SOLICITATION

NOTE: In sealed bid solicitations "offer" and "offeror" mean "bid" and "bidder".

10. THE GOVERNMENT REQUIRES PERFORMANCE OF THE WORK DESCRIBED IN THESE DOCUMENTS (Title, identifying number, date)

The Department of Veteran Affairs, NCO-15, intends to award a Construction Contract for project 657A5-26-111, Conduct Triennial Electrical Testing FY27 NRM at Marion VA Medical Center in Marion Illinois. This project is being solicited as a Service-Disabled Veteran Owned Small Business (SDVOSB) set aside. Proposals received in response to this solicitation will be evaluated in accordance with the procedures outlined in the Revolutionary FAR Overhaul (RFO) Part 15.103-2, Lowest Price Technically Acceptable Approach Source Selection Process. See Basis for Contract Award explanation in paragraph 3 of Proposal Submittal Instructions. Those offerors not providing the documentation outlined in the "Instructions to Offerors" will be rated unacceptable to the terms of the solicitation. The NAICS code for this project is 238210- Electrical Contractors and Other Wiring Installation Contractors, the size standard of \$19.0 Million.

UNIQUE ENTITY IDENTIFIER NUMBER:

Estimate of the construction magnitude for this project is between \$500,000.00 to \$1,000,000.00.

There will be one site visit for this project. The site visit is scheduled for October 20, 2026 at 10:45 AM CT in Bldg. 15 at Marion VA Medical Center, 2401 W. Main St., Marion, IL. All questions pertaining to this project are due by 3:00 PM CDT, October 23, 2026. All questions shall be e-mailed to maria.hoover@va.gov and kevin.mahoney3va.gov. CONTRACTORS WILL BE REQUIRED TO ELECTRONICALLY SUBMIT PROPOSAL BY EMAIL TO MARIA HOOVER AND KEVIN MAHONEY. email: maria.hoover@va.gov, phone 913-946-1127 and kevin.mahoney3@va.gov phone 913-684-0141. (CONTRACTOR WILL BE REQUIRED TO VERIFY THAT THE EMAIL HAS BEEN RECEIVED WITH ATTACHED PROPOSAL DOCUMENTS BY THE CONTRACTING OFFICER).

Bid Bond shall be included in emailed proposal and hard copy mailed to address in block 8 by proposal closing date. Award will be made on item number 0001. Period of Performance for this project is 90 calendar days. All contractors and Joint Ventures must be certified in SBAVetCert, and registered in SAM.gov at the time of proposal due date through the time of award to be eligible for award. See FAR 52.204-7(b)(1).

NOTICE: Clause 52.222-37 Employment Reports on Disabled Veterans and Veterans is incorporated by reference in this solicitation. Public Law (P.L. 105-339), Section 1354 provides that no agency may enter into a contract with a contractor who has not filed a VETS-4212 report for the preceding fiscal year under TITLE 38 SECTION 4212 (d).

Prospective awardee is required to report the total amount invoiced and the direct labor hours expended on the services performed under contracts that include clause 52.204-14 or 52.204-15.

11. The Contractor shall begin performance within <u>10</u> calendar days and complete it within <u>90</u> calendar days after receiving ☐ award, ☒ notice to proceed. This performance period is ☐ mandatory ☐ negotiable. (See <u>52.211-10</u>).	
12a. THE CONTRACTOR MUST FURNISH ANY REQUIRED PERFORMANCE AND PAYMENT BONDS? (If "YES," indicate within how many calendar days after award in Item 12B.) ☒ YES ☐ NO	12b. CALENDAR DAYS

13. ADDITIONAL SOLICITATION REQUIREMENTS:

- Sealed offers in original and _____ copies to perform the work required are due at the place specified in Item 8 by 15:00 CST (hour) local time 11-09-2026 (date). If this is a sealed bid solicitation, offers must be publicly opened at that time. Sealed envelopes containing offers shall be marked to show the offeror's name and address, the solicitation number, the date and time offers are due.
- An offer guarantee ☒ is, ☐ is not required.
- All offers are subject to the (1) work requirements, and (2) other provisions and clauses incorporated in the solicitation in full text or by reference.
- Offers providing less than 120 calendar days for Government acceptance after the date offers are due will not be considered and will be rejected.

