, and/or tote box control) must be employed. The material control procedure must provide a method of positive control to preclude commingling of heats/lots or loss of traceability. The traceability marking must be reapplied upon completion of the final manufacturing process.

3.20.4 Brazing or weld filler metals for strength welds forming or integral with pressure containing components or assemblies requiring traceability must be verified to be the correct material, and type or grade, as applicable, prior to consumption. At a minimum, material verification must consist of inspection of material test reports for conformance to specified requirements. Control of welding and brazing filler metals must be maintained to the point of consumption to assure use of the correct type and grade. Markings and traceability requirements do not apply to brazing and weld filler metals after consumption. It is the responsibility of the prime contractor to ensure conformance with the above requirements on welds performed by their subcontractors.

3.20.5 Purchase orders for raw material must specify that the material be traceable to material certification test reports by traceability markings on the material and identified on the test reports. The certification data requirements contained in DI-MISC-81020 must be invoked by the prime contractor on all subcontractors supplying Level I material.

3.20.6 The material control process must include requirements for the maintenance of traceability for items sent out for subcontracted operations. If such operations would remove traceability markings, purchase or work orders must specify a method and marking location for remarking. The contractor must also ensure that subcontractor production controls are adequate to preclude commingling of materials during processing.

3.21 Receiving inspection -

3.21.1 Products and services produced by sub-tier suppliers for incorporation in the contract end item must be subject to inspection or audit at the time of receipt by the prime prior to further processing within the prime contractor's plant or shipment to another location.

3.21.2 Receiving Inspection must include as a minimum -

Verification that the traceability marking on the material agrees with that on the certification test reports.

Verification that certification test reports are legible and complete.

Verification that the contents of the certification test reports are in compliance with the contractually invoked specifications and requirements.

3.22 Discrepancy reporting -

3.22.1 Nonconforming products from sub-tier suppliers must be identified and processed in accordance with the prime contractor's procedures for controlling nonconforming products. The prime contractor must report the receipt of any nonconforming products to the responsible sub-tier supplier in accordance with established procedures. Nonconforming material records must be maintained and available for review by the government Quality Assurance Representative (QAR).

3.23 Final Inspection - The following inspections must be performed prior to Government inspection and acceptance.

3.23.1 Material Sampling - Material must be inspected for form, fit, and function. Lot acceptance must be based on zero defects and lot rejection based on one defect. The sample size must be in accordance with the sampling plan(s) in the applicable military specification or standard, federal specification or standard, or drawing to which the material was manufactured. In the absence of such sampling plans, sampling inspection must be per ANSI/ASQ-Z1.4, general inspection level II (for sample size selection code), table IIA (for sample size).

SMALL LOT SIZES - For lot sizes of fifty or less, the minimum sample size must be eight units. For lot sizes of eight or less, the sample size must be one hundred percent of the lot.

3.23.2 The Manufacturer may elect to use Statistical Process Control (SPC) to assure product quality in lieu of the above attribute sampling plan, provided that the SPC methodology/system used provides acceptable products to the Government. However, the Government/Navy Receipt Inspection Activity may perform their acceptance inspection of the material using the attribute sampling plan outlined above.

3.23.3 All data concerning material verification (chemical, mechanical or physical properties), traceability (material certifications to material marking), and nondestructive test (NDT) certifications for material must be 100% inspected. The certification test reports must also be 100% inspected for completeness and legibility.

3.23.4 All material requiring traceability must be 100% inspected for traceability marking and that the marking is legible.

3.24 See CDRL DI-MISC-80678 (Special Emphasis C of C) - The certificate of compliance must show traceability to the marking applied on each individual item, and must contain the following information:

1. Contractor's name, address and date.
2. The contract/purchase order number (for example: NO0104-11-P-FA12)
3. The National Stock Number (NSN). The 18 character National Stock Number for Special Emphasis Material includes the two digit COG, the four digit FSC, the 9 digit NIIN, and the two digit SMIC (for example: 1H 4820 012345678 L1) ("N/A" when Not Applicable).
4. Lubricants, sealants, anti-seize, and/or thread locking compounds ("N/A" when Not Applicable).
5. Certification that O-rings, packing, gaskets, or other elastomeric products were installed in a compressed state within an assembly or sub-assembly, prior to expiration of the shelf life ("N/A" when Not Applicable).
6. Manufacturer's compound number ("N/A" when Not Applicable).
7. When weld procedure submittal is required by the contract, a statement that the approval date of the qualification data precedes any production or repair welding performed on this Contract. ("N/A" when Not Applicable).
8. A statement to the effect that all items furnished on this contract are in full compliance with the specifications and requirements and list each contractually invoked conformance/compliance test performed by name and that it was performed satisfactorily.
9. Contractor's or authorized personnel's signature.

CLIN: 0002
NIIN: 014979490
ITEM NAME: VALVE,GLOBE

ACTIVITY USE ONLY: TDP VERSION NO.: 008

1. SCOPE

1.1 The material covered in this contract/purchase order will be used in a crucial shipboard system. The use of incorrect or defective material would create a high probability of failure resulting in serious personnel injury, loss of life, loss of vital shipboard systems, or loss of the ship itself. Therefore, the material has been designated as SPECIAL EMPHASIS material (Level I, Scope of Certification, or Quality Assured) and special control procedures are invoked to ensure receipt of correct material.

1.2 <NSN 1H9510-01-495-9543X2 will be supplied to the successful bidder for the manufacture of the stems, discs and disc Locknuts.>

1.3 <NSN 1H9510-01-495-9543X2 will be supplied to the successful bidder for the manufacture of the stems and discs>

2. APPLICABLE DOCUMENTS

2.1 Order of Precedence - In the event of a conflict between the text of this contract/purchase order and the references and/or drawings cited herein, the text of this contract/purchase order must take precedence. Nothing in this contract/purchase order, however, must supersede applicable laws and regulations unless a specific exemption has been obtained.

2.2 Identification of Classified Documents - This contract/purchase order requires the Contractor to have authorized access to classified documents in accordance with the attached Contract Security Classification Specification (DD Form 254).

The classified documents and security level are: <4384676 - CONFIDENTIAL>

2.3 Applicable Documents - The document(s) listed below form a part of this contract/purchase order including modifications or exclusions.

2.3.1 Specification Revisions - The specification revisions listed under "Documents References" below are the preferred revision. Older and/or newer revisions are acceptable when listed within Contract Support Library Reference Number CSD155 in ECDS (Electric Contractor Data Submission) at: <https://register.nslc.navy.mil/>. This is to allow Contractors to use certain acceptable older specification revisions to purge their existing stock of material certified to those older revisions or to use newer specification revisions when material is certified to newly released revisions, without requiring the submittal of waiver/deviation requests for each specification revision on every contract. Revisions of specifications reflecting editorial and/or re-approval (e.g. E2009, R2014, etc.) are considered inconsequential, but are acceptable when their revisions are listed within CSD155 or elsewhere within this contract.

2.3.2 Documents, drawings, and publications supplied are listed under "Drawing Number". These items should be retained until an award is made.

2.3.3 "Document References" listed below must be obtained by the Contractor. Ordering information is included as

an attachment to this contract/purchase order.

3. REQUIREMENTS

3.1 <Complete 1 Inch IPS, Seawater Service, Socket weld End Connections, Globe Valve must be in accordance with NAVSEA Drawing 803-5959306 assembly 803-5959306-T-211 and all Engineering Reports provided, except as amplified or modified herein.>

3.2 Material for Parts Requiring Certification - Quantitative chemical and mechanical analysis is required for the parts listed below unless specifically stated otherwise:

Part - <Bonnet, item 2>

Material - <ASTM-B381, Grade F-2 or ASTM-B348, Grade 2 (with properties modified by note 4.H of drawing 803-5959306)>

Part - <Union-Bonnet Ring, item 3>

Material - <ASTM-B150, Alloy UNS C63200>

Part - <Stem, item 32 and Disc, item 34>

Material - <SAE AMS 4931 with mechanical properties in accordance with EB SPEC 4581 NSN 1H9510-01-495- 9543X2 will be supplied to the successful bidder for the manufacture of the stems, discs and disc locknuts. The material is procured by the Navy with certifications and is heat traceable. Manufacturer must maintain heat traceability throughout production. Stems, discs and disc locknuts must be marked with the heat number of the material provided.>

Part - <Body, item 29>

Material - <ASTM-B564, Alloy UNS N06625>

3.3 Testing Certification - Certifications are required for the following tests on the items listed below. Additional testing on other piece parts (if any) per applicable drawings and specifications is still required, but certifications are only required as listed below.

Test - <Dye Penetrant Inspection>

Item - <All hard faced and clad surfaces after final machining>

Performance - T9074-AS-GIB-010/271

Acceptance - MIL-STD-2035

Test - <Dye Penetrant Inspection>
 Item - <Union-Bonnet Ring, Item 3; Body, Item 29; Bonnet, Item 2; Stem, Item 32; Disc, Item 34; and Disc Locknut, Item 36>
 Performance - T9074-AS-GIB-010/271
 Acceptance - MIL-STD-2035

Test - Ultrasonic Inspection
 Item - <Bonnet (starting material)>
 Performance - T9074-AS-GIB-010/271
 Acceptance - Any indication greater than or equal to the response from the Class B quality level requirements of Table 6 of SAE AMS-STD-2154 must be cause for rejection.

Test - <Ultrasonic Inspection per note 5.B of drawing 803-5959306>
 Item - <Body (starting material)>
 Performance - <T9074-AS-GIB-010/271>
 Acceptance - <General Note 5.C. of drawing 803-5959306>

Test - Pressure Tests
 Item - Each Assembly
 Performance - <General Note 1.A.(2) of drawing 803-5959306>
 Acceptance - <General Note 1.A.(2) of drawing 803-5959306>

Test - Non-Destructive Tests
 Item - <Weld Repair (as applicable)>
 Performance - Per applicable fabrication specification
 Acceptance - Per applicable fabrication specification

3.4 O-ring grooves and mating sealing surfaces must be inspected per the contractually invoked drawings or specifications. When the drawings or specifications do not provide specific defect criteria or state that no defects are allowed, the General Acceptance Criteria (GAC) standard must be used for inspecting O-ring grooves and mating sealing surfaces only. Repairs to sealing surfaces and O-ring grooves with unacceptable defects may be accomplished within the limits of the size and tolerances provided in the applicable drawing. Repairs that would exceed these limits require approval (including final dimensions). The data that is red lined (crossed out) is excluded from the GAC for this contract and is not to be used for acceptance or rejection criteria. The GAC document is identified as Contract Support Library Reference Number CSD008 at <https://register.nslc.navy.mil/>

3.5 The pressure tolerance must be as specified in the assembly drawing, detail drawing, design specification or elsewhere in this contract. Where pressure tolerances are not provided by drawings, specifications or specified elsewhere in this contract, the following must be used:

For pressure tests below 100 PSIG, the pressure tolerance must be +1 PSIG / -0 PSIG.

For pressure tests at or above 100 PSIG up to and including 2500 PSIG, the pressure tolerance must be +2% / -0 PSIG rounded off to the nearest multiple of the smallest graduation on an analog test pressure gauge, not to exceed 50 PSIG.

For pressure tests above 2500 PSIG, the pressure tolerance must be +2% / -0 PSIG, rounded off to the nearest multiple of the smallest graduation on an analog test pressure gauge, not to exceed 200 PSIG.

The pressure test time tolerance must be as specified in the assembly drawing, detail drawing, design specification or elsewhere in this contract. Where pressure test time tolerances are not provided by drawings, specifications or specified elsewhere in this contract, the following must be used:

For a test duration up to and including 1 hour, the tolerance must be +5 minutes / - 0 minutes.

For a test duration of more than 1 hour up to and including 24 hours, the tolerance must be +30 minutes / - 0 minutes.

For a test duration of more than 24 hours, the tolerance must be +60 minutes / - 0 minutes.

3.6 Confidential Hydrostatic Test Pressures - When test pressures are confidential, certification must reference <803-4384676 Revision C> and the item number to which the item was tested in lieu of the actual pressures. Any drawing requirement to mark the working pressure on the item does not apply and is strictly prohibited.

3.7 Welding or Brazing - When welding, brazing, and allied processes are required, as invoked by Section C paragraph 3 requirements, they must be in accordance with S9074-AR-GIB-010A/278, 0900-LP-001-7000 for brazing of piping and pressure vessel applications, or S9074-AQ-GIB-010/248 for brazing of other applications. For all production and repair welding and brazing, personnel and procedures must be qualified under S9074-AQ-GIB-010/248 or 0900-LP-001-7000, as applicable. Repair welding is not permitted on <titanium parts>. Procedures and Qualification Data must be submitted for review and approval prior to performing any welding or brazing.

3.8 Forging Sketches and FAT for Forgings – Forging Sketches and First Article Testing for forgings are required for <body, item 29 and bonnet, item 2> per <drawing 803-5959306 General Note 4.K for body, item 29 and General Note 4.K(2) for the bonnet, item 2> .

3.9 <Cladding must be in accordance with note 4.L of drawing 5959306 except that welding personnel and procedures must be qualified under NAVSEA Technical Publication S9074-AQ-GIB-010/248.>

3.10 <Material certifications for the stems are to be provided by Portsmouth Navy Shipyard Code 550 or Code 139 during receipt inspection.>

3.11 First Article Approval (Contractor Testing) – First Article Test (FAT) and approval is required.

3.12 Thread Inspection Requirements – All threads on threaded parts must be inspected using appropriate inspection methods, inspection systems, and inspection gages/instruments in accordance with FED-STD-H28 series. Substitution of the commercial equivalent inspection in accordance with ASME B1 series is acceptable.

3.12.1 System 21 of FED-STD-H28/20 must be used as a minimum inspection requirement for threads when the design drawing or design specification does not specify an inspection requirement.

3.12.2 For Navy and Shipyard drawings, system 21 of FED-STD-H28/20 may be substituted for System 22 without further Navy approval when the design drawing invokes System 22 and does not cite governing specifications that specifically require system 22. System 22 of FED-STD-H28/20 must be used when the drawing references other governing specifications that specifically require System 22, such as certain thread types of MIL-DTL-1222.

3.12.3 A written request for concurrence must be submitted when utilizing alternative measuring equipment or measuring systems not applicable to the specified inspection system.

3.13 Thread Lubricant – Thread lubricants containing molybdenum disulfide must not be used on this material. Bacteria in water, especially seawater, causes molybdenum disulfide to break down. The by-products of the breakdown form compounds which attack the fasteners. Anti-galling compound A-A-59004 must be used as a replacement when thread lubricant is required for assembly.

3.14 Internal Threads – All internal threads must be formed by cutting. Cold forming of internal threads is not acceptable.

3.15 Component Identification Description (CID) – When applicable drawing(s) and/or specification(s) specify that a nameplate or identification plate is required, the CID number (<CID 887056151X>) must be added. When no plate is specified, an identification plate in accordance with MIL-DTL-15024, Type "C" on brass or Type "H" on aluminum must be securely attached to each assembly showing the above CID number. No assembly must be shipped without the CID number attached.

3.16 NAVSEA 0948-LP-045-7010 – Any applicable requirements of NAVSHIPS 4410.17, NAVSEA 0948-LP-045-7010, or 0948-045-7010 which the contractor must meet are included in this contract/purchase order. The above documents are for Government Use Only. Further application of the above documents is prohibited.

3.16.1 Marking of material with a Material Designator per the Drawing is also prohibited, with the exception of Fasteners. Fasteners must be marked with a Material Symbol/Designator as specified elsewhere in this contract.

3.17 Certificate of Compliance – (SPECIAL EMPHASIS MATERIAL) The Contractor must prepare and submit a certificate of compliance certifying that the items/components furnished under this contract comply with the requirements of the procurement document, including any/all invoked specifications and drawings.

3.18 Configuration Control – The Contractor must maintain the total equipment baseline configuration. For items of proprietary design, Contractor drawings showing the latest assembly configuration must be provided to the Government in electronic (C4) format. Definitions are provided elsewhere in the Contract/Purchase Order.

3.18.1 Waivers/Deviations – All waivers and deviations, regardless of significance or classification require review and approval by the Contracting Officer. Waivers and Deviations must be designated as Critical, Major, or Minor. The Contractor must provide a copy of this request to the QAR. Requests must include the information listed below.

- a. A complete description of the contract requirement affected and the nature of the waiver/deviation (non-conformance), including a classification of Critical, Major, or Minor.
- b. Number of units (and serial/lot numbers) to be delivered in this configuration.
- c. Any impacts to logistics support elements (such as software, manuals, spares, tools, and similar) being utilized by Government personnel or impacts to the operational use of the product.
- d. Information about remedial action being taken to prevent recurrence of the non-conformance.

3.18.2 All requests for Waivers/Deviations on NAVSUP-WSS Contracts must be submitted to the NAVSUP WSS Contracting

Specialist via eMail.

3.18.3 ECPs – The Government will maintain configuration control and change authority for all modifications or changes affecting form, fit, function, or interface parameters of the Equipment and its sub-assemblies. The Contractor must submit an Engineering Change Proposal (ECP) for any Class I or II changes that impact the Equipment covered by this contract. ECPs must be prepared in Contractor format, and must include the following information:

- a. The change priority, change classification (Class I or Class II), and change justification.
- b. A complete description of the change to be made and the need for that change.
- c. A complete listing of other Configuration Items impacted by the proposed change and a description of the impact on those CIs.
- d. Proposed changes to documents controlled by the Government.
- e. Proposed serial/lot number effectivities of units to be produced in, or retrofitted to, the proposed configuration.
- f. Recommendations about the way a retrofit should be accomplished.
- g. Impacts to any logistics support elements (such as software, manuals, spares, tools, and similar) being utilized by Government personnel in support of the product.
- h. Impacts to the operational use of the product.
- i. Complete estimated life-cycle cost impact of the proposed change.
- j. Milestones relating to the processing and implementation of the engineering change.

3.19 Mercury Free – Mercury and mercury containing compounds must not be intentionally added or come in direct contact with hardware or supplies furnished under this contract. Mercury contamination of the material will be cause for rejection.

*** QUALITY ASSURANCE REQUIREMENTS ***

3.20 See CDRL DI-MISC-80678 (Test Certification) – A statement of tests performed, listing the pieces tested must be furnished along with a copy of the test results. Certification must include the contractor's name, address and date, quantity inspected, identified to the contract/purchase order and item number, and the Contractor's or authorized personnel's signature. Test certifications must reference the standard/specification, including the revision, to which the testing was performed and the acceptance criteria used. Test procedure numbers may also be referenced on test reports. Test reports on weldments must be identified to weld joint and layer.

3.21 See CDRLs DI-MISC-80875 (welding procedures) and DI-MISC-80876 (weld procedure qualification data) – When production or repair welding is required, the applicable welding procedure(s) and qualification data must be submitted for review and approval. In addition, the CONSUMED WELD METAL C of C as defined below must be submitted as part of the certification QOE package submitted by the Contractor.

Note: These requirements do not apply to tack/spot welds when the conditions of Section 4.2.1.1 of S9074-AR-GIB-010A/278 are met.

3.21.1 Approval of the Contractor's qualification data must be obtained prior to performing any welding (production or repair).

3.21.2 If the Contractors qualification data has previously been approved by the Navy for other contracts, a copy of the original approval letter may be submitted along with the procedures and qualification data report to expedite the approval process. The approval letter must reference the applicable welding procedure and qualification data report identification/number. Prior approval does not guarantee acceptance for this or any future contracts. As far as practical, all procedures for the contract must be submitted at the same time. Welding procedures and qualification data must be submitted in a commercially available electronic format such as Adobe Acrobat PDF. The contractor must state the applicability of each weld procedure and qualification data submitted, citing the drawing number and pieces to be welded. (i.e. "WP-123 and QD-123 are submitted for the weld joint between pieces 1 and 2 on drawing ABC." WP-456 and QD-456 are submitted for the hardfacing of piece 3 on drawing XYZ.")

3.21.3 The PCO's authorization for the use of weld procedure(s) and qualification data for the specific application as submitted does not mitigate the vendors responsibility to comply with the requirements of S9074-AQ-GIB-010/248, S9074-AR-GIB-010A/278, and the contract.

3.21.4 Authority for the repair of Special Repairs in castings, the repair of wrought material, or the repair of forged material must be obtained via request for waiver from the Procurement Contracting Officer. This request must describe the defect; including size, depth, location, and a description of the proposed repair. Repairs deemed minor or nominal in accordance with S9074-AR-GIB-010/278 can be made at contractor discretion in accordance with S9074-AR-GIB-010/278 requirements; however, Weld Procedure Specification (WPS) and Procedure Qualification Record (PQR) submittals are still required. This request for NAVSUP-WSS Contracts must be submitted via the Electronic Contractor Data Submission (ECDS) application.

3.21.5 Any new procedure qualification performed under this Contract will require the vendor to provide a minimum 72

hour notification to DCMA with an offer to observe the welding of the test assemblies. The 72 hour time limit may be modified upon mutual agreement between the vendor and DCMA.

3.21.6 When drawings require hardfacing surface Iron or Nickel content not to exceed 5%, the contractor must verify surface Iron or Nickel content by performing chemical testing as defined by the applicable drawing. The chemical test results must be submitted as part of the qualification data.

3.21.7 Additional qualification requirements for production hardfacing thickness less than 1/8-inch: Macro-etch (or legible photomicrographs clearly showing the fusion area) must be submitted for review and show consistent, minimized dilution. All essential elements and any elements not listed in S9074-AQ-GIB-010/248 that influence dilution must be in the qualification data and weld procedure, with strict limits placed on each essential element.

3.21.8 Preparation and retention of weld records is required, as specified by paragraph 4.1.3 of S9074-AR-GIB-010A/278.

3.21.9 When production or repair welding is required on titanium materials, the applicable fabrication plan, facilities procedure, training plan, and active welder qualification must also be submitted for review and approval.

3.21.10 If the contractor's fabrication plan, facilities procedure, training plan, or active welder qualification has previously been approved by the Navy for other contracts, a copy of the original approval letter may be submitted along with the applicable documentation to expedite the approval process. The approval letter must reference the applicable documentation. Prior approval does not guarantee acceptance for this or any future contracts. The contractor's fabrication plan, facilities procedure, training plan, and active welder qualification must be submitted at the same time as the applicable welding procedure(s) and weld procedure qualification data. All documentation must be submitted in a commercially available electronic format, such as Adobe Acrobat PDF.

3.21.11 See CDRL DI-MISC-80678 (Consumed Weld Metal) - A Certificate of Compliance is required for all weld filler metals used for production or repair welding, and must include the following:

- a) Filler Metal LOT number(s)
- b) Specification and Type
- c) A positive statement that the vendor has obtained OQE and verified that each LOT of weld filler material conforms to specification requirements.
- d) A positive statement verifying that the weld filler metals were the correct material type or grade prior to consumption.

3.21.12 When production welds or repair welds are performed by a subcontractor, the requirement for submission of all certification documentation required herein must be passed down to the subcontractor.

3.22 See CDRL DI-NDTI-80809 (First Article Testing) - First Article Test/Inspection (Contractor) - The Contractor must conduct <non-destructive> First Article Test/Inspection on <1> unit(s) in accordance with requirements <General Note 2 of drawing 803-5959306> .

3.23 See CDRL DI-FORG-80412 (Forging Manufacturing Sketches) and DI-FORG-80962 (First Article Forging Report) - The Forging Sketch must include additional First Article requirements as follows:

- 1 - 100% Ultrasonic Testing must be performed.
- 2 - A minimum of two longitudinal and two transverse tensile tests must be taken. One of each must be taken near the geometric center of the forging. Other longitudinal and transverse tensile tests must be taken from areas representing all section thicknesses. (section thickness is based upon final machined dimensions)

3.24 Quality System Requirements - The Contractor furnishing items under this contract/purchase order must provide and maintain a quality system in accordance with ISO-9001 as amplified or modified herein, with the calibration system requirements of ISO-10012 or ANSI-Z540.3 with ISO-17025. A Quality System in accordance with MIL-I-45208, with the calibration system requirements of MIL-STD-45662, is acceptable as an alternate.

3.24.1 The Contractor's quality system and products supplied under the system are subject to evaluation, verification inspection, and acceptance/nonacceptance by the Government representative to determine the system's effectiveness in meeting the quality requirements established in the Contract/Purchase Order.

3.24.2 The Contractor's quality system must be documented and must be available for review by the Contracting Officer or his representative prior to initiation of production and throughout the life of the contract. The Prime Contractor must, upon notification, make his facilities available for audit by the contracting Officer or his authorized representative.

3.24.3 See CDRL DI-QCIC-81110 (Inspection System Procedures) - All suppliers of Level I/SUBSAFE (LI/SS) material are required to submit a copy of their current documented quality system procedures to the Procurement Contracting Officer (PCO) prior to award of any contract/purchase order. Suppliers that have a copy of their current quality system procedures on file at the Procuring Activity may request the PCO waive this requirement.

3.24.4 This contract provides for the performance of Government Quality Assurance at source. The place or places of performance may not be changed without the authorization of the Procurement Contracting Officer. Upon receipt of this order, promptly notify the Government representative who normally services your plant so that appropriate planning for Government inspection can be accomplished. If you do not have an assigned Government representative,

notify the nearest Defense Contract Management Agency (DCMA) Office. In the event that a local Government representative or DCMA Office cannot be located, our purchasing agent should be notified immediately.

3.24.5 Any changes made by the Contractor to a qualified quality system will require re-submittal to the PCO and concurrence by the Government Quality Assurance Representative prior to adoption.

3.25 Contractor Inspection Requirements - The Contractor must maintain adequate records of all inspections and tests. The records must indicate the nature and number of observations made, the number and type of deficiencies found, the quantities approved and rejected and the nature of corrective action taken as appropriate. Inspection records must be traceable to the material inspected.

3.25.1 The supplier's gages, measuring and test equipment must be made available for use by the Government representative when required to determine conformance with Contract requirements. When conditions warrant, the supplier's personnel must be made available for operations of such devices and for verification of their accuracy and condition.

3.25.2 All documents and reference data applicable to this contract must be available for review by the Government representative. Copies of documents required for Government inspection purposes must be furnished in accordance with the instructions provided by the Government representative.

3.26 Subcontractor Inspection Requirements - The Government has the right to inspect at source, any supplies or services that were not manufactured or performed within the contractor's facility. Such inspection can only be requested by or under authorization of the Government representative. Any purchasing documents to a subcontractor must cite the applicable portions of the contractually invoked quality system (e.g. calibration requirements), plus any product requirements that apply to the supplies being purchased. When the Government elects to perform source inspection at the subcontractor's facility, applicable purchase documents must be annotated with the following statement: "A Government inspection is required prior to shipment from your plant. Upon receipt of this order, promptly notify the Government representative who normally services your plant so that appropriate planning for Government inspection can be accomplished. If you do not have an assigned Government representative, notify the nearest Defense Contract Management Agency (DCMA) Office. In the event that a local Government representative or DCMA Office cannot be located, our purchasing agent should be notified immediately."

3.26.1 The prime contractor's program must include procedures to assess the capability of the prospective suppliers to produce the products or supply the services in accordance with the contract, prior to the issuance of any purchase document.

3.26.2 Each sub-tier supplier of material or services for items in Section 3 of this contract must be subjected to a periodic review or audit by the Prime to determine the continued capability of the supplier to control the quality of the products or services specified in the purchase order or contract.

3.26.3 The prime contractor must ensure that the purchased product conforms to specified purchase requirements and this contract. The type and extent of control applied to the supplier and the purchased product must be dependent upon the effect of the purchased product on the end item represented by this contract.

3.26.4 The prime contractor must evaluate the requirements of the contract and select suppliers based on their ability to supply the product in accordance with the prime contractor's requirements and the contract. Criteria for selection and evaluation must be established. Records of this effort must be available for review by the government.

3.26.5 The prime contractor's supplier quality assurance program must provide for a review of purchase documents to assure applicable quality requirements are included or referenced in the documentation for compliance by the supplier.

3.27 Government Furnished Material and/or Equipment (GFM/GFE) - When material or equipment is furnished by the Government, the Contractor must develop documented control procedures that require at least the following:

3.27.1 Visual examination upon receipt to detect damage during transit.

3.27.2 Inspection for completeness and proper type.

3.27.3 Verification of material quality received.

3.27.4 Periodic inspection and precautions to assure adequate storage conditions and to guard against damage from handling and deterioration during storage.

3.27.5 Functional testing, either prior to or after installation, or both, as required by the Contract to determine satisfactory operation.

3.27.6 Identification and protection from improper use or disposition.

3.27.7 Reporting to the Government, any GFM or GFE property found damaged, malfunctioning, or otherwise unsuitable for use. In the event of damage or malfunction during or after installation, the supplier must determine and record probable cause and necessity for withholding the material from use.

3.27.8 For GFE material, and as required by the terms of the bailment agreement, the supplier must establish procedures for adequate storage, maintenance, and inspection of bailed Government material. Records of all inspection and maintenance performed on bailed property must be maintained.

3.27.9 Material returned to the contractor must be handled as GFM.

3.28 Traceability and Certification Requirements - To assure that correct materials are installed in Level I/SUBSAFE systems, it is imperative that traceability be maintained from the material to the material certification test report and other required Objective Quality Evidence (OQE). The material certification report must completely and accurately reflect that the material supplied meets the specified requirements. Materials requiring Traceability and Certification Data are identified within Paragraph 3, Section C of this contract/purchase order.

3.28.1 The following provides the minimum requirements for maintaining material traceability and supplements the requirements specified in DI-MISC-81020 and elsewhere in the contract/purchase order. The Contractor must develop written procedures that implement the material control requirements stated herein and elsewhere in this Contract/Purchase Order.

3.29 Material Traceability - The certification data report must be identified through a unique traceability number, heat-lot number, or heat-treat number, as applicable, which must also be marked on the material. This traceability marking on the material must provide direct traceability to the material's chemical composition and mechanical properties certification data. For material produced by batch, continuous cast, or continuous pour processes, samples must be taken no less than once in every eight hours of operation for the purpose of validating proper chemical composition and mechanical properties. Traceability must be maintained through all process operations including any subcontracted operations, to the finished component.

3.29.1 Material Marking for Traceability and Identification - The following are the minimum marking requirements. Additional/alternate marking requirements, if applicable, will be specified elsewhere in the contract/purchase order. In addition to the marking requirements on applicable drawings and/or specifications, marking for traceability is required. All traceability markings must be permanently applied in accordance with MIL-STD-792 (except as specified below). An alternate marking method is permissible provided it is an available option in the contractually invoked specification or drawing, except in instances where the material has been modified by this contract/purchase order and differs from that specified in the specification or drawing.

3.29.2 Traceability markings for items with precision machined or plated surfaces, or material with suitable marking surface areas less than 3/8 inches square (either 3/8" x 3/8" or an area equal to 0.1406 inches square) must be applied to a durable tag and the tag securely affixed to the material.

3.29.3 Traceability markings must be maintained through assembly, and whenever possible must be visible after assembly. For items where the marking is not visible after assembly, a durable tag must be securely attached to the assembly identifying the part number, piece number, traceability number, and the location of the permanent mark.

3.29.4 Marking must be legible and must be located so as to not affect the form, fit, and function of the material. <The stems, discs, and disc locknuts must be marked with the seller's name or trademark, the government ready for issue tag serial number of the material provided, and the heat number of the material provided.>

3.30 See CDRL DI-MISC-81020 (Chemical and Mechanical) - Material Certification - In addition to the certification data requirements specified in DI-MISC-81020, the following material certification requirements apply:

3.30.1 Quantitative chemical and mechanical analysis of material traceable to traceability markings is required. Material certification test reports must include the class, form, condition, grade, type, finish, and/or composition, as applicable, of the material supplied.

3.30.2 Re-identification and re-certification of material is required when the material is subjected to a process which alters its properties. If the starting material or raw stock is processed in a manner that will not affect its chemical composition or mechanical properties, the original certifications for the chemical composition and mechanical properties, as required by the material specification, are acceptable. Re-certification of the chemical or mechanical properties is required if a process is used during fabrication that alters the original properties of the material (e.g. alloying, heat treating, or forming). In these instances, the properties of the material must be re-determined and documented to reflect the altered condition. The altered material must be uniquely re-identified with a new traceability number. The properties thus determined and documented, are required for final certification and must conform to the material specification or the contract/purchase order requirements. When only the mechanical properties are altered, the original certification for chemical composition must be over stamped and annotated with the unique traceability material and at a minimum contain the information below.

3.30.3 Material certification data forwarded by the manufacturer must contain a signed certification that the report results represent the actual attributes of the material furnished and indicate full compliance with all applicable specification and contract requirements. Transcription of certification data is prohibited.

3.30.4 ELECTRONIC SIGNATURES.

3.30.5 Electronic signatures on Level I certification documents are considered equivalent to handwritten

signatures.

3.30.6 Suppliers that use electronic signatures to authenticate company certifications and reports must ensure that process is controlled and unique to the individual signing the document. The signer must take a distinct action to electronically sign the document.

3.30.7 Suppliers must develop one method of authentication to be provided at the time of signature. The authentication method must be based on something known only to the signer (e.g., a password) or based on something only the signer possesses (e.g., a card or other device).

3.30.8 Electronic signature applications must not allow unauthorized users to change electronically signed documents or records. All changes to electronically signed documents or records made by authorized users must be revision- or date-controlled, must identify the person making the change, and must clearly reflect that the document or record has been revised.

3.30.9 The prime contractor, as a minimum, must flow down the electronic signature requirements to their sub-tier suppliers and sub-contractors that provide electronically signed company certifications and reports to ensure that they have a procedure to control and identify unique processes for only allowing authorized individuals to sign documents.

3.30.10 Statements on material certification documents must be positive and unqualified. Disclaimers such as "to the best of our knowledge" or "we believe the information contained herein is true" are not acceptable.

3.30.11 If material is received without the required certification papers or with incorrect/missing data on the certification papers, the material will be rejected.

3.30.12 Revisions of OQE must be provided by the originating organization and must include a description of the data modified along with the proper signature requirements herein.

3.30.13 In cases of foreign certification, conversion of foreign language units of measure and properties measured into U.S. units of measure must be annotated on the furnished foreign certifications, if space permits, or placed on an addendum in the same format as the foreign certification data. Such conversion must be identified as to origin with name, title, and signature of the authorized representative of the company making the conversion.

3.30.14 The certification data requirements contained in this appendix must be invoked on the prime contractor who must delegate these requirements to all sub-tier contractors supplying Level I material.

3.31 Material Handling - The written material control process must include the following:

3.31.1 All raw materials must have traceability markings (except as specified below).

3.31.2 Stored raw materials requiring traceability must be segregated to preclude intermingling with materials not requiring traceability.

3.31.3 When traceability markings will be removed by a manufacturing or fabrication process, the marking must be recorded prior to removal and be immediately restored upon completion of the process. If this cannot be done or is impractical, an appropriate material control procedure (such as a bag and tag, tagging, and/or tote box control) must be employed. The material control procedure must provide a method of positive control to preclude commingling of heats/lots or loss of traceability. The traceability marking must be reapplied upon completion of the final manufacturing process.

3.31.4 Brazing or weld filler metals for strength welds forming or integral with pressure containing components or assemblies requiring traceability must be verified to be the correct material, and type or grade, as applicable, prior to consumption. At a minimum, material verification must consist of inspection of material test reports for conformance to specified requirements. Control of welding and brazing filler metals must be maintained to the point of consumption to assure use of the correct type and grade. Markings and traceability requirements do not apply to brazing and weld filler metals after consumption. It is the responsibility of the prime contractor to ensure conformance with the above requirements on welds performed by their subcontractors.

3.31.5 Purchase orders for raw material must specify that the material be traceable to material certification test reports by traceability markings on the material and identified on the test reports. The certification data requirements contained in DI-MISC-81020 must be invoked by the prime contractor on all subcontractors supplying Level I material.

3.31.6 The material control process must include requirements for the maintenance of traceability for items sent out for subcontracted operations. If such operations would remove traceability markings, purchase or work orders must specify a method and marking location for remarking. The contractor must also ensure that subcontractor production controls are adequate to preclude commingling of materials during processing.

3.32 Receiving inspection -

3.32.1 Products and services produced by sub-tier suppliers for incorporation in the contract end item must be

subject to inspection or audit at the time of receipt by the prime prior to further processing within the prime contractor's plant or shipment to another location.

3.32.2 Receiving Inspection must include as a minimum -

Verification that the traceability marking on the material agrees with that on the certification test reports.

Verification that certification test reports are legible and complete.

Verification that the contents of the certification test reports are in compliance with the contractually invoked specifications and requirements.

3.33 Discrepancy reporting -

3.33.1 Nonconforming products from sub-tier suppliers must be identified and processed in accordance with the prime contractor's procedures for controlling nonconforming products. The prime contractor must report the receipt of any nonconforming products to the responsible sub-tier supplier in accordance with established procedures. Nonconforming material records must be maintained and available for review by the government Quality Assurance Representative (QAR).

3.34 Final Inspection - The following inspections must be performed prior to Government inspection and acceptance.

3.34.1 Material Sampling - Material must be inspected for form, fit, and function. Lot acceptance must be based on zero defects and lot rejection based on one defect. The sample size must be in accordance with the sampling plan(s) in the applicable military specification or standard, federal specification or standard, or drawing to which the material was manufactured. In the absence of such sampling plans, sampling inspection must be per ANSI/ASQ-Z1.4, general inspection level II (for sample size selection code), table IIA (for sample size).

SMALL LOT SIZES - For lot sizes of fifty or less, the minimum sample size must be eight units. For lot sizes of eight or less, the sample size must be one hundred percent of the lot.

3.34.2 The Manufacturer may elect to use Statistical Process Control (SPC) to assure product quality in lieu of the above attribute sampling plan, provided that the SPC methodology/system used provides acceptable products to the Government. However, the Government/Navy Receipt Inspection Activity may perform their acceptance inspection of the material using the attribute sampling plan outlined above.

3.34.3 All data concerning material verification (chemical, mechanical or physical properties), traceability (material certifications to material marking), and nondestructive test (NDT) certifications for material must be 100% inspected. The certification test reports must also be 100% inspected for completeness and legibility.

3.34.4 All material requiring traceability must be 100% inspected for traceability marking and that the marking is legible.

3.35 See CDRL DI-MISC-80678 (Special Emphasis C of C) - The certificate of compliance must show traceability to the marking applied on each individual item, and must contain the following information:

1. Contractor's name, address and date.
2. The contract/purchase order number (for example: NO0104-11-P-FA12)
3. The National Stock Number (NSN). The 18 character National Stock Number for Special Emphasis Material includes the two digit COG, the four digit FSC, the 9 digit NIIN, and the two digit SMIC (for example: 1H 4820 012345678 L1) ("N/A" when Not Applicable).
4. Lubricants, sealants, anti-seize, and/or thread locking compounds ("N/A" when Not Applicable).
5. Certification that O-rings, packing, gaskets, or other elastomeric products were installed in a compressed state within an assembly or sub-assembly, prior to expiration of the shelf life ("N/A" when Not Applicable).
6. Manufacturer's compound number ("N/A" when Not Applicable).
7. When weld procedure submittal is required by the contract, a statement that the approval date of the qualification data precedes any production or repair welding performed on this Contract. ("N/A" when Not Applicable).
8. A statement to the effect that all items furnished on this contract are in full compliance with the specifications and requirements and list each contractually invoked conformance/compliance test performed by name and that it was performed satisfactorily.
9. Contractor's or authorized personnel's signature.

3.35.1 <The certificate of compliance must also state that the material(s) supplied by the Government for use on this contract, in fact, were used to manufacture the item(s) on this contract without explanation or substitution of other material. In addition, the certificate of compliance must also reference the Government ready for issue tag serial number.>

WSSTERMCZ05

CONFIGURATION MANAGEMENT - MARITIME

1.0 Configuration Management

1.1 The cognizant systems command (SYSCOM), Naval Sea Systems Command (NAVSEA) or Naval Information Warfare Systems

WSSTERMCZ05 (CONT)
CONFIGURATION MANAGEMENT - MARITIME

Command (NAVWAR), Program Manager will maintain configuration control and change authority for all items in this contract.

1.2 In accordance with the configuration management provisions of this contract, the Contractor must maintain the total Equipment baseline configuration of the parts on this contract including, but not limited to, hardware, software and firmware.

NOTE: The latest revisions of the DOD Forms referenced in this term can be found at <https://www.esd.whs.mil/dd>. The latest revisions of the DIDs referenced in this term can be found at <https://quicksearch.dla.mil/>.

2.0 Engineering Changes

2.1 The Government will not be responsible for any contract delay or disruption or any increased costs of performance of the Contractor due to a misclassification of an Engineering Change Proposal (ECP) by the Contractor, including those costs associated with replacement of delivered items resulting from such a misclassification. ECP's are classified as either Class I (Major) or Class II (Minor). For detailed classification criteria refer to DD Form 1692 instructions sheet. ECPs must be prepared in accordance with DI-SESS-80639E, Engineering Change Proposal (ECP).

NOTE: Any ECP or notification of an ECP submitted to the PCO in accordance with this paragraph must also be copied to the NAVSUP WSS CM Team at usn.philadelphia.navsupsphil.mbx.configuration-management@us.navy.mil.

2.1.1 Class I (Major) Changes: The Contractor must coordinate with the cognizant SYSCOM Program Office prior to any Class I ECP submission. The Contractor must notify the Procurement Contracting Officer (PCO) of any pending or approved Class I engineering changes with another Government activity that the Contractor proposes to incorporate under this contract. The cognizant SYSCOM Program Office will approve or disapprove of Class I changes. Any approved Class I change may necessitate contract changes by the PCO, which changes may be handled under the Changes clause of this contract, FAR 52.243-1. The Contractor must not implement a Class I change on this contract until a contract modification is issued by the PCO.

2.1.2 Class II (Minor) Changes: Class II changes must be submitted to the cognizant Defense Contract Management Agency (DCMA) Contract Management Office (CMO), or to the Supervisor of Shipbuilding (SUPSHIP) Groton, for concurrence in classification and may be implemented only upon receiving DCMA, SUPSHIP, or NAVSEA/NAVWAR Technical Warrant Holder (TWH) concurrence. On Navy Special Emphasis Program contracts/purchase orders, the Contractor must submit the Class II (Minor) change to the PCO for approval or disapproval. Class II changes must be made at no additional cost to the Government.

2.2 The Contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a Class I or Class II ECP.

3.0 Variances

3.1 The Contractor must not deliver any item for acceptance by the Government that incorporates a known departure from product definition information unless a Request for Variance (RFV) has been approved. Authorized variances are a temporary departure from the requirements only and do not authorize a change to the item's configuration baseline. RFVs are classified as Critical, Major, or Minor. For detailed classification criteria refer to the DD Form 1694 instructions sheet. Variance requests must be prepared in accordance with DI-SESS-80640E - Request for Variance (RFV).

NOTE: Any RFV submitted to the PCO in accordance with this paragraph must also be copied to the NAVSUP WSS RFV Review Team at usn.philadelphia.navsupsphil.mbx.rfv-review-team@us.navy.mil.

3.1.1 Critical/Major Variances: The Contractor must submit all critical/major variance requests via DCMA or SUPSHIP and the PCO, to the SYCOM Program Office or their delegated representative, for approval or disapproval. All approved critical/major variances require a contract modification by the PCO prior to final inspection and acceptance of the items.

3.1.2 Minor Variances: For minor RFVs, delivery and/or shipment of such items under this contract is not permitted until the request is approved by the cognizant DCMA CMO, SUPSHIP, or SYSCOM TWH. On Navy Special Emphasis Program contracts/purchase orders, the Contractor must submit minor variance requests via DCMA or SUPSHIP and the PCO, to the

**WSSTERMCZ05 (CONT)
CONFIGURATION MANAGEMENT - MARITIME**

SYSCOM Program Office or their delegated representative, for approval or disapproval.

3.2 The Contractor is not entitled to any equitable adjustment to the contract price or terms based on the Government's disapproval of a major/critical or minor variance.