OFFER (Must be fully completed by offeror)

14. NAME AND ADDRESS OF OFFEROR (Include ZIP Code)		15. TELEPHONE NUMBER (Include area code)
		16. REMITTANCE ADDRESS (Include only if different than Item 14.)
CODE	FACILITY CODE	

17. The offeror agrees to perform the work required at the prices specified below in strict accordance with the terms of the solicitation, if this offer is accepted by the Government in writing within _____ calendar days after the date offers are due. (Insert any number equal to or greater than the minimum requirement stated in Item 13d. Failure to insert any number means the offeror accepts the minimum in Item 13d.)

AMOUNTS

18. The offeror agrees to furnish any required performance and payment bonds.

19. ACKNOWLEDGMENT OF AMENDMENTS

(The offeror acknowledges receipt of amendments to the solicitation -- give number and date of each)

AMENDMENT NUMBER										
DATE.										

20a. NAME AND TITLE OF PERSON AUTHORIZED TO SIGN OFFER
(Type or print)

20b. SIGNATURE

20c. OFFER DATE

AWARD (To be completed by Government)

21. ITEMS ACCEPTED:

22. AMOUNT

23. ACCOUNTING AND APPROPRIATION DATA

24. SUBMIT INVOICES TO ADDRESS SHOWN IN
(4 copies unless otherwise specified)

ITEM

25. OTHER THAN FULL AND OPEN COMPETITION PURSUANT TO

CONTRACTING OFFICER WILL COMPLETE ITEM 28 OR 29 AS APPLICABLE

☐ 28. NEGOTIATED AGREEMENT (Contractor is required to sign this document and return _____ copies to issuing office.) Contractor agrees to furnish and deliver all items or perform all work requirements identified on this form and any continuation sheets for the consideration stated in this contract. The rights and obligations of the parties to this contract shall be governed by (a) this contract award, (b) the solicitation, and (c) the clauses, representations, certifications, and specifications incorporated by reference in or attached to this contract.

☐ 29. AWARD (Contractor is not required to sign this document.) Your offer on this solicitation is hereby accepted as to the items listed. This award consummates the contract, which consists of (a) the Government solicitation and your offer, and (b) this contract award. No further contractual document is necessary.

30a. NAME AND TITLE OF CONTRACTOR OR PERSON AUTHORIZED
TO SIGN (Type or print)

31a. NAME OF CONTRACTING OFFICER (Type or print)

A.4 STATEMENT OF WORK

DEPARTMENT OF VETERANS AFFAIRS
Marion IL VA MEDICAL CENTER

STATEMENT OF WORK

FOR

Maintenance, Inspection, Adjustment, and Testing
of the Electrical Power Distribution System

Executive Summary

The Marion VA Medical Center requires tri-annual electrical testing of numerous electrical items. These include, but are not limited to, approximately 325 electrical panels, 10 medium voltage oil-type transformers, 5 medium voltage dry-type transformers and 120 low voltage dry-type transformers, 220 fused/non-fused switches, 6 Generators and 25 Automatic Transfer Switches. The contractor is responsible for verifying total quantities and completeness. A full list is given in table 1 of this Statement of Work (SoW). This testing will be in accordance with International Electrical Testing Association, Inc. (NETA) – Maintenance and Testing

Specifications, 2019 ed., particularly chapter 7 (See attachment A; NETA/ MTS 2019 excerpt as a partial reference for Switchgear, Switchboard and Panelboard testing requirements). Adherence to all applicable codes, such as the latest version of the NEC, is expected. Because of the function of the Hospital, Clinics and many of the buildings' operations, much of the work will need to be done after hours, at night and/ or on weekends. Also, coordination of the power outages associated with this testing will require 4-week notice to the VA COR responsible for managing this project. Basis for this work is given in VHA Directive 1028, Electrical Power Distribution System, dated Feb. 24, 2020.