MIL-STD 2073 PACKAGING APPLIES AS FOUND ELSEWHERE IN THE SCHEDULE

**252.211-7003
ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)**

(a) Definitions. As used in this clause-

"Automatic identification device" means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

"Concatenated unique item identifier" means-

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

"Data matrix" means a two-dimensional matrix symbology, which is made up of square or, in some cases, round modules arranged within a perimeter finder pattern and uses the Error Checking and Correction 200 (ECC200) specification found within International Standards Organization (ISO)/International Electrotechnical Commission (IEC) 16022.

"Data qualifier" means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

"DoD recognized unique identification equivalent" means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>

"DoD item unique identification" means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are

**252.211-7003 (CONT)
ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)**

serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot or batch number; and the serial number.

"Enterprise" means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

"Enterprise identifier" means a code that is uniquely assigned to an enterprise by an issuing agency.

"Government's unit acquisition cost" means—

- (1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;
- (2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and
- (3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

"Issuing agency" means an organization responsible for assigning a globally unique identifier to an enterprise, as indicated in the Register of Issuing Agency Codes for ISO/IEC 15459, located at http://www.aimglobal.org/?Reg_Authority15459.

"Issuing agency code" means a code that designates the registration (or controlling) authority for the enterprise identifier.

"Item" means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

"Lot or batch number" means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

"Machine-readable" means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

"Original part number" means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

"Parent item" means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

"Serial number within the enterprise identifier" means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

"Serial number within the part, lot, or batch number" means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

"Serialization within the enterprise identifier" means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

"Serialization within the part, lot, or batch number" means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

"Type designation" means a combination of letters and numerals assigned by the Government to a major end item,

252.211-7003 (CONT)
ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

assembly or subassembly, as appropriate, to provide a convenient means of differentiating between items having the same basic name and to indicate modifications and changes thereto.

"Unique item identifier" means a set of data elements marked on items that is globally unique and unambiguous. The term includes a concatenated unique item identifier or a DoD recognized unique identification equivalent.

"Unique item identifier type" means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <https://www.acq.osd.mil/asda/dpc/ce/ds/unique-id.html>

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) Unique item identifier.

(1) The Contractor shall provide a unique item identifier for the following:

(i) Delivered items for which the Government's unit acquisition cost is \$5,000 or more; except for the following line items:

Contract Line, Subline, or Exhibit Line Item Number	Item Description
< >	< >
< >	< >
< >	< >
< >	< >

(ii) Items for which the Government's unit acquisition cost is less than \$5,000 that are identified in the Schedule or the following table:

Contract Line, Subline, or Exhibit Line Item Number	Item Description
< >	< >
< >	< >
< >	< >
< >	< >

(If items are identified in the Schedule, insert "See Schedule" in this table.)

(iii) Subassemblies, components, and parts embedded within delivered items, items with warranty requirements, DoD serially managed reparables and DoD serially managed nonreparables as specified in Attachment Number < > .

(iv) Any item of special tooling or special test equipment as defined in FAR 2.101 that have been designated for preservation and storage for a Major Defense Acquisition Program as specified in Attachment Number < > .

(v) Any item not included in paragraphs (c)(1)(i), (ii), (iii), or (iv) of this clause for which the contractor creates and marks a unique item identifier for traceability.

(2) The unique item identifier assignment and its component data element combination shall not be duplicated on any other item marked or registered in the DoD Item Unique Identification Registry by the contractor.

(3) The unique item identifier component data elements shall be marked on an item using two dimensional data matrix symbology that complies with ISO/IEC International Standard 16022, Information technology – International symbology specification – Data matrix; ECC200 data matrix specification.

(4) Data syntax and semantics of unique item identifiers. The Contractor shall ensure that --

(i) The data elements (except issuing agency code) of the unique item identifier are encoded within the data matrix symbol that is marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Application Identifiers (AIs) (Format Indicator 05 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology – EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(B) Data Identifiers (DIs) (Format Indicator 06 of ISO/IEC International Standard 15434), in accordance with ISO/IEC International Standard 15418, Information Technology – EAN/UCC Application Identifiers and Fact Data Identifiers and Maintenance and ANSI MH 10.8.2 Data Identifier and Application Identifier Standard.

(C) Text Element Identifiers (TEIs) (Format Indicator 12 of ISO/IEC International Standard 15434), in accordance with the Air Transport Association Common Support Data Dictionary; and

252.211-7003 (CONT)**ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)**

(ii) The encoded data elements of the unique item identifier conform to the transfer structure, syntax, and coding of messages and data formats specified for Format Indicators 05, 06, and 12 in ISO/IEC International Standard 15434, Information Technology – Transfer Syntax for High Capacity Automatic Data Capture Media.

(5) Unique item identifier.

(i) The Contractor shall–

(A) Determine whether to–

- (1) Serialize within the enterprise identifier;
- (2) Serialize within the part, lot, or batch number; or
- (3) Use a DoD recognized unique identification equivalent; (e.g. Vehicle Identification Number);

and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; DoD recognized unique identification equivalent; and for serialization within the part, lot, or batch number only: original part, lot or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in MIL-STD-130, Identification Marking of U.S. Military Property, latest version:

(C) Label shipments, storage containers and packages that contain uniquely identified items in accordance with the requirements of MIL-STD-129, Military Marking for Shipment and Storage, latest version; and

(D) Verify that the marks on items and labels on shipments, storage containers, and packages are machine readable and conform to the applicable standards. The contractor shall use an automatic identification technology device for this verification that has been programmed to the requirements of Appendix A, MIL-STD-130, latest version.

(ii) The issuing agency code–

(A) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires item unique identification under paragraph (c)(1)(i), (ii) or (iv) of this clause or when item unique identification is provided under paragraph (c)(1)(v), in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, as part of the Material Inspection and Receiving Report, the following information:

- (1) Unique item identifier.
- (2) Unique item identifier type.
- (3) Issuing agency code (if concatenated unique item identifier is used).
- (4) Enterprise identifier (if concatenated unique item identifier is used).
- (5) Original part number (if there is serialization within the original part number).
- (6) Lot or batch number (if there is serialization within the lot or batch number).
- (7) Current part number (optional and only if not the same as the original part number).
- (8) Current part number effective date (optional and only if current part number is used).
- (9) Serial number (if concatenated unique item identifier is used).
- (10) Government's unit acquisition cost.
- (11) Unit of measure.
- (12) Type designation of the item as specified in the contract schedule, if any.
- (13) Whether the item is an item of Special Tooling or Special Test Equipment.
- (14) Whether the item is covered by a warranty.

(e) For embedded subassemblies, components, and parts that require DoD item unique identification under paragraph (c)(1)(iii) of this clause or when item unique identification is provided under paragraph (c)(1)(v), the Contractor shall report as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

(1) Unique item identifier of the parent item under paragraph (c)(1) of this clause that contains the embedded subassembly, component, or part.

(2) Unique item identifier of the embedded subassembly, component, or part.

(3) Unique item identifier type.**

(4) Issuing agency code (if concatenated unique item identifier is used).**

(5) Enterprise identifier (if concatenated unique item identifier is used).**

(6) Original part number (if there is serialization within the original part number).**

(7) Lot or batch number (if there is serialization within the lot or batch number).**

(8) Current part number (optional and only if not the same as the original part number).**

(9) Current part number effective date (optional and only if current part number is used).**

(10) Serial number (if concatenated unique item identifier is used).**

(11) Description.

** Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause as follows:

(1) End items shall be reported using the receiving report capability in Wide Area Workflow (WAWF) in accordance with the clause at 252.232-7003. If WAWF is not required by this contract, and the contractor is not using WAWF, follow the procedures at <http://dodprocurementtoolbox.com/site/uidregistry/>.

(2) Embedded items shall be reported by one of the following methods–

(i) Use of the embedded items capability in WAWF;

(ii) Direct data submission to the IUID Registry following the procedures and formats at

252.211-7003 (CONT)
ITEM UNIQUE IDENTIFICATION AND VALUATION (JAN 2023)

<http://dodprocurementtoolbox.com/site/uidregistry/>; or

(iii) Via WAWF as a deliverable attachment for exhibit line item number < > , Unique Item Identifier Report for Embedded Items, Contract Data Requirements List, DD Form 1423.

(g) Subcontracts. If the Contractor acquires by subcontract any item(s) for which item unique identification is required in accordance with paragraph (c)(1) of this clause, the Contractor shall include this clause, including this paragraph (g), in the applicable subcontract(s), including subcontracts for commercial products or commercial services.

WSSTERMDZ03
PRESERVATION, PACKAGING, PACKING AND MARKING

The contractor shall preserve, package, pack and mark all items as cited below. Where specifications or standards are cited herein the latest revision of that specification or standard shall apply.

1. PRESERVATION REQUIREMENTS

a. **SYSTEM STOCK SHIPMENTS** - The contractor shall preserve all items intended to enter the military distribution system for stock in accordance with the MIL-STD-2073-1, "Standard Practice for Military Packaging", Packaging Requirements Code specified in the Section B, Part I of the Schedule. When a Specialized Preservation Code/Method of Preservation (MOP) (Table J-Ia) is specified, and one or more of the following packaging fields (WM, CUD, CT, UC) value is a 00 (numeric), the Specialized Preservation/MOP procedure and materials takes precedence. Contractors should disregard the LP field and third digit of the PACK field and use the Unit Container Level (UCL) to identify the level of packing protection the unit container meets for packing requirements. When HM = D, the item is regulated in accordance with Title 49 Code of Federal Regulations (CFR); when HM = N the item is not regulated for transportation.

1) When a specified packaging material has an associated Qualified Products List (QPL), the contractor shall use only packaging materials produced by a manufacturer listed on the applicable QPL. Barrier materials that have QPLs are MIL-PRF-131, MIL-PRF-81705, MIL-PRF-22191, MIL-PRF-3420 and MIL-PRF-22019. Sources for QPL material can be obtained from the Qualified Products Database at <http://qpldocs.dla.mil/>.

b. **IMMEDIATE USE/INSTALLATION AND PART NUMBER BUY SHIPMENTS** - Government PCO or ACO approval is required to use the packaging standards outlined in this paragraph. Any national stock numbered (NSN) item required for immediate use (used or consumed within 7 days of receipt) or direct installation, or part numbered item (authority granted to ship without NSN) shall be preserved and packed in accordance with ASTM D3951-18 (2023), "Standard Practice for Commercial Packaging", for all shipments to a Continental United States (CONUS) government activity or contractor-owned facility. All material destined for overseas shipment (OCONUS) shall be preserved in accordance with MIL-STD-2073-1.

c. **GOVERNMENT-OWNED MATERIAL** - In the event that the contract expires, is terminated, or completed, and Government-owned material is to be returned to the supply system, the contractor shall preserve and package this material in accordance with the requirements of paragraph 1.a.

2. PROTECTION FROM DEGRADATION DUE TO ELECTROSTATIC (ES)/ELECTROMAGNETIC (EM) FORCES

a. When ASTM D3951-18 (2023) is authorized for packaging and the item is considered Electrostatic Discharge sensitive (ESDS), protection shall be in accordance with ANSI/ESD S20.20-2021, "For the Development of an ESD Control Program for - Protection of Electrical and Electronic Parts, Assemblies and Equipment (Excluding Electrically Initiated Explosive Devices)."

b. When MIL-STD-2073-1 is specified and the preservation method code (PMT) in the solicitation does not specify ESD/EM protection (PMT = GX) and the contractor's proposed item of supply is subject to degradation from ES/EM forces, contractors shall provide recommended packaging data with their proposals/quotes.

3. PACKING REQUIREMENTS - The contractor shall pack as follows:

Domestic Shipments (CONUS): Level B

Overseas Shipments (OCONUS) (including Navy ships at sea):

Via air, FPO, APO	Level B
Via freight forwarder	Level B
Via surface	Level A

Exterior shipping containers for Packing Levels A and B are listed in MIL-STD-2073-1, Appendix C, Table C.II. Long-life reusable containers and wood containers are shipping containers which do not require overpacking for shipment.

WSSTERMDZ03 (CONT)

PRESERVATION, PACKAGING, PACKING AND MARKING

4. MARKING REQUIREMENTS - All unit, intermediate and shipping containers shall be marked in accordance with MIL-STD-129. In addition, the following specific requirements apply:

a. ADDITIONAL MARKING FOR SPARES ONLY - Each MIL-STD-129 label shall also include the following:

- 1) Procurement Instrument Identifier (PIID) - the 13-digit contract order number,
- 2) Contract Line Item Number (CLIN) - the 4-digit individual line item number (e.g. 0001, 0002, etc.), and
- 3) SubCLIN - the 6-digit sub line item number (e.g. 0001AA, 0001AB, 0002AA, 0002AB, etc.).

b. DEPOT LEVEL REPAIRABLE (DLR) LABELS

1) Items identified with a Cognizance (COG) Code of either "7" or an even number preceding the NSN, excluding 6A, 6H and 6X COGs (e.g. 7RH 5826-014289999), are defined as Depot Level Repairable (DLR) items. DLR items require that a DLR label be placed on the outside of the unit, intermediate and shipping containers as close to the bar code label as possible.

EXCEPTION: When a DLR item requires use of both a reusable inner unit container and a reusable outer shipping and storage container (excluding wood and fiberboard), only the inner unit container shall be affixed with a DLR label. In these cases only, DLR labels shall NOT be placed on the outer reusable container.

2) Labels are available via the Naval Forms Online website: <https://forms.documentservices.dla.mil/order/>. The website will advise the procedures for ordering and establishing an account.

3) NAVSUP WSS authorizes contractors to create and print their own DLR labels. Labels shall follow the standard size and font options listed in below chart. Text shall be in all upper case letters of the same style font. The label used shall be sized proportionate to the size of the container. Labels shall be horizontally printed and consist of yellow "DLR" text font on a solid blue background. Labels shall meet requirements of MIL-STD-129 section 4.2.2. Labels shall be of a water-resistant grade of paper, film, or plastic, coated on one side with water-insoluble, permanent type adhesive. The adhesive shall adhere to metal, plastic, aluminum or fiberboard surfaces under high and low temperatures. Labels shall have a finish suitable for printing and writing on with ink without feathering or spreading, be capable of withstanding normal handling and storage conditions, and remain securely in position. Application specific performance criteria and durability requirements to ensure functionality in various climatic environments should be tailored, if required, using MIL-PRF-61002. MIL-PRF-61002 can be used as an acquisition tool when labels presently being used are not performing satisfactorily or when new conditions or applications require special label stock for those particular situations.

NSN	DESCRIPTION	QUANTITY PER UNIT PACKAGE	APPLICATION	FORM NUMBER
0108LF5055300	DLR Label 2in.x3in.	100	Unit Container	NAVSUP 1397-1
0108LF5055000	DLR Label 3in.x5in.	100	Intermediate Shipping Container	NAVSUP 1397

c. SPECIAL MATERIAL IDENTIFICATION CODE (SMIC) FOR NAVSUP WSS MARITIME REQUIREMENTS ONLY

1) Certain Program related items are identified by a two-position SMIC, which appears as a suffix to the NSN (e.g. 1H 4730 009001317 L1), and require special markings. Containers shall be marked or labeled with letters, maximum two inches high on two (2) sides and two (2) ends as follows:

SMIC	MARKINGS	COLOR	TYPE CONTAINER
L1	LEVEL 1	RED	Unit, intermediate and shipping (size permitting)
S1	SURFACE LEVEL 1	RED	Unit, intermediate and shipping (size permitting)
D4/D5/D7	DSS-SOC	RED	Unit, intermediate and shipping (size permitting)
C1*	LEVEL 1 SPECIAL CLEAN 02-N2	Green	Unit, intermediate and shipping
CP/VG*	SPECIAL CLEAN 02-N2	GREEN	Unit, intermediate and shipping
D0/D6/D8*	DSS-SOC SPECIAL CLEAN 02-N2	Green	Unit, intermediate and shipping

*denotes Oxygen Clean requirements in accordance with MIL-STD-1330 "Precision Cleaning and Testing of Shipboard Oxygen, Helium, Helium-Oxygen, Nitrogen, and Hydrogen Systems."

5. PALLETIZATION. Palletization of shipments shall be accomplished in accordance with MIL-STD-147 "DOD Standard Practice: Palletized Unit Loads." Failure to meet these palletization/packaging requirements and measures, without a written waiver from the PCO or ACO, may result in charges back to the contractor for repalletization and/or repackaging of items. Pallets shall conform to the requirements of American National Standards Institute, Material Handling-MH1-2016, Pallets, Slip Sheets, and Other Bases for Unit Loads. MH1-2016 may be obtained at the following website: <http://www.mhi.org>.

a. General Purpose Unit Loads - When shipping directly to a Navy afloat unit, pallets meeting MH1-2016, Part No. MH1/9-02SW4048 or MH1/9-10BW4048 for unit loads under 1,500 pounds and MH1/9-03SW4048 for unit loads over 1,500 pounds shall be used.

b. Hazardous Material Unit Loads - Unless otherwise specified in the contract or purchase order hazardous material containers, except cylinders and 55 gallon drums, shall be palletized utilizing MH1-2016 Part No. MH1/9-07SW4848 pallets.

c. Use of nonstandard commercial pallets is prohibited.

6. WOOD PACKAGING MATERIAL (WPM). All shipments destined to the DOD must be treated and marked in accordance with the International Standards for Phytosanitary Measures Guidelines for Regulating Wood Packaging Material in International Trade (ISPM 15).

a. For all WPM furnished under this contract the contractor shall ensure the American Lumber Standards Committee (ALSC) approved mark is applied to every shipment regardless of destination.

b. Failure to comply with the requirements of ISPM 15 may result in refusal of the shipment, destruction or corrective treatment of WPM at the point of receipt and the associated costs charged back to the contractor.

7. NAVY SHELF-LIFE PROGRAM. Navy shelf-life requirements are listed under the item description in a 3-digit alpha/numeric code. Position one (1) is the DOD shelf-life code, defining the type of shelf-life for an item (Type I, non -extendible or Type II, extendible), and the number of months an item can remain ready for issue in a Navy specified package. Positions two (2) and three (3) combined form the Navy-unique shelf-life action codes used by storage activities, and do not impose any requirements on the contractor. The contractor shall use the applicable shelf-life paragraphs and table in MIL-STD-129 to apply either Type I or Type II shelf-life markings to an item's unit, intermediate and shipping containers. Contractors will ensure that at least eighty-five percent (85%) of the Navy shelf-life requirement is remaining when received by the first government activity.

8. REUSABLE NSN CONTAINERS. An item that has an NSN assigned in the "Container NSN" field (e.g . 8145 012622982) requires shipment in a reusable shipping and storage container.

a. REUSABLE CONTAINERS FOR NAVSUP WSS, MARITIME REQUIREMENTS - Reusable NSN containers for maritime material (designated by a COG Code of "7E", "7G" and "7H") shall be provided as contractor-furnished material (CFM).

b. REUSABLE CONTAINERS FOR NAVSUP WSS, AVIATION REQUIREMENTS - Reusable NSN containers (excluding fiberboard and most wood) for aviation material (designated by a COG Code of "7R", "6K" or "OR") shall be provided as government-furnished material (GFM). Fast pack containers will not be provided as GFM. To obtain GFM reusable containers, the contractor must request via email usn.philadelphia.navsupwssphil.mbx.navsupcrf@us.navy.mil at least 90 days prior to the anticipated shipping date, 30 days prior for repair contracts. If the Navy's Container Management Area (CMA) informs the contractor that containers are unavailable, the following alternate packaging requirements apply. The unavailability of reusable containers shall not be an excusable delivery delay.

ALTERNATE PACKAGING REQUIREMENTS FOR ITEMS ASSIGNED THE FOLLOWING CONTAINERS

Container NSN	Container Part Number (80132)	Alternate Packaging Code IAW MIL-STD-2073-1
8145 002609548	P069-2

d. The stock-numbered, long-life, reusable containers identified herein as GFM are property of the U.S. Navy and only shall be used to fulfill orders from the Navy and U.S. Marine Corps; these containers shall not be used to fulfill orders from the U.S. Army, U.S. Air Force, any other agency of the U.S. Government or Foreign Military Sales (FMS) customer.

9. REUSABLE NSN CONTAINERS FOR FOREIGN MILITARY SALES (FMS), JOINT PROGRAM OFFICE (JPO) OR OTHER FOREIGN FORCES ACQUISITION

a. Reusable shipping and storage containers shall be provided as CONTRACTOR-FURNISHED MATERIAL (CFM), unless otherwise specified.

b. Contractors may tender offers including alternate, non-reusable, packaging methods and be considered responsive.

10. HAZARDOUS MATERIALS. This section applies when items to be delivered under this contract are considered hazardous materials as defined by 49 CFR, FED-STD-313, or by the Government's technical representative.

a. Packaging and marking for hazardous materials shall comply with applicable requirements for Performance Oriented Packaging (POP) contained in 49 CFR and the international modal regulations. All performance test requirements shall be supported by test certificates and reports attesting to the date and the results obtained from performance oriented packaging testing. The contractor shall be responsible for assuring that sources providing performance testing services are registered with the U.S. Department of Transportation (DOT). The contractor's signed certification that the packaged configuration meets the applicable modal regulation shall be incorporated on the Wide Area Workflow Receiving Report (WAWF RR), DD Form 250, Material Inspection and Receiving Report, or other related acceptance documents if a WAWF RR, DD Form 250 is not used. The Shipper's Declaration for Dangerous Goods (SDDG) must be included for all air shipments and uploaded to WAWF. All test certificates, reports and training records shall be available for inspection by authorized Government representatives for a period of three years.

b. When a contract/order for hazardous material requires shipment to a military aerial port or through a military container consolidation point including DODAACs SW3225, SW3123, SW3142, N45627, FB4427, FB9150, FB4497, FY8910, FY9125, FB4418, FY4462, FB4484, FY4494, those shipments shall comply with NAVSUP PUB 505/AFMAN 24-204, Preparing Hazardous Materials for Military Air Shipment.

11. SAFETY DATA SHEETS. As required by clauses FAR 52.223-3 "Hazardous Material Identification and Material Safety Data" and DFARS 252.223-7001 "Hazard Warning Labels" the contractor/offeror is required to list any hazardous material to be delivered under the resultant contract by the submission of Safety Data Sheets (SDSs) and Globally

WSSTERMDZ03 (CONT)
PRESERVATION, PACKAGING, PACKING AND MARKING

Harmonized System (GHS) compliant product label, when applicable, to the NAVSUP WSS or DLA Contracting Officer prior to award. An electronic copy in PDF format of the SDS and GHS product label must also be emailed to NAVSUP WSS Code N242 at NAVSUPWSSMECH.HAZMAT@US.NAVY.MIL. Please include the NSN, CAGE, Part Number, quantity of hazardous material, contract number, and point of contact for hazardous material questions in the body of the email.

12. REPACKAGING TO CORRECT PACKAGING DEFICIENCIES

a. Notwithstanding inspection and acceptance by the Government of items furnished under this contract, or any condition of this contract concerning the conclusiveness thereof, the contractor guarantees that the preservation, packaging, packing and marking (PPP&M), and the preparation of, and method of shipment of such items will conform to the requirements of this contract.

b. Items that do not conform to the PPP&M requirements of this contract may have a Supply Discrepancy Report (SDR, SF-364) written against the contractor at the time of receipt.

c. The Government may at the option of the PCO or ACO, correct PPP&M deficiencies, without prior contractor notification, and require an equitable adjustment in the contract price to cover labor and material when corrective actions are warranted, or return the non-conforming material to the contractor for repackaging at the contractor's expense.

52.246-11 HIGHER-LEVEL CONTRACT QUALITY REQUIREMENT (DEC 2014)

(a) The Contractor shall comply with the higher-level quality standard(s) listed below.
(Contracting Officer insert the title, number, date, and tailoring (if any) of the higher-level quality standards.)
<ISO 9001>

(b) The Contractor shall include applicable requirements of the higher-level quality standard(s) listed in paragraph (a) of this clause and the requirement to flow down such standards, as applicable, to lower-tier subcontracts, in-

- (1) Any subcontract for critical and complex items (see 46.203(b) and (c)); or
- (2) When the technical requirements of a subcontract require-
 - (i) Control of such things as design, work operations, in-process control, testing, and inspection; or
 - (ii) Attention to such factors as organization, planning, work instructions, documentation control, and advanced metrology.

52.246-16 RESPONSIBILITY FOR SUPPLIES (APR 1984)

52.246-2 INSPECTION OF SUPPLIES--FIXED-PRICE (AUG 1996)

This clause is incorporated by reference with the same force and effect as if it were given in full text.

(< >) Alternate I (JUL 1985) applies when a fixed-price incentive contract is contemplated.

(< >) Alternate II (JUL 1985) applies when a fixed-ceiling-price contract with retroactive price redetermination is contemplated.

WSSTERMEZ02 PRODUCTION LOT TESTING

Production Lot Testing in accordance with the Specification incorporated in Section C of the contract is required. The production lot test samples or report must be presented to the Government Quality Assurance Representative (GQAR) by the scheduled delivery date for supplies cited elsewhere in the contract. The Contracting Officer* shall notify, in writing, of the approval, conditional approval, or disapproval of the samples or report within <request from PM> days of receipt of same. The rights and obligations of, and remedies available to the Contractor and the Government are those detailed in FAR Clause 52.246-2 Inspection of Supplies-Fixed Price incorporated by reference in this contract with respect to approval or disapproval of the Production Lot Testing. Shipment of the Production Lot shall be accomplished as soon as possible after notification of approval of samples or test reports. Samples that are destroyed in testing will not be returned to the Contractor. Samples that are not destroyed through testing will be returned at contractor's expense via commercial collect Bill of Lading.**

(*The GQAR is authorized to provide approval or disapproval of a production lot and report when Block 7 of the DD Form 1423 is Coded SS)

(**Production lot test samples that are not destroyed in testing and that satisfy contract requirements may be delivered as part of the total contract quantity). (11-92)

TRANSPORTATION ASSISTANCE

To obtain transportation assistance for an upcoming shipment, contractors are to follow the appropriate directions listed below, based on the terms and conditions of the specific contract.

1. For all contracts administered by a Defense Contract Management Agency (DCMA) office (as shown on Page 1 of the contract, or in a subsequent modification), contractors are to contact the Transportation Office at that DCMA.

If the DCMA Transportation Office is unable to provide assistance, contractors may contact transportation customer service at TARPINQ.WSS.fct@navy.mil for transportation arrangements.

2. For FOB Destination contracts, consignment address information is available electronically at the DoD Activity Address Codes (DODAAC) website <https://home.daas.dla.mil/daashome/daasingq.asp>.

For this type of contract, additional information can be found in the clause WSSTERMLZ06 entitled "CONSIGNMENT INSTRUCTIONS."

PART I - THE SCHEDULE
SECTION G
CONTRACT ADMINISTRATION DATA

252.232-7006

WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(a) Definitions. As used in this clause--

"Department of Defense Activity Address Code (DoDAAC)" is a six position code that uniquely identifies a unit, activity, or organization.

"Document Type" means the type of payment request or receiving report available for creation in Wide Area Workflow (WAWF).

"Local processing office (LPO)" is the office responsible for payment certification when payment certification is done external to the entitlement system.

"Payment request" and "receiving report" are defined in the clause at 252.232-7003, electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall--

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.sam.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the Webb Based Training link on the WAWF home page at <https://wawf.eb.mil/>

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

252.232-7006 (CONT)
WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

- (1) Document type. The Contractor shall submit payment requests using the following document type(s):
 - (i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.
 - (ii) For fixed price line items--

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

(<combo>)(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

(<na>)(Contracting Officer: Insert either Invoice 2in1 or the applicable invoice and receiving report document type(s) for fixed price line items for services.)

- (iii) For customary progress payments based on costs incurred, submit a progress payment request.
- (iv) For performance based payments, submit a performance based payment request.
- (v) For commercial financing, submit a commercial financing request.

(2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

(f) (Note: The Contractor may use a WAWF combo document type to create some combinations of invoice and receiving report in one step.)

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	(<tbid>)
Issue By DoDAAC	(<n00104>)
Admin DoDAAC	(<tbid>)
Inspect By DoDAAC	(<tbid>)
Ship To Code	(<N50286>)
Ship From Code	(<tbid>)
Mark For Code	(< >)
Service Approver (DoDAAC)	(< >)
Service Acceptor (DoDAAC)	(<n/a>)
Accept at Other DoDAAC	(< >)
LPO DoDAAC	(< >)
DCAA Auditor DoDAAC	(< >)
Other DoDAAC(s)	(<n/a>)

(Contracting Officer: Insert applicable DoDAAC information. If multiple ship to/acceptance locations apply, insert See Schedule or Not applicable.)

(Contracting Officer: If the contract provides for progress payments or performance-based payments, insert the DoDAAC for the contract administration office assigned the functions under FAR 42.302(a)(13).)

(4) Payment request. The Contractor shall ensure a payment request includes documentation appropriate to the type of payment request in accordance with the payment clause, contract financing clause, or Federal Acquisition

252.232-7006 (CONT)
WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (JAN 2023)

Regulation 52.216-7, Allowable Cost and Payment, as applicable.

(5) Receiving report. The Contractor shall ensure a receiving report meets the requirements of DFARS Appendix F.

(g) WAWF point of contact.

(1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

(< >)(Contracting Officer: Insert applicable information or "Not applicable.")

(2) Contact the WAWF helpdesk at 866-618-5988, if assistance is needed.

PART I - THE SCHEDULE
SECTION H
SPECIAL CONTRACT REQUIREMENTS

SUPTXT203.1106-1
NAVY USE OF ABILITYONE SUPPORT CONTRACTOR - RELEASE OF OFFEROR INFORMATION (3-18)

NAVSUP <WSS> (activity) may utilize contractor support through the AbilityOne Program, as needed, to perform contract closeout functions for this acquisition. Information, including business sensitive/confidential or proprietary data, that the offeror provides to the Government or information already in the possession of the Government may be viewed and utilized by the AbilityOne Program support contractor personnel during the course of its contract performance. The information that may be made available to the support contractor may include, for example, pricing and technical proposals, historical contract, pricing and performance information, Commercial Asset Visibility (CAV) reporting information and similar data/information.

By submission of a proposal in response to this solicitation, the offeror and its subcontractors consent to a release of their business sensitive/confidential or proprietary data to the Government's AbilityOne Program support contractor personnel.

AbilityOne will have a Non-Disclosure/Non-Use Agreement in place with the Government in order to comply with DFARS 252-227-7025. The offeror retains the right to engage AbilityOne in a non-disclosure agreement pursuant to DFARS 252.227-7025(b)(5)(iv).

WSSTERMHZ04
TRANSMISSION ABROAD OF EQUIPMENT OR TECHNICAL DATA

(a) Except with prior written consent of the Contracting Officer, the Contractor shall not, at any time during or after the performance of this contract, transmit or authorize the transmittal of any equipment or technical data as defined in paragraph (b) below, (1) outside the United States, or (2) irrespective of location, (i) to any foreign national not working on this contract or on a subcontract hereunder, (ii) to any foreign organization (including foreign subsidiaries and affiliates of the Contractor), (iii) to any Government, or (iv) to any international organization.

(b) As used in this clause, the following terms shall have the following definitions:

(1) "United States" means the States, the District of Columbia, Puerto Rico, American Samoa, the Canal Zone, the Virgin Islands, Guam, and an area subject to the complete sovereignty of the United States.

(2) "Equipment" means all supplies of the kind specified to be delivered under this contract, all component parts thereof, and all models or such supplies and component parts and models thereof.

(3) "Technical data" means all professional, scientific, or technical information and data produced or prepared for the performance of this contract, or on or for the operation, maintenance, evaluation, or testing of any contract item whether or not the information and data were specified to be delivered under this contract, including without limitation, all writings, sound recordings, pictorial reproductions and drawings or other graphical representations. "Technical data" does not include such information and data on standard commercial supplies and component parts in or in connection with any item or component part thereof, specified to be delivered under this contract.

(4) "Foreign national or immigrant alien" means a person not a United States citizen or a United States National. United States Citizens acting as agents for foreign concerns are considered to be foreign nationals for industrial security purposes and the purpose of this restriction.

WSSTERMHZ04 (CONT)
TRANSMISSION ABROAD OF EQUIPMENT OR TECHNICAL DATA

(c) The Contractor agrees to insert in all subcontractors under this contract provision, which shall conform substantially to the language of this clause, including this paragraph (c). (11-92)

WSSTERMHZ17
MANDATORY USE OF WORKFLOW PRO (WFP) MOD ASSIST MODULE

The use of Workflow Pro (WFP) Mod Assist is required under this purchase order/contract.

Mod Assist is the mandatory means of submitting an official request for modification of this contract. Unless otherwise authorized, in writing, by a warranted Contracting Officer, no other means for submitting a request for modification to a contract, or a request for any action that would require a modification to the contract to execute will be accepted by the Government. Submission of a request for modification of terms and conditions to this contract is not a guarantee that the terms or conditions will be modified.

The Mod Assist module should not be used by contractors to request signatures of End Use Certificates, Non-transfer Certificates.

Should the Contractor experience concerns with the use of Mod Assist, the Contractor must contact < > (fill in Contract Specialist (CS) or Post-award Coordinator (PAC)). The Government will not be responsible for any contract delay or disruption or any increased costs of performance of the Contractor due to the required use or any failure by the Contractor to use the Mod Assist module.

PROCEDURES FOR CONTRACTORS TO REQUEST ACCESS TO WORKFLOW PRO (WFP) MOD ASSIST

Click on the link [https://public.navsup.navy.mil/public/ops\\$workflow_pro_public.LOGIN](https://public.navsup.navy.mil/public/ops$workflow_pro_public.LOGIN) to open the NAVSUP WSS Workflow Pro (WFP) Mod Assist Vendor page.

To request an account, navigate to the bottom of the page and click "Request Account". Fill in the information to create the user profile, you must select a Point of Contact from the drop-down menu. Select "Privacy Act Agreement"; after reading the statement, click "Agree". When all data has been entered on the form, click the blue "Submit" button. Notification will be sent when the account is established.
 (03-26)

PART II - CONTRACT CLAUSES
SECTION I
CONTRACT CLAUSES

52.219-4
NOTICE OF PRICE EVALUATION PREFERENCE FOR HUBZONE SMALL BUSINESS CONCERNS (DEV
2026-00037)(FEB 2026)

(a) Evaluation preference.

- (1) Offers will be evaluated by adding a factor of 10 percent to the price of all offers, except
 - (i) Offers from HUBZone small business concerns that have not waived the evaluation preference; and
 - (ii) Otherwise successful offers from small business concerns.

(b) Waiver of evaluation preference. A HUBZone small business concern may choose to waive the evaluation preference. If the concern waives the preference, the factor will be added to its offer for evaluation purposes.

_____ Offeror chooses to waive the evaluation preference.

(c) Joint Venture. A HUBZone joint venture agrees that, in the performance of the contract, at least 40 percent of the aggregate work performed by the joint venture shall be completed by the HUBZone small business parties to the joint venture. Work performed by the HUBZone small business parties to the joint venture must be more than administrative functions.

52.204-7
SYSTEM FOR AWARD MANAGEMENT (DEV 2026-00043)(FEB 2026)

52.248-1
VALUE ENGINEERING (JUN 2020)

52.248-1 (CONT)
VALUE ENGINEERING (JUN 2020)

52.248-1 is Incorporated by Reference (IBR).

If checked, the alternate below applies:

(< >) Alternate I (APR 1984) If the contracting officer selects a mandatory value engineering program requirement, substitute the following paragraph (a) for paragraph (a) of the basic clause:

(a) General. The Contractor shall (1) engage in a value engineering program, and submit value engineering progress reports, as specified in the Schedule and (2) submit to the Contracting Officer any resulting value engineering change proposals (VECP's). In addition to being paid as the Schedule specifies for this mandatory program, the Contractor shall share in any net acquisition savings realized from accepted VECP's, in accordance with the program requirement sharing rates in paragraph (f) below.

(< >) Alternate II (JAN 2017) If the contracting officer selects both a value engineering incentive and mandatory value engineering program requirement, substitute the following paragraph (a) for paragraph (a) of the basic clause:

(a) General. For those line items designated in the Schedule as subject to the value engineering program requirement, the Contractor shall (1) engage in a value engineering program, and submit value engineering progress reports, as specified in the Schedule and (2) submit to the Contracting Officer any resulting VECP's. In addition to being paid as the Schedule specifies for this mandatory program, the Contractor shall share in any net acquisition savings realized from VECP's accepted under the program, in accordance with the program requirement sharing rates in paragraph (f) below. For remaining areas of the contract, the Contractor is encouraged to develop, prepare, and submit VECP's voluntarily; for VECP's accepted under these remaining areas, the incentive sharing rates apply. The decision on which rate applies is a unilateral decision made solely at the discretion of the Government.

(< >) Alternate III (APR 1984) When the head of the contracting activity determines that the cost of calculating and tracking collateral savings will exceed the benefits to be derived in a contract calling for a value engineering incentive, delete paragraph (j) from the basic clause and redesignate the remaining paragraphs accordingly.

252.225-7002
QUALIFYING COUNTRY SOURCES AS SUBCONTRACTORS (MAR 2022)

252.225-7016
RESTRICTION ON ACQUISITION OF BALL AND ROLLER BEARINGS (JAN 2023)

(a) Definitions. As used in this clause--
 (1) "Bearing components" means the bearing element, retainer, inner race, or outer race.
 (2) "Component," other than a bearing component, means any item supplied to the Government as part of an end product or of another component.
 (3) "End product" means supplies delivered under a line item of this contract.

(b) Except as provided in paragraph (c) of this clause --
 (1) Each ball and roller bearing delivered under this contract shall be manufactured in the United States, its outlying areas, or Canada; and
 (2) For each ball or roller bearing, the cost of the bearing components manufactured in the United States, its outlying areas, or Canada shall exceed 50 percent of the total cost of the bearing components of that ball or roller bearing.

(c) The restriction in paragraph (b) of this clause does not apply to ball or roller bearings that are acquired as --
 (1) Commercial components of an other than commercial; or
 (2) Commercial or other than commercial components of an commercial component of a other than commercial end product.

(d) The restriction in paragraph (b) of this clause may be waived upon request from the Contractor in accordance with subsection 225.7009-4 of the Defense Federal Acquisition Regulation Supplement.

**252.225-7016 (CONT)
RESTRICTION ON ACQUISITION OF BALL AND ROLLER BEARINGS (JAN 2023)**

(e) If this contract includes DFARS Clause 252.225-7009, Restriction on Acquisition of Certain Articles Containing Specialty Metals, all bearings that contain specialty metals, as defined in that clause, must meet the requirements of that clause.

(f) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (f), in all subcontracts, except those for --
(1) Commercial products; or
(2) Items that do not contain ball or roller bearings.

**252.225-7021
TRADE AGREEMENTS-BASIC (FEB 2024)**

**52.215-14
INTEGRITY OF UNIT PRICES (NOV 2021)**

52.215-14 is Incorporated by Reference (IBR).

(< >) Alternate I (OCT 1997) As prescribed in 15.408(f)(2), substitute the following paragraph (b) for paragraph (b) of the basic clause:

(b) The Offeror/Contractor shall also identify those supplies that it will not manufacture or to which it will not contribute significant value.

**252.208-7000
INTENT TO FURNISH PRECIOUS METALS AS GOVERNMENT-FURNISHED MATERIAL (DEC 1991)**

(a) The Government intends to furnish precious metals required in the manufacture of items to be delivered under the contract if the Contracting Officer determines it to be in the Government's best interest. The use of Government-furnished silver is mandatory when the quantity required is one hundred troy ounces or more. The precious metal(s) will be furnished pursuant to the Government Furnished Property clause of the contract.

(b) The Offeror shall cite the type (silver, gold, platinum, palladium, iridium, rhodium, and ruthenium) and quantity in whole troy ounces of precious metals required in the performance of this contract (including precious metals required for any first article or production sample), and shall specify the national stock number (NSN) and nomenclature, if known, of the deliverable item requiring precious metals.

Precious Metal*	Quantity	Deliverable Item (NSN and Nomenclature)
-----------------	----------	--

*If platinum or palladium, specify whether sponge or granules are required.

(c) Offerors shall submit two prices for each deliverable item which contains precious metals—one based on the Government furnishing precious metals, and one based on the Contractor furnishing precious metals. Award will be made on the basis which is in the best interest of the Government.

(d) The Contractor agrees to insert this clause, including this paragraph (d), in solicitations for subcontracts and purchase orders issued in performance of this contract, unless the Contractor knows that the item being purchased contains no precious metals.

**252.232-7003
ELECTRONIC SUBMISSION OF PAYMENT REQUESTS & RECEIVING REPORTS (DEC 2018)**

**52.203-6
RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT (JUN 2020)**

(a) Except as provided in (b) below, the contractor shall not enter into any agreement with an actual or prospective subcontractor, nor otherwise act in any manner, which has or may have the effect of restricting sales by such subcontractors directly to the Government of any item or process (including computer software) made or furnished by the subcontractor under this contract or under any follow-on production contract.

(b) The prohibition in (a) above does not preclude the Contractor from asserting rights that are otherwise authorized by law or regulation.

(c) The Contractor agrees to incorporate the substance of this clause, including this paragraph (c), in all subcontractors under this contract which exceed the simplified acquisition threshold, as defined in Federal Acquisition regulation 2.101 on the date of subcontract award.

Alternate I (NOV 2021). As prescribed in 3.503-2, substitute the following paragraph (b) of the basic clause:
(b) The prohibition in paragraph (a) of this clause does not preclude the Contractor from asserting rights that are otherwise authorized by law or regulation. For acquisitions of commercial products or commercial services, the prohibition in paragraph (a) applies only to the extent that any agreement restricting sales by subcontractors results in the Federal Government being treated differently from any other prospective purchaser for the sale of the commercial product(s) and commercial service(s).

**252.225-7001
BUY AMERICAN AND BALANCE OF PAYMENTS PROGRAM -BASIC (FEB 2024)**

**52.222-35
EQUAL OPPORTUNITY FOR VETERANS (DEV 2026-00040)(FEB 2026)**

(a) Definitions. As used in this clause--

"Active duty wartime or campaign badge veteran," "Armed Forces service medal veteran," "disabled veteran," "protected veteran," "qualified disabled veteran," and "recently separated veteran" have the meanings given at Federal Acquisition Regulation (FAR) 22.1301.

(b) Equal opportunity requirements. The Contractor shall abide by the requirements of requirements of 38 U.S.C. 4212(a)(1) and (2). These requirements prohibit discrimination against qualified protected veterans, and requires affirmative action by the Contractor to employ and advance in employment qualified protected veterans.

(c) Subcontracts. The Contractor must insert the terms of this clause in subcontracts valued at or above the threshold specified in FAR 22.1302-1(a)(2) on the date of subsubcontract award, unless exempted by rules, regulations, or orders of the Secretary of Labor. The Contractor must act as specified by the Director, Office of Federal Contract Compliance Programs, to enforce the terms, including action for noncompliance. Such necessary changes in language may be made as shall be appropriate of identify properly the parties and their undertakings.

< > Alternate I (Jul 2014) As prescribed in 22.1302(a)(2), add the following as a preamble to the clause:

Notice: The following term(s) of this clause are waived for this contract: List term(s).

< >
< >
< >

**252.232-7010
LEVIES ON CONTRACT PAYMENTS (DEC 2006)**

**252.225-7012
PREFERENCE FOR CERTAIN DOMESTIC COMMODITIES (APR 2022)**

**52.249-8
DEFAULT (FIXED-PRICE SUPPLY AND SERVICE) (APR 1984)**

**52.246-17
WARRANTY OF SUPPLIES OF A NONCOMPLEX NATURE (JUNE 2003)**

52.246-17 (CONT)

WARRANTY OF SUPPLIES OF A NONCOMPLEX NATURE (JUNE 2003)

(a) Definitions. As used in this clause--

"Acceptance," means the act of an authorized representative of the Government by which the Government assumes for itself, or as an agent of another, ownership of existing supplies, or approves specific services as partial or complete performance of the contract.