1. Introduction:

- A. This Statement of Work (SOW) describes the scope of completing the maintenance, inspection, testing, and/or calibration of the Electrical Power Distribution System and all of its components at the Marion VA Medical Center. These work items are referenced as "Maintenance and Testing" in this document, hereafter.
- B. This SOW describes the requirements for the Qualified Electrical Contract Professionals – known as "Contractors" in this document, here after. Contractors who are contracted by the VA to perform maintenance and testing of the Electrical Power Distribution System, and all of its components shall meet all requirements stated in Section 3 of this SOW.
- C. This SOW describes the requirements for delivering maintenance and testing reports.
- D. Throughout this SOW the "COR" shall mean the Contracting Officer's Representative. The COR and VA Project Engineer are used interchangeable and are the same person.
- E. This SOW shall satisfy the requirements of the current version of VHA Directive 1028, *Electrical Power Distribution Systems*; specifically meeting the requirements of subparagraph 4b(11)(e), 4b(12), and all subsections, and

4b(13) and all subsections. Testing, maintenance, and exercising of the EES, including all related components, must be executed to meet the requirements of NFPA 99 and NFPA 110, whichever is more stringent.

- F. **Schedule of Costs:** The Contractor shall submit a schedule of costs for the approval of the Contracting Officer within 14 calendar days of contract award. This schedule shall identify, at a minimum, major equipment categories by building and/or floor and report requirements. This schedule of costs will be used to process monthly progress payments. Reference FAR 52.212-5 (b)(48), and FAR 52.232-29, Terms for Financing of Purchase of Commercial Goods.

- 2. **Period of Performance.** The contractor shall complete the work required in this Statement of Work (SOW) within Ninety (90) calendar days from Notice to Proceed (NTP), unless otherwise directed by the Contracting Officer. If the contractor proposes an earlier completion date, and the Government accepts the contractor's proposal, the contractor's proposed completion date shall prevail.

- 3. **Content of Contractor Proposal.** The following shall be provided by the contractor in their proposal:

- A. Name and contact information (Address, Phone Number and E-Mail Address) of Contract Manager.
- B. Name and contact information (Local Address, Phone Number and E-Mail Address) of On-Site Supervising Field Service Engineer.
- C. Name and Certifications of the Site Safety and Health Officer and Competent Person.
- D. Qualifications, Certifications and Past Experience of On-Site Supervising Field Service Engineer. (Evaluation Criteria)
- E. Certifications of On-Site Technicians and their current level of skill, i.e., Master Electrician, Journeyman, Apprentice, etc. (Evaluation Criteria)

- F. Quality Control Plan to Include Safety Procedures (Evaluation Criteria)
- G. Proposed Schedule (Evaluation Criteria)
- H. Three examples of work completed in the past 5 years showing Contractor's experience in completing similar work as requested in this SOW. (Evaluation Criteria)
- I. Proposal Cost (Evaluation Criteria). It is the responsibility of the contractor to conduct a site visit to ensure all labor, equipment, materials, and overhead is included for all electrical components required to be tested and maintained. Contractors not conducting a site visit to validate and verify the level of work shall not be permitted an increase in cost due to unforeseen site conditions or unconfirmed level of effort to complete this contract.
- J. Sample Test Sheets for specific pieces of equipment and cable to be used for documenting completed tests for each type of component to be tested.

4. Qualifications of Contractors:

- A. Contractors shall be experienced Electrical Contractors that regularly engages in the construction, repair, testing and maintenance of industrial and commercial electrical distribution systems and electrical equipment devices. Contractors shall have permanent staff that shall be properly trained, certified and licensed to perform the proposed work.
- B. Contractors shall be certified by the International Electrical Testing Association (NETA) or *equivalent certifying organization* as Certified Technicians with each having completed the Occupational Safety & Health Administration (OSHA) approved 10-hour construction safety training. NETA certification level shall be at the appropriate level for accomplishing the varies maintenance, inspection and testing requirements identified in this SOW.