"Supplies," means the end item furnished by the Contractor and related services required under the contract. The word does not include "data".

(b) Contractor's obligations.

(1) Notwithstanding inspection and acceptance by the Government of supplies furnished under this contract, or any condition of this contract concerning the conclusiveness thereof, the Contractor warrants that for <One year from date of delivery> (Contracting Officer shall state specific period of time after delivery, or the specified event whose occurrence will terminate the warranty period; e.g., the number of miles or hours of use, or combinations of any applicable events or periods of time)--

(i) All supplies furnished under this contract will be free from defects in material or workmanship and will conform with all requirements of this contract, and

(ii) The preservation, packaging, packing and marking, and the preparation for, and method of, shipment of such supplies will conform with the requirements of this contract.

(2) When return, correction, or replacement is required, transportation charges and responsibility for the supplies while in transit shall be borne by the Contractor. However, the Contractor's liability for the transportation charges shall not exceed an amount equal to the cost of transportation by the usual commercial method of shipment between the place of delivery specified in this contract and the Contractor's plant, and return.

(3) Any supplies or parts thereof, corrected or furnished in replacement under this clause, shall also be subject to the terms of this clause to the same extent as supplies initially delivered. The warranty, with respect to supplies or parts thereof, shall be equal in duration to that in paragraph (b)(1) of this clause and shall run from the date of delivery of the corrected or replaced supplies.

(4) All implied warranties of merchantability and "fitness for a particular purpose" are excluded from any obligation contained in this contract.

(c) Remedies available to the Government.

(1) The Contracting Officer shall give written notice to the Contractor of any breach of warranties in paragraph (b)(1) of this clause within <One year from date of delivery> (Contracting Officer shall insert specific period of time; e.g., "45 days of the last delivery under this contract," or "45 days after discovery of the defect").

(2) Within a reasonable time after the notice, the Contracting Officer may either--

(i) Require, by written notice, the prompt correction or replacement of any supplies or parts thereof (including preservation, packaging, packing, and marking) that do not conform with the requirements of this contract within the meaning of paragraph (b)(1) of this clause; or

(ii) Retain such supplies and reduce the contract price by an amount equitable under the circumstances.

(3)(i) If the contract provides for inspection of supplies by sampling procedures, conformance of supplies or components subject to warranty action shall be determined by the applicable sampling procedures in the contract.

The Contracting Officer--

(A) May, for sampling purposes, group any supplies delivered under this contract;

(B) Shall require the size of the sample to be that required by sampling procedures specified in the contract for the quantity of supplies on which warranty action is proposed;

(C) May project warranty sampling results over supplies in the same shipment or other supplies contained in other shipments even though all of such supplies are not present at the point of reinspection; provided, that the supplies remaining are reasonably representative of the quantity on which warranty action is proposed; and

(D) Need not use the same lot size as on original inspection or reconstitute the original inspection lots.

(ii) Within a reasonable time after notice of any breach of the warranties specified in paragraph (b)(1) of this clause, the Contracting Officer may exercise one or more of the following options:

(A) Require an equitable adjustment in the contract price for any group of supplies.

(B) Screen the supplies grouped for warranty action under this clause at the Contractor's expense and return all nonconforming supplies to the Contractor for correction or replacement.

(C) Require the Contractor to screen the supplies at locations designated by the Government within the contiguous United States and to correct or replace all nonconforming supplies.

(D) Return the supplies grouped for warranty action under this clause to the Contractor (irrespective of the f.o.b. point or the point of acceptance) for screening and correction or replacement.

(4)(i) The Contracting Officer may, by contract or otherwise, correct or replace the nonconforming supplies with similar supplies from another source and charge to the Contractor the cost occasioned to the Government thereby if the Contractor --

(A) Fails to make redelivery of the corrected or replaced supplies within the time established for their return; or

(B) Fails either to accept return of the nonconforming supplies or fails to make progress after their return to correct or replace them so as to endanger performance of the delivery schedule, and in either of these circumstances does not cure such failure within a period of 10 days (or such longer period as the Contracting

52.246-17 (CONT)

WARRANTY OF SUPPLIES OF A NONCOMPLEX NATURE (JUNE 2003)

Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure.

(ii) Instead of correction or replacement by the Government, the Contracting Officer may require an equitable adjustment of the contract price. In addition, if the Contractor fails to furnish timely disposition instructions, the Contracting Officer may dispose of the nonconforming supplies for the Contractor's account in a reasonable manner. The Government is entitled to reimbursement from the Contractor or from the proceeds of such disposal, for the reasonable expenses of the care and disposition of the nonconforming supplies, as well as for excess costs incurred or to be incurred.

(5) The rights and remedies of the Government provided in this clause are in addition to and do not limit any rights afforded to the Government by any other clause of this contract.

Alternate I (Reserved)

(< >) Alternate II (Apr 1984). If it is desirable to specify that necessary transportation incident to correction or replacement will be at the Government's expense (as might be the case if, for example, the cost of a warranty would otherwise be prohibitive), substitute a paragraph substantially the same as the following paragraph (b)(2) for paragraph (b)(2) of the basic clause:

(2) If correction or replacement is required and transportation of supplies in connection with correction or replacement is necessary, transportation charges and responsibility for supplies while in transit shall be borne by the Government.

(< >) Alternate III (Apr 1984). If the supplies cannot be obtained from another source, substitute a paragraph substantially the same as the following paragraph (c)(4) for paragraph (c)(4) of the basic clause:

(4) If the Contractor does not agree as to responsibility to correct or replace the supplies delivered, the Contractor shall nevertheless proceed in accordance with the written request issued by the Contracting Officer under paragraph (c)(2) of this clause to correct or replace the defective or nonconforming supplies. In the event it is later determined that the supplies were not defective or nonconforming within the terms and conditions of this clause, the contract price will be equitably adjusted.

(< >) Alternate IV (Apr 1984). If a fixed-price incentive contract is contemplated, add a paragraph substantially the same as the following paragraph (c)(6) to the basic clause:

(6) All costs incurred or estimated to be incurred by the Contractor in complying with this clause shall be considered when negotiating the total final price under the Incentive Price Revision clause of this contract. After the establishment of the total final price, Contractor compliance with this clause shall be at no increase in the total final price. Any equitable adjustment made under paragraph (c)(2) of this clause shall be governed by the paragraph entitled "Equitable Adjustments Under Other Clauses" in the Incentive Price Revision clause of this contract.

(< >) Alternate V (Apr 1984). If it is anticipated that recovery of the warranted item will involve considerable Government expense for disassembly and/or reassembly of larger items, add a paragraph substantially the same as the following paragraph (c)(6) to the basic clause. Redesignate the additional paragraph as "(c)(7)" if Alternate IV is also being used.

(6) The Contractor shall be liable for the reasonable costs of disassembly and/or reassembly of larger items when it is necessary to remove the supplies to be inspected and/or returned for correction or replacement.

52.219-28

POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (DEV 2026-00037)(FEB 2026)

(a) Definitions. As used in this clause-

"Long-term contract" means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

"Small business concern"

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

52.219-28 (CONT)**POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (DEV 2026-00037)(FEB 2026)**

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresented its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support--table-size-standards>.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition-

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contract may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

(1) The Contractor represents that it () is, () is not a small business concern under NAICS Code _____ assigned to contract number _____.

(2) (Complete only if the Contractor represented itself as a small business concern in paragraph (g)(1) of this clause.) The Contractor represents that it () is, () is not, a small disadvantaged business concern as defined in 13 CFR 124.1001.

(3) Women-owned small business (WOSB) joint venture eligible under the WOSB Program. The Contractor represents that it () is, () is not a joint venture that complies with the requirements of 13 CFR part 127.506(a) through (c). (The Contractor shall enter the name and unique entity identifier of each party to the joint venture: __.)

(4) Economically disadvantaged women-owned small business (EDWOSB) joint venture. The Contractor represents that it () is, () is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). (The Contractor shall enter the name and unique entity identifier of each party to the joint venture: __.)

52.219-28 (CONT)
POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (DEV 2026-00037)(FEB 2026)

(8) Service-disabled veteran-owned small business (SDVOSB) joint venture eligible under the SDVOSB Program. The Contractor represents that it () is, () is not an SDVOSB joint venture eligible under the SDVOSB Program that complies with the requirements of 13 CFR 128.402. (The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.)

(9) (Complete only if the Contractor represented itself as a small business concern in paragraph (h)(1) of this clause.) The Contractor represents that-

(i) It () is, () is not a HUBZone small business concern listed, on the date of this representation, on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration, and no material changes in ownership and control, principal office, or HUBZone employee percentage have occurred since it was certified in accordance with 13 CFR part 126; and

(ii) It () is, () is not a HUBZone joint venture that complies with the requirements of 13 CFR part 126, and the representation in paragraph (h)(8)(i) of this clause is accurate for each HUBZone small business concern participating in the HUBZone joint venture. (The Contractor shall enter the names of each of the HUBZone small business concerns participating in the HUBZone joint venture: _____.) Each HUBZone small business concern participating in the HUBZone joint venture shall submit a separate signed copy of the HUBZone representation.

(Contractor to sign and date and insert authorized signer's name and title).

252.203-7000
REQUIREMENTS RELATING TO COMPENSATION OF FORMER DOD OFFICIALS (SEP 2011)

(a) Definition. "Covered DoD official," as used in this clause, means an individual that-

(1) Leaves or left DoD service on or after January 28, 2008; and

(2)(i) Participated personally and substantially in an acquisition as defined in 41 U.S.C. 131 with a value in excess of \$10 million, and serves or served-

(A) In an Executive Schedule position under subchapter II of chapter 53 of Title 5, United States Code;

(B) In a position in the Senior Executive Service under subchapter VIII of chapter 53 of Title 5, United States Code; or

(C) In a general or flag officer position compensated at a rate of pay for grade O-7 or above under section 201 of Title 37, United States Code; or

(ii) Serves or served in DoD in one of the following positions: program manager, deputy program manager, procuring contracting officer, administrative contracting officer, source selection authority, member of the source selection evaluation board, or chief of a financial or technical evaluation team for a contract in an amount in excess of \$10 million.

(b) The Contractor shall not knowingly provide compensation to a covered DoD official within 2 years after the official leaves DoD service, without first determining that the official has sought and received, or has not received after 30 days of seeking, a written opinion from the appropriate DoD ethics counselor regarding the applicability of post-employment restrictions to the activities that the official is expected to undertake on behalf of the Contractor.

(c) Failure by the Contractor to comply with paragraph (b) of this clause may subject the Contractor to rescission of this contract, suspension, or debarment in accordance with 41 U.S.C. 2105(c).

252.225-7048
EXPORT CONTROLLED ITEMS (JUNE 2013)

52.204-10
REPORTING EXECUTIVE COMPENSATION AND FIRST-TIER SUBCONTRACT AWARDS (DEV 2026-00043)(FEB 2026)

(a) Definitions. As used in this clause:

"Executive" means officers, managing partners, or any other employees in management positions.

"First-tier subcontract" means a subcontract awarded directly by the Contractor to acquire supplies or services (including construction) for performing a prime contract. It does not include the Contractor's supplier agreements

52.204-10 (CONT)
REPORTING EXECUTIVE COMPENSATION AND FIRST-TIER SUBCONTRACT AWARDS (DEV 2026-00
043)(FEB 2026)

with vendors, such as long-term arrangements for materials or supplies that benefit multiple contracts and/or the costs of which are normally applied to a Contractor's general and administrative expenses or indirect costs.

"Month of award" means the month in which the Contracting Officer signs a contract or the month in which the Contractor signs a first-tier subcontract.

"Total compensation" means the cash and noncash dollar value earned by the executive during the Contractor's preceding fiscal year and includes the information described at 17 CFR 229.402(c)(2)):

(b) Requirement. Section 2(d)(2) of the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109-282), as amended by section 6202 of the Government Funding Transparency Act of 2008 (Pub. L. 110-252), requires the Contractor to report information on subcontract awards. The law requires all reported information be made public; therefore, the Contractor is responsible for notifying its subcontractors that the required information will be made public. Nothing in this clause requires disclosing classified information.

(c) Reporting. Unless otherwise directed by the Contracting Officer, or as provided in paragraph (f) of this clause, the Contractor shall report the following in the System for Award Management at <https://www.sam.gov> as follows:

(1) Executive compensation of the prime contractor. The Contractor shall report the names and total compensation of each of the five most highly compensated executives for its preceding completed fiscal year, if-

- (i) In the Contractor's preceding fiscal year, the Contractor received-
 - (A) 80 percent or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and
 - (B) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and
- (ii) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (To determine if the public has access to the compensation information, see the U.S. Security and Exchange Commission total compensation filings at <http://www.sec.gov/answers/execomp.htm>.)

(2) First-tier subcontract information. The Contractor shall report the following information by the end of the month following the month of award of each first-tier subcontract.

- (i) Unique entity identifier for the subcontractor receiving the award and for the subcontractor's parent company, if the subcontractor has a parent company.
- (ii) Name of the subcontractor.
- (iii) Amount of the subcontract award.
- (iv) Date of the subcontract award.
- (v) A description of the products or services (including construction) being provided under the subcontract, including the overall purpose and expected outcomes or results of the subcontract.
- (vi) The subcontract number assigned by the Prime Contractor.
- (vii) Subcontractor's physical address.
- (viii) Subcontractor's primary performance location.
- (ix) The prime contract number, and order number if applicable.
- (x) Awarding agency name and code.
- (xi) Funding agency name and code.
- (xii) Government contracting office code.
- (xiii) The applicable North American Industry Classification System code (NAICS).

(3) Executive compensation of the first-tier subcontractor. The Contractor shall report by the end of the month following the month of award of a first-tier subcontract award and annually thereafter (calculated from the prime contract award date) the names and total compensation of each of the five most highly compensated executives for that subcontractor in the subcontractor's preceding completed fiscal year, if-

- (i) In the subcontractor's preceding fiscal year, the subcontractor received-
 - (A) 80 percent or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and
 - (B) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements and other forms of Federal financial assistance; and
- (ii) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. (see <http://www.sec.gov/answers/execomp.htm>).

(d) Restriction. The Contractor shall not split or break down subcontracts to a value below the threshold at the Federal Acquisition Regulation 4.208(e), on the date of subcontract award, to avoid the reporting requirements in paragraph (c) of this clause.

(e) Duration. Continued reporting on first-tier subcontracts is not required unless one of the reported data

52.204-10 (CONT)
REPORTING EXECUTIVE COMPENSATION AND FIRST-TIER SUBCONTRACT AWARDS (DEV 2026-00
043)(FEB 2026)

elements changes during the performance of the subcontract. The Contractor is not required to make further reports after a first-tier subcontract expires.

(f) Exceptions.

(1) If the Contractor in the previous tax year had gross income, from all sources, under \$300,000, the Contractor is exempt from the requirement to report subcontractor awards.

(2) If a subcontractor in the previous tax year had gross income from all sources under \$300,000, the Contractor does not need to report awards for that subcontractor.

(g) Prepopulated data. The Subcontract Reports in SAM will prepopulate with some information from SAM and the Federal Procurement Data System (FPDS). If the FPDS information is incorrect, the Contractor should notify the Contracting Officer. If the SAM information is incorrect, the Contractor is responsible for correcting this information.

52.222-36
EQUAL OPPORTUNITY FOR WORKERS WITH DISABILITIES (DEV 2026-00040)(FEB 2026)

(a) Equal opportunity clause. The Contractor must abide by the requirements of the equal opportunity clause at 41 CFR 60-741.5(a), as of March 24, 2014. This clause prohibits discrimination against qualified individuals on the basis of disability, and requires affirmative action by the Contractor to employ and advance in employment qualified individuals with disabilities.

(b) Subcontracts. The Contractor must include the terms of this clause in every subcontract or purchase order in excess of the threshold specified in Federal Acquisition Regulation (FAR) 22.1401-2(a)(1) on the date of subcontract award, unless exempted by rules, regulations, or orders of the Secretary, so that such provisions will be binding upon each subcontractor or vendor. The Contractor shall act as specified by the Director, Office of Federal Contract Compliance Programs of the U.S. Department of Labor, to enforce the terms, including action for noncompliance. Such necessary changes in language may be made as shall be appropriate to identify properly the parties and their undertakings.

If checked, the alternate below applies:

(< >) Alternate I (JUL 2014). As prescribed in 22.1401-2(a)(2), add the following as a preamble to the clause:

Notice: The following term(s) of this clause are waived for this contract:

52.203-12
LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (JUN 2020)

52.219-13
NOTICE OF SET-ASIDE OF ORDERS (MAR 2020)

(a) The Contracting Officer may set aside orders for the small business concerns identified in 19.000(a)(3).

(b) The Contracting Officer will give notice of the order or orders, if any, to be any, to be set aside for small business concerns identified in 19.000(a)(3) and the applicable small business program. This notice, and its restrictions, will apply only to the specific orders that have been set aside for any of the small business concerns identified in 19.000(a)(3).

252.204-7012
SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JUN 2026
)(DEV 2026-00025)

(a) Definitions. As used in this clause-

"Adequate security" means protective measures that are commensurate with the consequences and probability of loss, misuse, or unauthorized access to, or modification of information.

252.204-7012 (CONT)
SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JUN 2026)
)(DEV 2026-00025)

"Compromise" means disclosure of information to unauthorized persons, or a violation of the security policy of a system, in which unauthorized intentional or unintentional disclosure, modification, destruction, or loss of an object, or the copying of information to unauthorized media may have occurred.

"Contractor attributional/proprietary information" means information that identifies the contractor(s), whether directly or indirectly, by the grouping of information that can be traced back to the contractor(s) (e.g., program description, facility locations), personally identifiable information, as well as trade secrets, commercial or financial information, or other commercially sensitive information that is not customarily shared outside of the company.

"Controlled technical information" means technical information with military or space application that is subject to controls on the access, use, reproduction, modification, performance, display, release, disclosure, or dissemination. Controlled technical information would meet the criteria, if disseminated, for distribution statements B through F, using the criteria set forth in DoD Instruction 5230.24, Distribution Statements on Technical Documents. The term does not include information that is lawfully publicly available without restrictions.

"Covered contractor information system" means an unclassified information system that is owned, or operated by or for, a contractor and that processes, stores, or transmits covered defense information.

"Covered defense information" means unclassified controlled technical information or other information, as described in the Controlled Unclassified Information (CUI) Registry at <http://www.archives.gov/cui/registry/category-list.html>, that requires safeguarding or dissemination controls pursuant to and consistent with law, regulations, and Governmentwide policies, and is-

(1) Marked or otherwise identified in the contract, task order, or delivery order and provided to the contractor by or on behalf of DoD in support of the performance of the contract; or

(2) Collected, developed, received, transmitted, used, or stored by or on behalf of the contractor in support of the performance of the contract.

"Cyber incident" means actions taken through the use of computer networks that result in a compromise or an actual or potentially adverse effect on an information system and/or the information residing therein.

"Forensic analysis" means the practice of gathering, retaining, and analyzing computer-related data for investigative purposes in a manner that maintains the integrity of the data.

"Information system" means a discrete set of information resources organized for the collection, processing, maintenance, use, sharing, dissemination, or disposition of information.

"Malicious software" means computer software or firmware intended to perform an unauthorized process that will have adverse impact on the confidentiality, integrity, or availability of an information system. This definition includes a virus, worm, Trojan horse, or other code-based entity that infects a host, as well as spyware and some forms of adware.

"Media" means physical devices or writing surfaces including, but is not limited to, magnetic tapes, optical disks, magnetic disks, large-scale integration memory chips, and printouts onto which covered defense information is recorded, stored, or printed within a covered contractor information system.

"Operationally critical support" means supplies or services designated by the Government as critical for airlift, sealift, intermodal transportation services, or logistical support that is essential to the mobilization, deployment, or sustainment of the Armed Forces in a contingency operation.

"Rapidly report" means within 72 hours of discovery of any cyber incident.

"Technical information" means technical data or computer software, as those terms are defined in the clause at DFARS 252.227-7989, Rights in Technical Data-Other Than Commercial Products and Commercial Services, regardless of whether

252.204-7012 (CONT)
SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JUN 2026)
)(DEV 2026-00025)

or not the clause is incorporated in this solicitation or contract. Examples of technical information include research and engineering data, engineering drawings, and associated lists, specifications, standards, process sheets, manuals, technical reports, technical orders, catalog-item identifications, data sets, studies and analyses and related information, and computer software executable code and source code.

(b) Adequate security. The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

(i) Cloud computing services shall be subject to the security requirements specified in the clause 252.239-7010, Cloud Computing Services, of this contract.

(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations", Revision 2 (available at <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-171r2.pdf>) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

(ii)(A) The Contractor shall implement NIST SP 800-171, as soon as practical, but not later than December 31, 2017. For all contracts awarded prior to October 1, 2017, the Contractor shall notify the DoD Chief Information Officer (CIO), via email at osd.dibcsia@mail.mil, within 30 days of contract award, of any security requirements specified by NIST SP 800-171 not implemented at the time of contract award.

(B) The Contractor shall submit requests to vary from NIST SP 800-171 in writing to the Contracting Officer, for consideration by the DoD CIO. The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/documents-templates/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

**252.204-7012 (CONT)
SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JUN 2026)
(DEV 2026-00025)**

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the Contractor shall--

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <https://dibnet.dod.mil>.

(2) Cyber incident report. The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <https://dibnet.dod.mil>.

(3) Medium assurance certificate requirement. In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see <https://public.cyber.mil/eca/>.

(d) Malicious software. When the Contractor or subcontractors discover and isolate malicious software in connection with a reported cyber incident, submit the malicious software to DoD Cyber Crime Center (DC3) in accordance with instructions provided by DC3 or the Contracting Officer. Do not send the malicious software to the Contracting Officer.

(e) Media preservation and protection. When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) Access to additional information or equipment necessary for forensic analysis. Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) Cyber incident damage assessment activities. If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) DoD safeguarding and use of contractor attributional/proprietary information. The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) Use and release of contractor attributional/proprietary information not created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD--

- (1) To entities with missions that may be affected by such information;
- (2) To entities that may be called upon to assist in the diagnosis, detection, or mitigation of cyber incidents;
- (3) To Government entities that conduct counterintelligence or law enforcement investigations;
- (4) For national security purposes, including cyber situational awareness and defense purposes (including with Defense Industrial Base (DIB) participants in the program at 32 CFR part 236); or
- (5) To a support services contractor ("recipient") that is directly supporting Government activities under a contract that includes the clause at 252.204-7009, Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

252.204-7012 (CONT)
SAFEGUARDING COVERED DEFENSE INFORMATION AND CYBER INCIDENT REPORTING (JUN 2026)
)(DEV 2026-00025)

(j) Use and release of contractor attributional/proprietary information created by or for DoD. Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government's use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) Other safeguarding or reporting requirements. The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor's responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) Subcontracts. The Contractor shall--

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial products or commercial services, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to--

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

52.209-3
FIRST ARTICLE APPROVAL--CONTRACTOR TESTING (DEV 2026-00042)(FEB 2026)

(a) The Contractor shall test <one> unit(s) of Lot/Item <NIIN 014979490> as specified in this contract. At least <30 days> calendar days before the beginning of first article tests, the Contractor shall notify the Contracting Officer, in writing, of the time and location of the testing so that the Government may witness the tests.

(b) The Contractor shall submit the first article test report within <tbid> calendar days from the date of this contract to <gordon.kohl@navy.mil> (insert address of the Government activity to receive the report) marked "First Article Test Report: Contract No. <tbid> , Lot/Item No. <NIIN 014979490> " Within <tbid> calendar days after the Government receives the test report, the Contracting Officer will notify the Contractor, in writing, of the conditional approval, approval, or disapproval of the first article. The notice of conditional approval or approval shall not relieve the Contractor from complying with all requirements of the specifications and all other terms and conditions of this contract. A notice of conditional approval will state any further action required of the Contractor. A notice of disapproval will cite reasons for the disapproval.

(c) If the first article is disapproved, the Contractor, upon Government request, shall repeat any or all first article tests. After each request for additional tests, the Contractor shall make any necessary changes, modifications, or repairs to the first article or select another first article for testing. All costs related to these tests are to be borne by the Contractor, including any and all costs for additional tests following a disapproval. The Contractor shall then conduct the tests and deliver another report to the Government under the terms and conditions and within the time specified by the Government. The Government shall take action on this report within the time specified in paragraph (b) above. The Government reserves the right to require an equitable adjustment of the contract price for any extension of the delivery schedule, or for any additional costs to the Government related to these tests.

52.209-3 (CONT)

FIRST ARTICLE APPROVAL--CONTRACTOR TESTING (DEV 2026-00042)(FEB 2026)

(d) If the Contractor fails to deliver any first article report on time, or the Contracting Officer disapproves any first article, the Contractor shall be deemed to have failed to make delivery within the meaning of the Default clause of this contract.

(e) Unless otherwise provided in the contract, and if the approved first article is not consumed or destroyed in testing, the Contractor may deliver the approved first article as part of the contract quantity if it meets all contract requirements for acceptance.

(f) If the Government does not act within the time specified in paragraph (b) or (c) above, the Contracting Officer will, upon timely written request from the Contractor, equitably adjust under the changes clause of this contract the delivery or performance dates and/or the contract price, and any other contractual term affected by the delay.

(g) Before first article approval, the acquisition of materials or components for, or the commencement of production of, the balance of the contract quantity is at the sole risk of the Contractor. Before first article approval, the costs thereof shall not be allocable to this contract for

- (1) progress payments, or
- (2) termination settlements if the contract is terminated for the convenience of the Government.

(h) The Government may waive the requirement for first article approval test where supplies identical or similar to those called for in the schedule have been previously furnished by the offeror/contractor and have been accepted by the Government. The offeror/contractor may request a waiver.

< > Alternate I (Jan 1997). As prescribed in 9.308-1(a)(2) and (b)(2), add the following paragraph (i) to the basic clause:

- (i) The Contractor shall produce both the first article and the production quantity at the same facility.

< > Alternate II (Sep 1989). As prescribed in 9.308-1(a)(3) and (b)(3), substitute the following paragraph (g) for paragraph (g) of the basic clause:

(g) Before first article approval, the Contracting Officer may, by written authorization, authorize the Contractor to acquire specific materials or components or to commence production to the extent essential to meet the delivery schedules. Until first article approval is granted, only costs for the first article and costs incurred under this authorization are allocable to this contract for

- (1) progress payments, or
- (2) termination settlements if the contract is terminated for the convenience of the Government. If first article tests reveal deviations from contract requirements, the Contractor shall, at the location designated by the Government, make the required changes or replace all items produced under this contract at no change in the contract price.

252.204-7015

NOTICE OF AUTHORIZED DISCLOSURE OF INFORMATION FOR LITIGATION SUPPORT (JAN 2023)

)

(a) Definitions. As used in this clause-

"Computer software" means computer programs, source code, source code listings, object code listings, design details, algorithms, processes, flow charts, formulae, and related material that would enable the software to be reproduced, recreated, or recompiled. Computer software does not include computer data bases or computer software documentation.

"Litigation support" means administrative, technical, or professional services provided in support of the Government during or in anticipation of litigation.

"Litigation support contractor" means a contractor (including its experts, technical consultants, subcontractors, and suppliers) providing litigation support under a contract that contains the clause at 252.204-7014, Limitations on the Use or Disclosure of Information by Litigation Support Contractors.

"Sensitive information" means controlled unclassified information of a commercial, financial, proprietary, or privileged nature. The term includes technical data and computer software, but does not include information that is lawfully, publicly available without restriction.

252.204-7015 (CONT)
NOTICE OF AUTHORIZED DISCLOSURE OF INFORMATION FOR LITIGATION SUPPORT (JAN 2023)
)

"Technical data" means recorded information, regardless of the form or method of the recording, of a scientific or technical nature (including computer software documentation). The term does not include computer software or data incidental to contract administration, such as financial and/or management information.

(b) Notice of authorized disclosures. Notwithstanding any other provision of this solicitation or contract, the Government may disclose to a litigation support contractor, for the sole purpose of litigation support activities, any information, including sensitive information, received--

- (1) Within or in connection with a quotation or offer; or
- (2) In the performance of or in connection with a contract.

(c) Subcontracts. Include the substance of this clause, including this paragraph (c), in all subcontracts, including subcontracts for commercial products or commercial services.

REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS OF OFFERORS OR QUOTERS

252.203-7005
REPRESENTATION RELATING TO COMPENSATION OF FORMER DOD OFFICIALS (SEP 2022)

(a) Definition. "Covered DoD official" is defined in the clause at 252.203-7000, Requirements Relating to Compensation of Former DoD Officials.

(b) By submission of this offer, the offeror represents, to the best of its knowledge and belief, that all covered DoD officials employed by or otherwise receiving compensation from the Offeror, and who are expected to undertake activities on behalf of the Offeror for any resulting contract, are presently in compliance with all applicable post-employment restrictions, including those contained in 18 U.S.C. 207, 41 U.S.C. 2101-2107, 5 CFR parts 2641, section 1045 of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91), and Federal Acquisition Regulation 3.104-2.

52.219-1
SMALL BUSINESS PROGRAM REPRESENTATIONS (DEV 2026-00037)(FEB 2026)

(a) Definitions. As used in this provision--
"Economically disadvantaged women-owned small business (EDWOSB) concern" means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States and who are economically disadvantaged in

52.219-1 (CONT)**SMALL BUSINESS PROGRAM REPRESENTATIONS (DEV 2026-00037)(FEB 2026)**

accordance with 13 CFR part 127, and the concern is certified by SBA or an approved third-party certifier in accordance with 13 CFR 127.300. It automatically qualifies as a women-owned small business concern eligible under the WOSB Program.

"HUBZone small business concern" means a small business concern that meets the requirements described in 13 CFR 126.200, is certified by the Small Business Administration (SBA) and designated by SBA as a HUBZone small business concern in the Small Business Search (SBS) (13 CFR 126.103).

"Service-disabled veteran-owned small business (SDVOSB) concern" eligible under the SDVOSB Program means an SDVOSB concern that is designated in the System for Award Management (SAM) as certified by the Small Business Administration (SBA) in accordance with 13 CFR 128.300.

Small business concern--

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (b) of this provision.

(2) Affiliates, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

Small disadvantaged business concern means a small business concern that--

(1) Is at least 51 percent unconditionally and directly owned (as defined at 13 CFR 124.105) by one or more socially disadvantaged (as defined at 13 CFR 124.103) and economically disadvantaged (as defined at 13 CFR 124.104) individuals who are citizens of the United States, and

(2) The management and daily business operations of which are controlled (as defined at 13 CFR 124.106) by individuals who meet the criteria in paragraphs (1) of this definition.

Women-owned small business (WOSB) concern eligible under the WOSB Program (in accordance with 13 CFR part 127) means a small business concern that is at least 51 percent directly and unconditionally owned by, and the management and daily business operations of which are controlled by, one or more women who are citizens of the United States, and the concern is certified by SBA or an approved third-party certifier in accordance with 13 CFR 127.300.

(b)(1) The North American Industry Classification System (NAICS) code for this acquisition is <332911> (insert NAICS code).

(2) The small business size standard is <750> (insert size standard).

(3) The small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce (i.e., nonmanufacturer), is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition--

(i) Is set aside for small business and has a value above the simplified acquisition threshold;

(ii) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or

(iii) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(c) Representations.

(1) The offeror represents as part of its offer that--

(i) it () is, () is not a small business concern; or

(ii) it () is, () is not a small business joint venture that complies with the requirements of 13 CFR 121.103(h) and 13 CFR 125.8(a) and (b). (The offeror shall enter the name and unique entity identifier of each party to the joint venture: _____.)

(2) (Complete only if the offeror represented itself as a small business concern in paragraph (c)(1) of this provision.) The offeror represents, that it () is, () is not, a women-owned small disadvantaged business concern.

(3) Women-owned small business (WOSB) joint venture eligible under the WOSB Program. The offeror represents as part of its offer that it () is, () is not a joint venture that complies with the requirements of 13 CFR part 127.506(a) through (c). (The offeror shall enter the name and unique entity identifier of each party to the joint venture: _____.)

(4) Economically disadvantaged women-owned small business (EDWOSB) joint venture. The offeror represents as part of its offer that it () is, () is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). (The offeror shall enter the name and unique entity identifier of each party to the joint venture: _____.)

(5) SDVOSB joint venture eligible under the SDVOSB Program. (Complete only if the offeror is certified as a

52.219-1 (CONT)**SMALL BUSINESS PROGRAM REPRESENTATIONS (DEV 2026-00037)(FEB 2026)**

SDVOSB concern) The offeror represents as part of its offer that it () is, () is not a SDVOSB joint venture eligible under the SDVOSB Program that complies with the requirements of 13 CFR 128.402. (The offeror shall enter the name and unique entity identifier of each party to the joint venture: _____.)

(6) HUBZone joint venture eligible under the HUBZone Program. (Complete only if the offeror is a HUBZone small business concern.) The offeror represents, as part of its offer, that it () is, () is not a HUBZone joint venture that complies with the requirements of 13 CFR part 126.616(a) through (c). (The offeror shall enter the name and unique entity identifier of each party to the joint venture: _____.) Each HUBZone small business concern participating in the HUBZone joint venture must be certified as a HUBZone concern.

(d) Notice. Under 15 U.S.C. 645(d) any person who misrepresents a firm's status as a business concern that is small, HUBZone small, small disadvantaged, service-disabled veteran-owned small, economically disadvantaged women-owned small, or women-owned small eligible under the WOSB Program in order to obtain a contract to be awarded under the preference programs established pursuant to section 8, 9, 15, 31, and 36 of the Small Business Act or any other provision of Federal law that specifically references section 8(d) for a definition of program eligibility, will be--

- (1) Punished by imposition of fine, imprisonment, or both
- (2) Subject to administrative remedies, including suspension and debarment; and
- (3) Ineligible for participation in programs conducted under the authority of the Act.

(< >) ALTERNATE I (Reserved)

(< >) ALTERNATE II (MAR 2023). As prescribed in 19.101(a)(2)(ii)(B), substitute the following paragraphs (b) and (c)(1) for paragraphs (b) and (c)(1) of the basic provision:

(b)(1) The North American Industry Classification System (NAICS) codes and corresponding size standards for this acquisition are as follows; the categories or portions these NAICS codes are assigned to are specified elsewhere in the solicitation:

NAICS code	Size Standard
____(< >)_____	____(< >)_____
____(< >)_____	____(< >)_____
____(< >)_____	____(< >)_____
____(< >)_____	____(< >)_____

(Contracting Officer to insert NAICS codes and size standards).

(2) The small business size standard for a concern that submits an offer, other than on a construction or service acquisition, but proposes to furnish an end item that it did not itself manufacture, process, or produce (i.e., nonmanufacturer), is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition--

- (i) Is set aside for small business and has a value above the simplified acquisition threshold;
- (ii) Uses the HUBZone price evaluation preference regardless of dollar value, unless the offeror waives the price evaluation preference; or
- (iii) Is an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(c) Representations. (1) The Offeror shall represent its small business size status for each one of the NAICS codes assigned to this acquisition under which it is submitting an offer.

NAICS code	Small Business concern (yes/no)
____(< >)_____	____(< >)_____
____(< >)_____	____(< >)_____
____(< >)_____	____(< >)_____
____(< >)_____	____(< >)_____

(Contracting Officer to insert NAICS codes.)

252.225-7035

BUY AMERICAN-FREE TRADE AGREEMENTS-BALANCE OF PAYMENTS PROGRAM CERTIFICATE-BASIC (FEB 2024)

(a) Definitions. "Bahraini end product," "commercially available off-the-shelf (COTS) item," "component," "critical component," "critical item," "domestic end product," "Free Trade Agreement country," "Free Trade Agreement country end product," "foreign end product," "Moroccan end product," "Panamanian end product," "Peruvian end product," "qualifying country end product," and "United States," as used in this provision, have the meanings given in the 252.225-7036, Buy American-Free Trade Agreements-Balance of Payments Program-Basic clause of this solicitation.

(b) Evaluation. The Government-

(1) Will evaluate offers in accordance with the policies and procedures of part 225 of the Defense Federal Acquisition Regulation Supplement; and

(2) For line items subject to the Buy American-Free Trade Agreements-Balance of Payments Program-Basic clause of this solicitation, will evaluate offers of qualifying country end products or Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products without regard to the restrictions of the Buy American or the Balance of Payments Program.

(c) Certifications and identification of country of origin.

(1) For all line items subject to the Buy American-Free Trade Agreements-Balance of Payments Program-Basic clause of this solicitation, the offeror certifies that-

(i) Each end product, except the end products listed in paragraph (c)(2) of this provision, is a domestic end product;

(ii) Each domestic end product listed in paragraph (c)(3) of this provision contains a critical component or a critical item; and

(iii) Components of unknown origin are considered to have been mined, produced, or manufactured outside the United States or a qualifying country.

(2) The offeror shall identify all end products that are not domestic end products.

(i) The offeror certifies that the following supplies are qualifying country (except Australian) end products:

Line Item Number	Country of Origin
_____	_____
_____	_____
_____	_____

(ii) The offeror certifies that the following supplies are Free Trade Agreement country end products other than Bahraini end products, Moroccan end products, Panamanian end products, or Peruvian end products:

Line Item Number	Country of Origin
_____	_____
_____	_____
_____	_____

(iii) The following supplies are other foreign end products, including end products manufactured in the United States that do not qualify as domestic end products. For those foreign end products that do not consist wholly or predominantly of iron or steel or a combination of both, the Offeror shall also indicate whether these foreign end products exceed 55 percent domestic content, except those that are COTS items. If the percentage of the domestic content is unknown, select "no".

Line Item Number	Country of Origin (If known)	Exceeds 55% Domestic Content (Yes/No)
_____	_____	_____
_____	_____	_____
_____	_____	_____

(3) The Offeror shall list the line item numbers of domestic end products that contain a critical component or a critical item (see section 25.105 of the Federal Acquisition Regulation).

TRADE AGREEMENTS CERTIFICATE (NOV 2014)

(a) Definitions.

"Designated country end product," "nondesignated country end product," "qualifying country end product," and "U.S.-made end product" as used in this provision have the meanings given in the Trade Agreements-Basic clause of this solicitation.

(b) Evaluation. The Government --

- (1) Will evaluate offers in accordance with policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and
- (2) Will consider only offers of end products that are U.S.-made, qualifying country, or designated country end products unless--
 - (i) There are no offers of such end products;
 - (ii) The offers of such end products are insufficient to fulfill the Government's requirements; or
 - (iii) A national interest waiver has been granted.

(c) Certification and identification of country of origin.

- (1) For all line items subject to the Trade Agreements-Basic clause of this solicitation, the offeror certifies that each end product to be delivered under this contract, except those listed in paragraph (c)(2) of this provision, is a U.S.-made, qualifying country, or designated country end product.
- (2) The following supplies are other nondesignated country end products:

Line Item Number	Country of Origin
_____	_____
_____	_____

252.225-7000
BUY AMERICAN-BALANCE OF PAYMENTS PROGRAM CERTIFICATE-BASIC (FEB 2024)

(a) Definitions. "Commercially available off-the-shelf (COTS) item", "componet," "critical componet," "critical item," "domestic end product," "foreign end product," "qualifying country," "qualifying country end product," and "United States," as used in this provision, have the meanings given in the 252.225-7001, Buy American and Balance of Payments Program -- Basic clause of this solicitation.

(b) Evaluation. The Government --

- (1) Will evaluate offers in accordance with the policies and procedures of Part 225 of the Defense Federal Acquisition Regulation Supplement; and
- (2) Will evaluate offers of qualifying country end products without regard to the restrictions of the Buy American statute or the Balance of Payment Program.

(c) Certifications and identification of country of origin.

- (1) For all line items subject to the Buy American and Balance of Payments Program -- Basic clause of this solicitation, the offeror certifies that --
 - (i) Each end product, except those listed in paragraphs (c)(2) or (3) of this provision, is a domestic end product and that each domestic end product listed in paragraph (c)(4) of this provision contains a critical

252.225-7000 (CONT)

252.204-7998
ALTERNATE A, ANNUAL REPRESENTATIONS AND CERTIFICATIONS (DEVIATION 2026-00043)(F
EB 2026)

Include the following paragraphs (e), (f), and (g) in the provision at FAR 52.204-7:

(e)(1) If the provision at FAR 52.204-7, System for Award Management Registration, is included in this solicitation, paragraph (g) of this provision applies.

(2) If the provision at FAR 52.204-7, System for Award Management Registration, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (g) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes: ____

(i) Paragraph (g) applies. ____

(ii) Paragraph (g) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

(f)(1) The following representations or certifications in the SAM database are applicable to this solicitation as indicated:

(i) 252.204-7016, Covered Defense Telecommunications Equipment or Services-Representation. Applies to all solicitations.

(ii) 252.216-7008, Economic Price Adjustment-Wage Rates or Material Prices Controlled by a Foreign Government. Applies to solicitations for fixed-price supply and service contracts when the contract is to be

252.204-7998 (CONT)
ALTERNATE A, ANNUAL REPRESENTATIONS AND CERTIFICATIONS (DEVIATION 2026-00043)(F

(g) The Offeror has completed the annual representations and certifications electronically via the SAM website at <https://www.sam.gov>. After reviewing the SAM database information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in FAR 52.204-7 and paragraph (f) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer, and are incorporated in this offer by reference (see FAR 4.203-1); except for the changes identified below (Offeror to insert changes, identifying change by provision number, title, date). These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR/DFARS Provision No.	Title	Date	Change
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

Any changes provided by the Offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications located in the SAM database.

252.209-7002
DISCLOSURE OF OWNERSHIP OR CONTROL BY A FOREIGN GOVERNMENT (DEC 2022)

(a) Definitions. As used in this provision-

(1) "Effectively owned or controlled" means that a foreign government or any entity controlled by a foreign government has the power, either directly or indirectly, whether exercised or exercisable, to control the election, appointment, or tenure of the Offeror's officers or a majority of the Offeror's board of directors by any means, e.g., ownership, contract, or operation of law (or equivalent power for unincorporated organizations).

(2) "Entity controlled by a foreign government"-

(i) Means -

(A) Any domestic or foreign organization or corporation that is effectively owned or controlled by a foreign government; or

(B) Any individual acting on behalf of a foreign government.

(ii) Does not include an organization or corporation that is owned, but is not controlled, either directly or indirectly, by a foreign government if the ownership of that organization or corporation by that foreign government was effective before October 23, 1992.

(3) "Foreign government" includes the state and the government of any country (other than the United States and its outlying areas) as well as any political subdivision, agency, or instrumentality thereof.

(4) "Proscribed information" means-

(i) Top Secret information;

(ii) Communications security (COMSEC) material, excluding controlled cryptographic items when unkeyed or

252.209-7002 (CONT)
DISCLOSURE OF OWNERSHIP OR CONTROL BY A FOREIGN GOVERNMENT (DEC 2022)

utilized with unclassified keys.

- (iii) Restricted Data as defined in the U.S. Atomic Energy Act of 1954, as amended;
- (iv) Special Access Program (SAP) information; or
- (v) Sensitive Compartmented Information (SCI).

(b) Prohibition on award. No contract under a national security program may be awarded to an entity controlled by a foreign government if that entity requires access to proscribed information to perform the contract, unless the Secretary of Defense or a designee has waived application of 10 U.S.C. 4874.

(c) Disclosure. The Offeror shall disclose any interest a foreign government has in the Offeror when that interest constitutes control by a foreign government as defined in this provision. If the Offeror is a subsidiary, it shall also disclose any reportable interest a foreign government has in any entity that owns or controls the subsidiary, including reportable interest concerning the Offeror's immediate parent, intermediate parents, and the ultimate parent. Use separate paper as needed, and provide the information in the following format:

Offeror's Point of Contact for Questions about Disclosure (Name and Phone Number with Country Code, City Code and Area Code, as applicable)
 Name and Address of Offeror
 Name and Address of Entity Controlled by a Foreign Government
 Description of Interest, Ownership Percentage, and Identification of Foreign Government

52.209-2
PROHIBITION ON CONTRACTING WITH INVERTED DOMESTIC CORPORATIONS-REPRESENTATION (
DEV 2026-00042)(FEB 2026)

252.223-7001
HAZARD WARNING LABELS (DEC 1991)

(a) "Hazardous material," as used in this clause, is defined in the Hazardous Material Identification and Material Safety Data clause of this contract.