- C. Contractors shall have technical training and demonstrable track records of working experience in maintenance, inspection, and testing of the Electrical Power Distribution Systems and related components in healthcare, industrial, educational, and commercial facilities for a minimum of five (5) continuous years. Electrical components on which the Contractors have experience shall include, but not be limited to, switchboards & switchgear (low and medium voltage); low voltage controls; emergency and standby generators; automatic transfer switches, wiring, transformers, meters, and other electrical appurtenances.
- D. On site field work shall be supervised directly by a Supervising Field Service Engineer. The Supervising Field Engineer must be accredited as a Certified Electrical Testing Technologist by the National Institute for Certification of Engineering Technologists (NICET) or NETA and have a minimum of 5 years' experience on similar testing projects of the scope identified in this SOW. Contractor to submit name of Supervising Field Engineer along with 3 examples of work completed within the last 5 years. Supervising Field Service Engineer that has a BS or higher degree in electrical engineering need not be accredited, or certified, provided that they can demonstrate the required specialized knowledge and at least 5 years of experience in testing, inspection and maintenance of electrical power distribution systems and components.
- E. On site field technicians assigned to the project must be certified by NICET, NETA, or have equivalent qualification certification.
- F. Contractors shall have safety training – either on-the-job or class-room type - in electrical safety outlined in the OSHA Standard 29 Code of Federal Regulations (CFR) 1910 Subpart S – Electrical, and the NFPA 70E – Standard for Electrical Safety in the Workplace. Training certification shall be provided indicating each technician is a Qualified Person as defined by NFPA 70E. Training certifications shall be submitted to the VA Contracting Officer prior to award of the service contract.
- G. All on-site field technicians and supervisors shall submit certification documentation to the Contracting Officer with their proposal, indicating

compliance with all qualifications described here-in. Additional staff hired after award of contract shall submit certification documentation 14 calendar days prior to being permitted on site.

- H. Contractors shall have ready access to the latest versions of the following references while conducting the testing and maintenance of the electrical distribution system:
- 1) NFPA 70, National Electrical Code.
 - 2) NFPA 70B, Recommended Practice for Electrical Equipment Maintenance.
 - 3) NFPA 70E, Standard for Electrical Safety for the Workplace.
 - 4) NFPA 110, Standard for Emergency and Standby Power System.
 - 5) OSHA Standard 29 CFR 1910, Subparts I & S.
 - 6) InterNational Electrical Testing Association, Inc. (NETA) – Maintenance and Testing Specifications.
 - 7) Operating/Maintenance manuals and specifications of the electrical equipment to be maintained and tested. These documents are maintained by the VHA Health Care System, or by the equipment manufacturers.
 - 8) VHA Directive 1028, Electrical Power Distribution System.
- I. Contractors shall have and provide all necessary tools, equipment, and Personal Protective Equipment (PPE) to perform the work safely, effectively, and timely. Tools, equipment, and PPE shall comply with the requirements of OSHA Standard 29 CFR 1910, Subpart I, and NFPA 70E. Prior to initiating work, contractor shall provide documentation that all instruments, test equipment, tools and PPE have current calibration. Dated calibration labels shall be visible on all instruments, test equipment, tools and PPE as appropriate.
- J. The Contractor shall supply their own portable generators, lights, dewatering equipment, etc., as needed to accomplish work during power shutdowns. The VA will not furnish materials, labor, or equipment for the contractor's use.

- K. The contractor shall provide sample test sheets used to document testing of each component “type” with their proposal. The term “type” is defined as equipment identified in ANSI/NETA MTS-2019, Standards for Maintenance Testing Specifications, Chapter 7. INSPECTIONS AND TEST PROCEDURES.

5. Summary of Work (Field Work):

- A. The Contractor shall provide a proposed schedule with their bid proposal. The schedule shall be in the form of a progress chart of suitable scale to indicate the work scheduled for completion by any given date during the work period. The proposed schedule shall be reviewed by the VA Engineering Service; any requirements for adjusting the schedule (e.g., to minimize disruption to the VAMC) shall be incorporated by the Contractor prior to award of the contract.
- B. Contractors shall report deficiencies that are deemed critical or catastrophic immediately to the Contracting Officer and Chief of Engineering Service for immediate actions. Contractor shall provide a rough cost estimate for correcting the deficiencies deemed critical or catastrophic.
- C. Work items, definitions, and references shall comply with the latest edition of the NETA – Maintenance Testing Specifications (MTS) and with the VHA Directive, Electrical Power Distribution System. Below is a list of electrical equipment types that shall be **maintained**, **tested** and **repaired** as necessary and approved by the Contracting Officer:
1. Switchgear and Switchboard Assemblies
 2. Transformers, Dry Type, Air-Cooled, Low-voltage, Small.
 3. Transformers, Dry Type, Air-Cooled, Low-voltage, Large.