(b) The Contractor shall label the item package (unit container) of any hazardous material to be delivered under this contract in accordance with the Hazard Communication Standard (29 CFR 1910.1200 et seq). The Standard required that the hazard warning label conform to the requirements of the standard unless the material is otherwise subject to the labelling requirements of one of the following statutes:

- (1) Federal Insecticide, Fungicide and Rodenticide Act;
- (2) Federal Food, Drug and Cosmetics Act;
- (3) Consumer Product Safety Act;
- (4) Federal Hazardous Substances Act; or
- (5) Federal Alcohol Administration Act.

(c) The Offeror shall list which hazardous material listed in the Hazardous Material Identification and Material Safety Data clause of this contract will be labelled in accordance with one of the Acts in paragraphs (b)(1) through (5) of this clause instead of the Hazard Communication Standard. Any hazardous material not listed will be interpreted to mean that a label is required in accordance with the Hazard Communication Standard.

MATERIAL (If None, Insert "NONE".)

ACT

(d) The The apparently successful Offeror agrees to submit, before award, a copy of the hazard warning label for all hazardous materials not listed in paragraph (c) of this clause. The Offeror shall submit the label with the Material Safety Data Sheet being furnished under the Hazardous material Identification and Material Safety Data clause of this contract.

(e) The Contractor shall also comply with MIL-STD-129, Marking for Shipment and Storage (including revisions adopted during the term of this contract).

REPRESENTATION REGARDING BUSINESS OPERATIONS WITH THE MADURO REGIME (MAY 2022)

52.209-5
CERTIFICATION REGARDING RESPONSIBILITY MATTERS (DEV 2026-00042)(FEB 2026)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that--

(i) The Offeror and/or any of its Principals--

(A) Are () are not () presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have () have not (), within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have" the offeror shall also see 52.209-7, if included in this solicitation);

(C) Are () are not () presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision; and

(D) Have (), have not (), within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied. Federal taxes are considered delinquent if both of the following criteria apply:

(1) The tax liability is finally determined. The liability is not finally determined if a pending administrative or judicial challenge remains. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(2) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) The Offer has (), has not (), within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) "Principal," for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division, or business segment, and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the Government will consider the certification in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) This provision does not require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a). The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If the Government later determines that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

252.225-7059
PROHIBITION ON CERTAIN PROCUREMENTS FROM THE XINJIANG UYGHUR AUTONOMOUS REGION--
REPRESENTATION

252.225-7966
PROHIBITION REGARDING RUSSIAN FOSSIL FUEL BUSINESS OPERATIONS--REPRESENTATION
(DEVIATION 2024-00006, REVISION 1) (FEB 2024)

52.209-7
INFORMATION REGARDING RESPONSIBILITY MATTERS (DEV 2026-00042)(FEB 2026)

(a) Definitions. As used in this provision-

"Administrative proceeding" means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

"Federal contracts and grants with total value greater than \$10,000,000" means-

- (1) The total value of all current, active contracts and grants, including all priced options' and
- (2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

"Principal" means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offer () has () does not have current active Federal contracts and grants with total value greater than \$10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information Systems (FAPIIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information.

- (1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:
 - (i) In a criminal proceeding, a conviction.
 - (ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.
 - (iii) In an administrative proceeding, a finding of fault and liability that results in-
 - (A) The payment of a monetary fine or penalty of \$5,000 or more; or
 - (B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.
 - (iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.
- (2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management, which can be accessed via <https://www.sam.gov>. (see 52.204-7).

252.204-7008
COMPLIANCE WITH SAFEGUARDING COVERED DEFENSE INFORMATION CONTROLS (OCT 2016)

a) Definitions. As used in this provision -

"Controlled technical information," "covered contractor information system," "covered defense information," "cyber incident," "information system," and "technical information" are defined in clause 252.204-7012. Safeguarding Covered defense Information and Cyber Incident Reporting.

(b) The security requirements required by contract clause 252.204-7012, Covered Defense Information and Cyber Incident Reporting, shall be implemented for all covered defense information on all covered contractor information systems that support the performance of this contract.

(c) For covered contractor information systems that are not part of an information technology service or system operated on behalf of the Government (see 252.204-7012(b)(2) -

(1) By submission of this offer, the Offeror represents that it will implement the security requirements specified by National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, Protecting

252.204-7008 (CONT)**COMPLIANCE WITH SAFEGUARDING COVERED DEFENSE INFORMATION CONTROLS (OCT 2016)**

Controlled Unclassified Information in Nonfederal Information Systems and Organizations (see <http://dx.doi.org/10.6028/NIST.SP.800-171>), that are in effect at the time the solicitation is issued or as authorized by the contracting officer

(2)(i) If the Offeror proposes to vary from any of the security requirements specified by NIST SP 800-171 that are in effect at the time the solicitation is issued or as authorized by the Contracting Officer, the Offeror shall submit to the Contracting Officer, for consideration by the DoD Chief Information Officer (CIO), a written explanation of -

(A) Why a particular security requirement is not applicable; or

(B) How an alternative but equally effective, security measure is used to compensate for the inability to satisfy a particular requirement and achieve equivalent protection.

(ii) An authorized representative of the DoD CIO will adjudicate offeror requests to vary from NIST SP 800-171 requirements in writing prior to contract award. Any accepted variance from NIST SP 800-171 shall be incorporated into the resulting contract.

52.225-18**PLACE OF MANUFACTURE (AUG 2018)**

(a) Definitions. As used in this provision --

"Manufactured end product" means any end product in product and service codes (PSCs) 1000-9999, except--

- (1) FPSC 5510, Lumber and Related Basic Wood Materials;
- (2) Product or Service Group (PSG) 87, Agricultural Supplies;
- (3) PSG 88, Live Animals;
- (4) PSG 89, Subsistence;
- (5) PSC 9410, Crude Grades of Plant Materials;
- (6) PSC 9430, Miscellaneous Crude Animal Products, Inedible;
- (7) PSC 9440, Miscellaneous Crude Agricultural and Forestry Products;
- (8) PSC 9610, Ores;
- (9) PSC 9620, Minerals, Natural and Synthetic; and
- (10) PSC 9630, Additive Metal Materials.

"Place of manufacture means the place where an end product is assembled out of components, or otherwise made or processed from raw materials into the finished product that is to be provided to the Government. If a product is disassembled and reassembled, the place of reassembly is not the place of manufacture.

(b) For statistical purposes only, the offeror shall indicate whether the place of manufacture of the end products it expects to provide in response to this solicitation is predominantly--

- (1) ☐ In the United States (Check this box if the total anticipated price of offered end products manufactured in the United States exceeds the total anticipated price of offered end products manufactured outside the United States); or
- (2) ☐ Outside the United States.

52.209-11**REPRESENTATION BY CORPORATIONS REGARDING DELINQUENT TAX LIABILITY OR A FELONY CONVICTION UNDER ANY FEDERAL LAW (DEV 2026-00042)(FEB 2026)**

(a) The Government will not enter into a contract with any corporation that -

(1) Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless an agency has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(b) The Offeror represents that--

(1) It is ☐ is not ☐ a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

(2) It is ☐ is not ☐ a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

WSSTERMKZ03**PRICING INFORMATION FOR SIMPLIFIED ACQUISITION**

WSSTERMKZ03 (CONT)
PRICING INFORMATION FOR SIMPLIFIED ACQUISITION

(a) To assist in determining whether the prices quoted under subject solicitation are "fair and reasonable," request the contractor provide: a copy of current catalog or established price list; a statement that the items are commercial; and/or pricing information on the most recent sale for the item or a similar item.

(b) Offerors are further requested to advise the Government buyer if they are in possession of any other Government or commercial solicitation or recent contract for any of the items being procured hereunder. (06-05)

PART IV - REPRESENTATIONS AND INSTRUCTIONS
SECTION L
INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS OR QUOTERS

52.215-1
INSTRUCTIONS TO OFFERORS -- COMPETITIVE ACQUISITION (DEV 2026-00048)(MAR 2026)

(a) Definitions. As used in this provision-
 "In writing," "writing," or "written" means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

"Proposal modification" is a change made to a proposal before the request for proposal closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

"Proposal revision" is a change to material elements of a proposal made after the request for proposal closing date, at the request of or as allowed by a Contracting Officer, as the result of negotiations.

"Time," if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) Amendments to requests for proposals. If this requests for proposals (RFP) is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this RFP by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals.

- (1)(i) Proposals and modifications to proposals shall be-
 - (A) Submitted using the method and the format specified in the RFP;
 - (B) Addressed to the office specified in the RFP; and
 - (C) Showing the time and date specified for receipt, the RFP number, and the name and address of the offeror.
- (ii) Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i)(B) and (c) of this provision.
- (2) The first page of the proposal must show-
 - (i) The RFP number;
 - (ii) The name, address, and telephone number of the offeror (and electronic address if available);
 - (iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the RFP and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;
 - (iv) Names, titles, and telephone (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this RFP; and
 - (v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.
- (3)(i) Offerors are responsible for submitting proposals, and any modifications or revisions, so as to reach the Government office designated in the RFP by the time specified in the RFP. If no time is specified in the RFP, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.
 - (ii)(A) Any proposal, modification, or revision received at the Government office designated in the RFP after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-
 - (1) If it was transmitted through an electronic commerce method authorized by the RFP, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or
 - (2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

52.215-1 (CONT)

INSTRUCTIONS TO OFFERORS -- COMPETITIVE ACQUISITION (DEV 2026-00048)(MAR 2026)

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the RFP, and urgent Government requirements preclude amendment of the RFP, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the RFP on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral RFPs may be withdrawn orally.

Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the RFP, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this RFP in English, unless otherwise permitted by the RFP, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the RFP.

(6) Offerors may submit modifications to their proposals at any time before the RFP closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) Offer expiration date. Proposals in response to this RFP will be valid for the number of days specified on the RFP cover sheet (unless a different period is proposed by the offeror).

(e) Restriction on disclosure and use of data. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall-

(1) Mark the title page with the following legend:

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed - in whole or in part - for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of, or in connection with, the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets (insert numbers or other identification of sheets); and

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award.

(1) The Government intends to award a contract or contracts resulting from this RFP to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the RFP.

(2) The Government may reject any or all proposals if such action is in the Government's interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract without negotiations with offerors (except clarifications as described in FAR 15.202(b)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct negotiations if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly evaluated proposals.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(8) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(9) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

52.215-1 (CONT)
INSTRUCTIONS TO OFFERORS -- COMPETITIVE ACQUISITION (DEV 2026-00048)(MAR 2026)

- (10) If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:
- (i) The agency's evaluation of the significant weaknesses or deficiencies in the debriefed offeror's offer.
 - (ii) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.
 - (iii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.
 - (iv) A summary of the rationale for award.
 - (v) For acquisitions of commercial products, the make and model of the item to be delivered by the successful offeror.
 - (vi) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the RFP, applicable regulations, and other applicable authorities were followed by the agency.
 - (vii) For DoD contracts in excess of \$10 million but not in excess of \$100 million with a small business or nontraditional defense contractor (10 U.S.C. 3014), an option for the contractor to request disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.
 - (viii) For award of a DoD contract in excess of \$100 million, disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.

(< >) Alternate I (DEV 2026-00048)(MAR 2026). As prescribed in 15.110(a)(1), substitute the following paragraph (f)(4) for paragraph (f)(4) of the basic provision:

(f)(4) The Government intends to evaluate proposals and award a contract after conducting discussions with offerors whose proposals have been determined to be within the competitive range. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(< >) Alternate II (DEV 2026-00048)(MAR 2026). As prescribed in 15.110(a)(2), add a paragraph (c)(9) substantially the same as the following to the basic clause:

(c)(9) Offerors may submit proposals that depart from stated requirements. Such proposals shall clearly identify why the acceptance of the proposal would be advantageous to the Government. Any deviations from the terms and conditions of the RFP, as well as the comparative advantage to the Government, shall be clearly identified and explicitly defined. The Government reserves the right to amend the solicitation to allow all offerors an opportunity to submit revised proposals based on the revised requirements.

52.233-2
SERVICE OF PROTEST (DEVIATION 2026-00026)(FEB 2026)

(a) Protests, (as defined in FAR 33.102), that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), must be served on the Contracting Officer identified in the solicitation by obtaining written and dated acknowledgment of receipt from them.

(b) The copy of any protest must be received in the office designated above within one day of filing a protest with the GAO.

52.252-1
SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this address:

WSSTERMLZ02
QUALITY ASSURANCE MANUAL FOR LEVEL I/SUBSAFE/DSS-SOC/FLY-BY-WIRE PROGRAMS - INS
TRUCTION

Offerors shall provide a Quality Assurance Manual. Only those sources with an acceptable Quality Assurance Manual are eligible for award under this solicitation. The Navy has found from past experience that Quality Control is essential to assure personnel safety in critical areas and to provide for the safe operation of submarines and certain systems on surface ships. If an offeror's Quality Assurance Manual was not previously approved, review of an offeror's Quality Assurance Manual will be accomplished as part of the technical evaluation.

The Level I/Subsafe/Deep Submergence Systems-Scope of Certification (DSS-SOC)/Fly-by-Wire Programs require offerors to have a Quality System that meets the requirements of MIL-I-45208, MIL-Q-9858, or ISO 9001:2000. As part of this Quality System, the offeror's calibration system must meet the requirements of MIL-STD-45662A, ANSI/NCSL-Z540.3-2006, or ISO 10012-1. If an offeror uses a calibration system other than the three specified herein, that information must be included in the offeror's technical submission under this sub-factor.

An offeror whose Quality Assurance Manual HAS previously been found acceptable by NAVSUP WSS must include the following information in their offer--(a) proof that NAVSUP WSS has previously accepted their Quality Assurance Manual (including the date), and (b) proof that NAVSUP WSS has the most current revision of their Quality Assurance Manual.
 (06-22)

WSSTERMLZ06
CONSIGNMENT INSTRUCTIONS

Consignment Addresses are readily available electronically at the DoD Activity Address Codes (DODAAC) website

WSSTERMLZ06 (CONT)
CONSIGNMENT INSTRUCTIONS

<https://home.daas.dla.mil/daashome/daasing.asp>.

Contractors are to enter a specific DODAAC Code (i.e. N63126), then select "Scan Query."

Three addresses will appear:
 TAC1=Mailing Address TAC2=Shipping Address TAC3=Billing Address

The TAC2 Shipping Address should always be used.
 If it is missing for whatever reason, the contractor is authorized to use the TAC1 Mailing Address.

For Mobile Units and Ships, call the Naval Operational Logistics Support Center (NOLSC) Fleet Locator at: Commercial 757-443-5434 or DSN 646-5434 (10-22)

PART IV - REPRESENTATIONS AND INSTRUCTIONS
SECTION M
EVALUATION FACTORS FOR AWARD

252.204-7024

NOTICE ON THE USE OF THE SUPPLIER PERFORMANCE RISK SYSTEM (MAR 2023)

(a) Definitions. As used in this provision-

Item risk means the probability that a product, based on intended use, will introduce performance risk resulting in safety issues, mission degradation, or monetary loss.

Price risk means a measure of whether a proposed price for a product or service is consistent with historical prices paid for that item or service.

Supplier risk means the probability that an award may subject the procurement to the risk of unsuccessful performance or to supply chain risk (see Defense Federal Acquisition Regulation Supplement 239.7301).

(b) The Supplier Performance Risk System (SPRS), available at <https://piee.eb.mil/>, will be used in the evaluation of the Quoter or Offeror's performance. SPRS retrieves item, price, quality, delivery, and contractor information on contracts from Government reporting systems in order to develop risk assessments.

(c) The Contracting Officer will consider SPRS risk assessments during the evaluation of quotations or offers received in response to this solicitation as follows:

- (1) Item risk will be considered to determine whether the procurement represents a high performance risk to the Government.
- (2) Price risk will be considered in determining if a proposed price is consistent with historical prices paid for a product or a service or otherwise creates a risk to the Government.
- (3) Supplier risk, including but not limited to quality and delivery, will be considered to assess the risk of unsuccessful performance and supply chain risk.

(d) SPRS risk assessments are generated daily. Quoters or Offerors are able to access their risk assessments by following the access instructions in the SPRS user's guide available at <https://www.sprs.csd.disa.mil/reference.htm>. Quoters and Offerors are granted access to SPRS for their own risk assessment classifications only. SPRS reporting procedures and risk assessment methodology are detailed in the SPRS user's guide. The method to challenge a rating generated by SPRS is also provided in the user's guide. SPRS evaluation criteria are available at https://www.sprs.csd.disa.mil/pdf/SPRS_DataEvaluationCriteria.pdf.

(e) The Contracting Officer may consider any other available and relevant information when evaluating a quotation or an offer.

SUPTXT215-9401(6-03)
EVALUATION OF FIRST ARTICLE TESTING

(a) Offerors are advised that the contract awarded as a result of this solicitation will require first article testing. This requirement may be waived by the Contracting Officer when supplies identical or similar to those called for have previously been delivered by the offeror and accepted by the Government. Therefore, offerors can submit

SUPTXT215-9401(6-03) (CONT)
EVALUATION OF FIRST ARTICLE TESTING

alternative offers, one including testing and approval and the other excluding testing and approval. If the Government waives the requirement for first article unit(s), test plans, testing and test reports(s) for eligible offerors, the prices set forth in paragraph (g) will be used in evaluating offers. In addition, all provisions relating to first article testing will be deleted from the resulting contract.

(b) Offerors shall identify these identical or similar supplies by the contract number, agency, national stock number, contract award date, and contract delivery date.

CONTRACT AGENCY	NSN	CONTRACT NUMBER	AWARD DATE	DELIVERY DATE
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____
_____	_____	_____	_____	_____

(c) (< >) The Government is responsible for first article testing under this contract. The cost to the Government of this testing will be a factor in the evaluation of offers, as it will be added to the offers requiring first article testing. The estimated cost of this testing is \$(< >)_____.

(< x >) The contractor is responsible for first article testing under this contract.

(d) The approved first article serves as a manufacturing standard.

(e) Earlier delivery, if required in case of waiver of first article, shall not be a factor in the evaluation for award.

(f) The prices for first articles and first article tests in relation to production quantities shall not be materially unbalanced, if first article test items or tests are to be separately priced.

(g) Unit price offered if First Article is waived: \$_____.

WSSTERMMZ01
EVALUATION CRITERIA AND BASIS FOR AWARD - SINGLE AWARD (NAVSUPWSS)

The Government intends to make a single award to the eligible, responsible, technically acceptable offeror whose offer, conforming to the solicitation, is determined most advantageous to the Government, price and past performance considered. The offeror's proposal shall be in the form prescribed by, and shall be in the form prescribed by, and shall contain a response to each of the area identified in the Section L solicitation provision entitled "Submission of Quotations" or "Submission of Proposals." Only those proposals prepared in accordance with the solicitation will be evaluated. The evaluation will consider past performance as more important than price. The Government reserves the right to award the contract to other than the lowest priced offer.

(1) Past Performance. The Government will evaluate the quality of the offeror's past performance. This evaluation is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating the relative capability of the offeror and other competitors to successfully meet the requirements of the solicitation.

The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Offerors lacking relevant past performance history will receive a neutral rating for past performance. However, the quotation/proposal of an offeror with no relevant past performance history, while rated neutral in past performance, may not represent the most advantageous quote/proposal to the Government and thus, may be an unsuccessful proposal when compared to the quotes/proposals of other offerors. The offeror must provide the information requested in the provision entitled "Submission of Quotations" or "Submission of Proposals" in Section L of the solicitation, or affirmatively state that it possesses no relevant directly-related or similar past performance. An offeror failing to provide the past performance information or to assert that it has no relevant directly-related or similar past performance will be considered ineligible for award.

The Government, in addition to other information received, may utilize the DoD Supplier Performance Risk System (SPRS) program to evaluate past performance (refer to DFARS Case 2019-D009). The Government will consider SPRS data for the Federal Supply Classes (FSC) of all items included in this procurement. Based on comparisons among suppliers in a specific FSC group, SPRS sorts suppliers into color ratings representing the supplier's overall quality performance based on the following indices:

WSSTERMMZ01 (CONT)
EVALUATION CRITERIA AND BASIS FOR AWARD - SINGLE AWARD (NAVSUPWSS)

COLOR	POSITION
Dark Blue	Top 5% of suppliers in FSC group
Purple	Next 10% of suppliers in FSC group
Green	Next 70% of suppliers in FSC group
Yellow	Next 10% of suppliers in FSC group
Red	Bottom 5% of suppliers in FSC group

(2) Price. Price is a secondary factor after past performance.

(04-22)

6. NOTES

6.1 Several definitions of terms that apply to CSI items are listed below. All terms may not apply to every item.

6.1.1 The ECDS (Electronic Contractor Data Submission) system is at: <https://register.nslc.navy.mil/> This application will require advance registration using a PKI Digital Certificate on a CAC. A Vendor User Guide is available as CSD001 in the CSD (Contract Support Document) Library within ECDS.

6.1.2 Critical Safety Item (CSI) - Any ship part, assembly, or support equipment containing a critical characteristic whose failure, malfunction, or absence of which could cause a catastrophic or critical failure resulting in loss of, or serious damage to the ship, or unacceptable risk of personal injury or loss of life.

6.1.3 Critical Process - As determined by the TWH, any process, operation or action performed on a Ship CSI that serves to establish a critical characteristic (such as welding, soldering, machining, polishing, cleaning, or assembling) or confirm that a critical characteristic is within drawing or specification compliance (such as, testing, measurement, or non-destructive evaluation).

6.1.4 First Article - Pre-production models, initial product samples, test samples produced to ensure a manufacturer's capability to meet full specification requirements.