4. Transformers, Liquid-Filled. Aluminum and Copper Windings, Silicone
5. Metal-Enclosed Busways/Busduct.
6. Switches, Air, Low-Voltage.
7. Switches, Air, Medium-Voltage, Metal-Enclosed.
8. Switches, Oil, Medium-Voltage.
9. Switches, Vacuum, Medium-Voltage.
10. Switches, SF₆, Medium-Voltage.
11. Circuit Breakers, Air, Insulated-Case/ Molded-Case.
12. Circuit Breakers, Air, Low-Voltage Power.
13. Circuit Breakers, Air, Medium-Voltage.
14. Circuit Breakers, Oil, Medium and High-Voltage.
15. Circuit Breakers, Vacuum, Medium-Voltage.
16. Circuit Breakers, SF₆

17. Protective Relays, Mechanical, and Solid State.

18. Protective Relays, Microprocessor Based.

19. Grounding Systems / Neutral Grounding Resistors.

20. Ground-fault Protection Systems.

21. Motor Control, Motor Starters, Low-Voltage.

22. Motor Control, Motor Starter, Medium-Voltage.

23. Emergency Systems, Engine Generators.

24. Emergency Systems, Automatic and Manual Transfer Switches.

D. Government Furnished Documents.

- 1) Inventory of Electrical Power Distribution System components to be maintained, inspected, and tested under this Scope of Work.
- 2) One-line and other informational drawings of the Electrical Power Distribution System. These drawings are not certified as-built drawings and the Contractor is required to validate the drawing and provide red-line updates where changes are found during testing and maintenance.
- 3) Available Electrical Power System study information relevant to the scope of this effort, such as coordination study data, short-circuit analysis, arc-flash hazard analysis and available protective device setting information.
- 4) Prior Triennial Electrical Survey

E. 4-Hour Power Outage Test

The Contractor shall be present for and will participate in the VAMC 4-hour test of the Essential Electrical System (EES). This test shall fulfill the requirements of VHA Directive, Electrical Power Distribution System, NFPA 110 (e.g. Para. 8.4.9.) and The Joint Commission. This test will include opening of all utility service connections serving the VAMC for a minimum of 4-hours. During the test period, the Contractor shall verify operation of all EES components including the transfer to emergency power and return to normal service. The Contractor shall include in their bid proposal all costs associated with the services of the local utility company for the duration of the test. The estimated duration of the Contractor's involvement is between 8 – 12 hours. The Contractor shall assist the VAMC staff with troubleshooting and correcting malfunctioning electrical equipment discovered during the test. Contractor shall make any required adjustments and/or re-calibrations to all equipment which has been otherwise maintained, inspected, and tested under this Statement of Work. The time of the test shall be coordinated with and at the approval of the Chief of FMS/Engineering.

F. Infra-Red Scanning/Thermographic Survey:

- 1) Use an infra-red scanning camera to detect hot spots in the Electrical Power Distribution System. Objective of this work is to detect any loose, broken, or corroded connections in the system. Problem connections shall be replaced with new connectors, and/or tightened with torque wrench to meet the equipment manufacturers' specifications.
- 2) An infra-red photograph along with a written report of each piece of equipment shall be provided upon completion of this task. For equipment showing no problems, a digital photo is sufficient; no written report required.
- 3) Note that since this work item must be done while the Electrical Power Distribution System is energized, appropriate safety precautions must be taken before, during and after scanning the system.

G. System Function Tests. Provide satisfactory function test for all equipment listed in this Scope of Work in the presence of a VA Representative, the COR and Maintenance and Operation Personnel.

H. Quality Control of Contractor and Sub-Contractor Employees. The Contractor shall provide a quality control plan for the work completed under this contract. At a minimum, the Contractor shall:

- 1) Photograph each component tested inspected and maintained prior to any work completed; upon completion of work on that specific component, a second photograph will be taken verifying the original position of any switch is the final position; the final photograph shall include a sticker indicating the date that the component was tested and/or maintained. The photographs shall include date and time stamps.
- 2) Randomly test (5%) of components that were removed for testing to ensure correct phasing upon re-insertion.
- 3) Randomly test (10%) of the components that were removed for testing to ensure proper reconnection of conductors/cables.
- 4) Provide digital files showing the results of any quality control testing/documentation.

I. No work shall be permitted on energized circuits without the expressed written permission of the Marion VA Medical Center Director.

J. Contractor shall not perform any service that will result in additional charges without prior approval from the Contracting Officer.

K. Level of Expected Work is listed is listed in Table 1 below. The below numbers are estimates only, the Contractor is to verify the quantities prior to submitting their proposal.