6.1.5 First Article Test (FAT) - Contractually required testing and inspection of a supplier's pre-production, production, or "production representative" specimens to evaluate a manufacturer's ability to produce conforming product prior to the Government's commitment to receive subsequent production items. First Article Testing is product specific and does not assess manufacturing process controls nor does it assure the effectiveness of the manufacturer's quality program.

6.1.6 Government Source Inspection (GSI) - GSI is independent oversight performed by a government representative usually a DCMA Quality Assurance Representative (QAR)) to assure that those unique product quality and system elements, identified by the Contracting Agency as important, are observed and evaluated.

6.1.7 Quality Assurance Letter of Instruction (QALI) - A QALI is a formal document initiated by a contracting activity that provides essential requirements and instructions for contracted materials to be independently verified and accepted by a government representative prior to shipment.

6.1.8 Objective Quality Evidence (OQE) - The quantitative and qualitative data of all mechanical, chemical, and performance tests performed (as required by the applicable specification, drawing, or purchase document) to prove that the material supplied conforms to the specified requirements.

6.1.9 Surface Discontinuity - Any surface irregularity, marking, or localized change in physical character of the surface, other than dimensional, that exists infrequently at one or several places. (Examples: burrs, dents, nicks, scratches, gouges, pits, center-punches, scribes, and tool marks) Surface discontinuities less than 0.005-inch in depth are acceptable provided they do not violate any other design requirements specified in this Contract/Purchase Order.

6.1.10 Traceability Code - A code or number providing traceability to the actual chemical and mechanical properties of the specified heat, batch, or form from which the material originated.

6.1.11 Verification - An examination performed to determine compliance with a specific requirement.

6.1.12 Nonconformance - A nonconformance is defined as affecting or violating the following:

- The requirements of this contract/purchase order.
- Contractually invoked drawings (i.e. envelope dimensions, interface dimensions with mating parts/equipment, center of gravity, weights, piece part identification, material, etc.).
- Contractually invoked federal, military, or commercial specifications and/or standards.
- Form, fit, function, performance to contract requirements, reliability, maintainability, interchangeability, safety of personnel or equipment, or additional cost to the Government.

6.1.13 Waiver - A written authorization to accept an item, which during manufacture, or after having been submitted for Government inspection or acceptance, is found to depart from specified requirements, but nevertheless is considered suitable for use as is or after repair by an approved method.

6.1.14 Deviation - A specific written authorization (granted prior to the manufacture of an item) to depart from a particular requirement(s) of an item's current approved configuration documentation for a specific number of units or a specified period of time, and to accept an item which is found to depart from specified requirements, but

nevertheless is considered suitable for use "as is" or after repair by an approved method.

6.1.15 Critical Waiver/Deviation - This waiver/deviation consists of a departure involving safety.

6.1.16 Major Waiver/Deviation - This waiver/deviation consists of a departure involving:

- Performance
- Interchangeability, Reliability, Survivability, Maintainability, or Durability of the item or its repair parts
- Health or Safety
- Effective Use or Operation
- Weight, Stability, or Structural Integrity
- System design parameters as schematics, flows, pressures or temperatures
- Compartment arrangements or assigned function

6.1.17 Minor Waiver/Deviation - This waiver/deviation consists of a departure which does not involve any of the factors listed as critical or major.

6.1.18 Engineering Change (EC) - A change to the current approved configuration documentation of a configuration item at any point in the life cycle of the item.

6.1.19 Engineering Change Proposal (ECP) - A proposed Engineering Change and the documentation by which the change is described, justified, and submitted to the Government for approval or disapproval.

6.1.20 Class I ECP - A class I ECP is approved by the Government's Configuration Control Board and authorized with a contract modification.

6.1.21 Class II ECP - A class II change is typically reviewed for concurrence in classification by the local government representative, unless otherwise specified elsewhere in the contract/purchase order.

6.2 In accordance with OPNAVINST 5510.1 all documents and drawings provided by the U.S. Navy to perspective Contractors must include a "Distribution Statement" to inform the contractor of the limits of distribution, and the safeguarding of the information contained on those documents and drawings.

6.2.1 There are 7 (seven) separate distribution statement codes used for non-classified documents and drawings. The definition for each is as follows:

- A... approved for public release; distribution is unlimited.
- B... distribution authorized to US Governments agencies only.
- C... distribution authorized to US Government agencies and their contractors.
- D... distribution authorized to DoD and DoD contractors only.
- E... distribution authorized to DoD Components only.
- F... further distribution only as directed by Commander, Naval Sea Systems Command, code 09T.
- X... distribution is authorized to US Government agencies and private individuals or enterprises eligible to obtain export controlled technical data in accordance with OPNAVINST 5510.161.

6.3 Ordering Information for Document References - The Department of Defense Single Stock Point (DODSSP), Website <http://www.dsp.dla.mil/>, provides product information for the Department Of Defense Index Of Specifications and Standards (DODISS) (i.e. Military/Federal Specifications and Standards), Data Item Descriptions (DIDs), and other DODSSP Products. Most Specifications can obtained directly from <http://quicksearch.dla.mil/>

A. Availability of Cancelled Documents - The DODSSP offers cancelled documents that are required by private industry in fulfillment of contractual obligations in paper format. Documents can be requested by phoning the Subscription Services Desk.

B. Commercial Specifications, Standards, and Descriptions - These specifications, standards and descriptions are not available from Government sources. They may be obtained from the publishers of the applicable societies.

C. Ordnance Standards (OS), Weapons Specifications (WS), and NAVORD OSTD 600 Pages - These type publications may be obtained by submitting a request to:

Commander, Indian Head Division, Naval Surface Warfare Center
Code 8410P, 101 Strauss Avenue
Indian Head, MD 20640-5035

D. On post-award actions, requests for "Official Use Only" and "NOFORN" (Not Releasable To Foreign Nationals) documents must identify the Government Contract Number, and must be submitted via the cognizant Defense Contract Management Command (DCMC) for certification of need for the document. On pre-award actions such requests must be submitted to the PCO for certification of need for the document.

E. NOFORN Military Specifications and Standards (including Amendments, Change Notices and Supplements, but NOT interim Changes) to be ordered from:

Contracting Officer
NAVSUP-WSS
Code 87321
5450 Carlisle Pike
P.O. Box 2020
Mechanicsburg, Pa. 17055-0788

F. Nuclear Reactor Publications Assigned NAVSEA Documents and Identification Numbers (i.e. NAVSEA Welding Standard, NAVSEA 250-1500-1) are to be ordered enue:

Commanding Officer
NAVSUP-WSS
Code 009
5450 Carlisle Pike
P.O. Box 2020
Mechanicsburg, Pa. 17055-0788

G. Technical Manuals Assigned NAVSEA Identification Numbers (i.e. NAVSEA Welding And Brazing Procedure, NAVSEA S9074-AQ-GIB-010/248) are to be ordered from:

Commanding Officer
NAVSUP-WSS
Code 1 Support Branch
700 Robbins Avenue
Philadelphia, Pa. 19111-5094

H. Interim Changes and Classified Specifications must be obtained by submitting a request on DD Form 1425 to NAVSUP-WSS.

6.4 Recent Updates - A short description of recent updates to the technical requirements of this item are listed below, along with an implementation date for each issue. The notes below are only a generic quick reference and are provided for convenience only, detailed requirements will be defined elsewhere in the technical sections of this Contract/Purchase Order.

<10/20/2016 - Updated ECDS URL
Feb 26 2009 - Clarified testing and certs only apply to pieces listed
Oct 29 2010 - Added Sampling Std for LI In-Process testing
Sep 30 2008 - Thread Inspection Requirements were clarified
Dec 20 2022 - Removed requirement for vender to submit Waivers/Deviations in ECDS
Jan 05 2012 - Added WAWF to forward Approved Waivers/Deviations with final OQE
Dec 17 2011 - Moved Quality Assurance Text location for Readability
Apr 15 2009 - Clarified the sample size for large and small lot sizes
Jan 19 2011 - Added notification of DCMA upon contract award
May 02 2009 - Added Lubricants and Sealants to the C of C
Aug 27 2014 - Took out contractor's phone number requirement
Dec 01 2011 - Moved "Notes to DCMA QAR" to QA Section
Jan 5 2017 - ECDS/CSD info was added to Definitions in the Notes section.>

CLIN: 0002

ACTIVITY USE ONLY: TDP VERSION NO.: 008

6. NOTES

6.1 Several definitions of terms that apply to CSI items are listed below. All terms may not apply to every item.

6.1.1 The ECDS (Electronic Contractor Data Submission) system is at: <https://register.nslc.navy.mil/> This application will require advance registration using a PKI Digital Certificate on a CAC. A Vendor User Guide is available as CSD001 in the CSD (Contract Support Document) Library within ECDS.

6.1.2 Critical Safety Item (CSI) - Any ship part, assembly, or support equipment containing a critical characteristic whose failure, malfunction, or absence of which could cause a catastrophic or critical failure resulting in loss of, or serious damage to the ship, or unacceptable risk of personal injury or loss of life.

6.1.3 Critical Process - As determined by the TWH, any process, operation or action performed on a Ship CSI that serves to establish a critical characteristic (such as welding, soldering, machining, polishing, cleaning, or

assembling) or confirm that a critical characteristic is within drawing or specification compliance (such as, testing, measurement, or non-destructive evaluation).

6.1.4 First Article - Pre-production models, initial product samples, test samples produced to ensure a manufacturer's capability to meet full specification requirements.

6.1.5 First Article Test (FAT) - Contractually required testing and inspection of a supplier's pre-production, production, or "production representative" specimens to evaluate a manufacturer's ability to produce conforming product prior to the Government's commitment to receive subsequent production items. First Article Testing is product specific and does not assess manufacturing process controls nor does it assure the effectiveness of the manufacturer's quality program.

6.1.6 Government Source Inspection (GSI) - GSI is independent oversight performed by a government representative usually a DCMA Quality Assurance Representative (QAR)) to assure that those unique product quality and system elements, identified by the Contracting Agency as important, are observed and evaluated.

6.1.7 Quality Assurance Letter of Instruction (QALI) - A QALI is a formal document initiated by a contracting activity that provides essential requirements and instructions for contracted materials to be independently verified and accepted by a government representative prior to shipment.

6.1.8 Objective Quality Evidence (OQE) - The quantitative and qualitative data of all mechanical, chemical, and performance tests performed (as required by the applicable specification, drawing, or purchase document) to prove that the material supplied conforms to the specified requirements.

6.1.9 Surface Discontinuity - Any surface irregularity, marking, or localized change in physical character of the surface, other than dimensional, that exists infrequently at one or several places. (Examples: burrs, dents, nicks, scratches, gouges, pits, center-punches, scribes, and tool marks) Surface discontinuities less than 0.005-inch in depth are acceptable provided they do not violate any other design requirements specified in this Contract/Purchase Order.

6.1.10 Traceability Code - A code or number providing traceability to the actual chemical and mechanical properties of the specified heat, batch, or form from which the material originated.

6.1.11 Verification - An examination performed to determine compliance with a specific requirement.

6.1.12 Nonconformance - A nonconformance is defined as affecting or violating the following:

- The requirements of this contract/purchase order.
- Contractually invoked drawings (i.e. envelope dimensions, interface dimensions with mating parts/equipment, center of gravity, weights, piece part identification, material, etc.).
- Contractually invoked federal, military, or commercial specifications and/or standards.
- Form, fit, function, performance to contract requirements, reliability, maintainability, interchangeability, safety of personnel or equipment, or additional cost to the Government.

6.1.13 Waiver - A written authorization to accept an item, which during manufacture, or after having been submitted for Government inspection or acceptance, is found to depart from specified requirements, but nevertheless is considered suitable for use as is or after repair by an approved method.

6.1.14 Deviation - A specific written authorization (granted prior to the manufacture of an item) to depart from a particular requirement(s) of an item's current approved configuration documentation for a specific number of units or a specified period of time, and to accept an item which is found to depart from specified requirements, but nevertheless is considered suitable for use "as is" or after repair by an approved method.

6.1.15 Critical Waiver/Deviation - This waiver/deviation consists of a departure involving safety.

6.1.16 Major Waiver/Deviation - This waiver/deviation consists of a departure involving:

- Performance
- Interchangeability, Reliability, Survivability, Maintainability, or Durability of the item or its repair parts
- Health or Safety
- Effective Use or Operation
- Weight, Stability, or Structural Integrity
- System design parameters as schematics, flows, pressures or temperatures
- Compartment arrangements or assigned function

6.1.17 Minor Waiver/Deviation - This waiver/deviation consists of a departure which does not involve any of the factors listed as critical or major.

6.1.18 Engineering Change (EC) - A change to the current approved configuration documentation of a configuration

item at any point in the life cycle of the item.

6.1.19 Engineering Change Proposal (ECP) - A proposed Engineering Change and the documentation by which the change is described, justified, and submitted to the Government for approval or disapproval.

6.1.20 Class I ECP - A class I ECP is approved by the Government's Configuration Control Board and authorized with a contract modification.

6.1.21 Class II ECP - A class II change is typically reviewed for concurrence in classification by the local government representative, unless otherwise specified elsewhere in the contract/purchase order.

6.2 In accordance with OPNAVINST 5510.1 all documents and drawings provided by the U.S. Navy to perspective Contractors must include a "Distribution Statement" to inform the contractor of the limits of distribution, and the safeguarding of the information contained on those documents and drawings.

6.2.1 There are 7 (seven) separate distribution statement codes used for non-classified documents and drawings. The definition for each is as follows:

- A... approved for public release; distribution is unlimited.
- B... distribution authorized to US Governments agencies only.
- C... distribution authorized to US Government agencies and their contractors.
- D... distribution authorized to DoD and DoD contractors only.
- E... distribution authorized to DoD Components only.
- F... further distribution only as directed by Commander, Naval Sea Systems Command, code 09T.
- X... distribution is authorized to US Government agencies and private individuals or enterprises eligible to obtain export controlled technical data in accordance with OPNAVINST 5510.161.

6.3 Ordering Information for Document References - The Department of Defense Single Stock Point (DODSSP), Website <http://www.dsp.dla.mil/>, provides product information for the Department Of Defense Index Of Specifications and Standards (DODISS) (i.e. Military/Federal Specifications and Standards), Data Item Descriptions (DIDs), and other DODSSP Products. Most Specifications can be obtained directly from <http://quicksearch.dla.mil/>

A. Availability of Cancelled Documents - The DODSSP offers cancelled documents that are required by private industry in fulfillment of contractual obligations in paper format. Documents can be requested by phoning the Subscription Services Desk.

B. Commercial Specifications, Standards, and Descriptions - These specifications, standards and descriptions are not available from Government sources. They may be obtained from the publishers of the applicable societies.

C. Ordnance Standards (OS), Weapons Specifications (WS), and NAVORD OSTD 600 Pages - These type publications may be obtained by submitting a request to:

Commander, Indian Head Division, Naval Surface Warfare Center
Code 8410P, 101 Strauss Avenue
Indian Head, MD 20640-5035

D. On post-award actions, requests for "Official Use Only" and "NOFORN" (Not Releasable To Foreign Nationals) documents must identify the Government Contract Number, and must be submitted via the cognizant Defense Contract Management Command (DCMC) for certification of need for the document. On pre-award actions such requests must be submitted to the PCO for certification of need for the document.

E. NOFORN Military Specifications and Standards (including Amendments, Change Notices and Supplements, but NOT interim Changes) to be ordered from:

Contracting Officer
NAVSUP-WSS
Code 87321
5450 Carlisle Pike
P.O. Box 2020
Mechanicsburg, Pa. 17055-0788

F. Nuclear Reactor Publications Assigned NAVSEA Documents and Identification Numbers (i.e. NAVSEA Welding Standard, NAVSEA 250-1500-1) are to be ordered enue:

Commanding Officer
NAVSUP-WSS
Code 009
5450 Carlisle Pike
P.O. Box 2020
Mechanicsburg, Pa. 17055-0788

G. Technical Manuals Assigned NAVSEA Identification Numbers (i.e. NAVSEA Welding And Brazing Procedure, NAVSEA S9074-AQ-GIB-010/248) are to be ordered from:

Commanding Officer
 NAVSUP-WSS
 Code 1 Support Branch
 700 Robbins Avenue
 Philadelphia, Pa. 19111-5094

H. Interim Changes and Classified Specifications must be obtained by submitting a request on DD Form 1425 to NAVSUP-WSS.

6.4 Recent Updates - A short description of recent updates to the technical requirements of this item are listed below, along with an implementation date for each issue. The notes below are only a generic quick reference and are provided for convenience only, detailed requirements will be defined elsewhere in the technical sections of this Contract/Purchase Order.

<10/20/2016 - Updated ECDS URL
 Feb 26 2009 - Clarified testing and certs only apply to pieces listed
 Oct 29 2010 - Added Sampling Std for LI In-Process testing
 Sep 23 2013 - Replaced MIL-STD-2154 which was superseded by SAE AMS-STD-2154
 Sep 30 2008 - Thread Inspection Requirements were clarified
 Dec 20 2022 - Removed requirement for vender to submit Waivers/Deviations in ECDS
 Jan 05 2012 - Added WAWF to forward Approved Waivers/Deviations with final OQE
 Dec 17 2011 - Moved Quality Assurance Text location for Readability
 Apr 22 2009 - Added evidence of DCMA observing test plate welding & NDT
 Mar 18 2008 - Identify applicable weld joints with weld procedures
 Apr 15 2009 - Clarified the sample size for large and small lot sizes
 Jan 19 2011 - Added notification of DCMA upon contract award
 May 02 2009 - Added Lubricants and Sealants to the C of C
 Aug 27 2014 - Took out contractor's phone number requirement
 Dec 01 2011 - Moved "Notes to DCMA QAR" to QA Section
 Jan 5 2017 - ECDS/CSD info was added to Definitions in the Notes section.

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503. Please DO NOT RETURN your form to either of these addresses. Send completed form to the Government Issuing Contracting Officer for the Contract/PR No. listed in Block E.

S/N 0102-LF-010-5600

INSTRUCTIONS FOR COMPLETING DD FORM 1423

(See DoD 5010.12-M for detailed instructions.)

FOR GOVERNMENT PERSONNEL

Item A. Self-explanatory

Item B. Self-explanatory

Item C. Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management", etc.

Item D. Enter name of system/item being acquired that data will support

Item E. Self-explanatory (to be filled in after contract award).

Item F. Self-explanatory (to be filled in after contract award).

Item G. Signature of preparer of CDRL.

Item H. Date CDRL was prepared.

Item I. Signature of CDRL approval authority.

Item J. Date CDRL was approved.

Item 1. See Dod FAR Supplement Subpart 4.71 for proper numbering.

Item 2. Enter title as it appears on data acquisition document cited in Item 4.

Item 3. Enter subtitle of data item for further definition of data item (optional entry).

Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.

Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).

Item 6. Enter technical office responsible for ensuring adequacy of the data item.

Item 7. Specify requirement for inspection/acceptance of the data item by the Government.

Item 8. Specify requirement for approval of a draft before preparation of the final data item.

Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoD 5230.24).

Item 10. Specify number of times data items are to be delivered.

Item 11. Specify as-of date of data item, when applicable.

Item 12. Specify when first submittal is required.

Item 13. Specify when subsequent submittals are required, when applicable.

Item 14. Enter addresses and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

INSTRUCTIONS FOR COMPLETING DD FORM 1423

(See DoD 5010.12-M for detailed instructions.)

FOR GOVERNMENT PERSONNEL

Item A. Self-explanatory

Item B. Self-explanatory

Item C. Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management", etc.

Item D. Enter name of system/item being acquired that data will support

Item E. Self-explanatory (to be filled in after contract award).

Item F. Self-explanatory (to be filled in after contract award).

Item G. Signature of preparer of CDRL.

Item H. Date CDRL was prepared.

Item I. Signature of CDRL approval authority.

Item J. Date CDRL was approved.

Item 1. See Dod FAR Supplement Subpart 4.71 for proper numbering.

Item 2. Enter title as it appears on data acquisition document cited in Item 4.

Item 3. Enter subtitle of data item for further definition of data item (optional entry).

Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.

Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).

Item 6. Enter technical office responsible for ensuring adequacy of the data item.

Item 7. Specify requirement for inspection/acceptance of the data item by the Government.

Item 8. Specify requirement for approval of a draft before preparation of the final data item.

Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoD 5230.24).

Item 10. Specify number of times data items are to be delivered.

Item 11. Specify as-of date of data item, when applicable.

Item 12. Specify when first submittal is required.

Item 13. Specify when subsequent submittals are required, when applicable.

Item 14. Enter addresses and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

(See DoD 5010.12-M for detailed instructions.)

FOR GOVERNMENT PERSONNEL

Item A. Self-explanatory

Item B. Self-explanatory

Item C. Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management", etc.

Item D. Enter name of system/item being acquired that data will support

Item E. Self-explanatory (to be filled in after contract award).

Item F. Self-explanatory (to be filled in after contract award).

Item G. Signature of preparer of CDRL.

Item H. Date CDRL was prepared.

Item I. Signature of CDRL approval authority.

Item J. Date CDRL was approved.

Item 1. See Dod FAR Supplement Subpart 4.71 for proper numbering.

Item 2. Enter title as it appears on data acquisition document cited in Item 4.

Item 3. Enter subtitle of data item for further definition of data item (optional entry).

Item 4. Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.

Item 5. Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).

Item 6. Enter technical office responsible for ensuring adequacy of the data item.

Item 7. Specify requirement for inspection/acceptance of the data item by the Government.

Item 8. Specify requirement for approval of a draft before preparation of the final data item.

Item 9. For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoD 5230.24).

Item 10. Specify number of times data items are to be delivered.

Item 11. Specify as-of date of data item, when applicable.

Item 12. Specify when first submittal is required.

Item 13. Specify when subsequent submittals are required, when applicable.

Item 14. Enter addresses and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

Item 14. Enter addresses and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

Item 15. Enter total number of draft/final copies to be delivered.

Item 16. Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14; Desired medium for delivery of the data item.

FOR THE CONTRACTOR

Item 17. Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

b. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

Item 18. For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirements to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.