Table 1: Estimated Quantities of Electrical Distribution System Components

Type of Equipment	Quantity
-------------------	----------

<600V Distribution/Service Panelboards/Switchgear/MCC and MV Unit Substations (6)	350
Circuit Breakers >200 Amps	290
Generators 480V <2.5MW	6
Automatic Transfer Switches 480V and <2000A	25
Transformers Dry and Liquid – 480V <500MVA and 12.470kV <2MVA (<10 MV XFMR)	100
Uninterruptable Power Supplies	6
Fused Switches	200
Medium Voltage Cables, Multiple Lengths/Splices, 15kV Class	3 Circuits
Medium Voltage Distribution Switchgear, Unit Substations, Circuit Switches	13

Table 1, Estimated Quantities of Electrical Distribution System Components

- 1) The above listed equipment is only an estimate; the contractor is required to conduct a site survey to confirm all quantities. Note, not all types of electrical equipment are included in Table 1, the contractor is responsible for identifying all equipment requiring testing before submitting a quotation. Current year NETA-MTS are general guidelines enforced by VHA Directive 1028; the contractor may include equal or better testing methods that is subject to Project Engineer's technical approval. The equipment is in the following buildings: 1, 2, 8,13,14, 15, 16, 42, 43, 47, 49, 52, 81, 82, 83,84 Engineering and Safety Pole Barns and Modular Buildings 1, 3, 4, and Exterior Distribution Gear and Cables.
 - i. Breakers 225A and larger shall be tested with primary current injection to test all applicable trip settings. Breakers less than 225A shall be operated; current injection is not required. Indicate/document and provide COR documentation on to ensure tripping characteristics fall within manufacturer limits. When primary current injection is used, the breaker shall be operated in normal service to validate correct operation. Should a breaker fail testing and not be functional; the contractor shall immediately notify the COR and provide corrective action.

- ii. EES systems that are critical to facility operations that require maintenance shall be inspected, cleaned, tested, and documented to the highest extent possible. Thorough coordination between the contractor and VA Medical Facility operations and COR is required to maintain the equipment effectively and adequately when an outage is required.
- iii. Grounding Systems and Ground Fault Systems shall be documented and tested per the NETA MTS guidelines and additionally indicate on submitted documentation adherence to the latest version of the NEC for Grounding and Bonding at Services, Transformers, and other applicable areas identified in the site investigation. Fall of potential or approved equal validation is required.
- iv. Inspect contact points in various equipment and remove surface deposits. Clean and lubricate per manufacturer recommendations. Clean Equipment Cubicles. Perform insulation resistance testing where applicable. Maintain operating mechanisms including mechanical linkage, tripping, charging units, and all other equipment contained within the system.
- v. Operate all equipment as intended for a functional test.
 - 1. Automatic Transfer Switches shall be tested and operated as required by NETA MTS guidelines and NFPA Hospital EES requirements, but not to adversely impact facility operations. Operations and Timing tests shall be documented. Clean and lubricate all switches. The operation of ATS shall be tested by opening the upstream normal power switch/breaker to simulate a power outage. The contractor shall coordinate the outage schedule with all critical Patient, Critical Equipment, and Life-Safety ATSs.

- vi. Medium voltage terminations shall be included in the thermographic study and assessment, including splices of any type. This is subject to new work.
- vii. Medium voltage cable testing shall:
 - 1. Be nondestructive. The contractor shall submit the testing method to the Project Engineer for approval, meeting IEEE 400 *Guide for Field Testing and Evaluation of the Insulation of Shielded Power Cable*, and the subset for the test used. VLF Tan Delta Tests of Service Aged Cable is acceptable. Instrument resolution shall be able to obtain meaningful results on new and shorter length cable. Instrument shall have annual calibration certificates submitted to COR prior to testing. Do not Hi-Pot.
 - 2. Be witnessed by the Project Engineer. Cable testing includes removing the termination from the connected device, cleaning the point of connection, testing, and re-terminating. Insulators at the point of connection shall be cleaned with acceptable agents and inspected and documented for insulation break down or any other adverse effects.
- viii. Inventory the electrical system in an excel, or equal, electronic table classified by equipment type and given rating such as voltage, current, kVA, AIC/Withstand, fuse size, and any other specific information listed on nameplate. Note Items such as TVSS, or recommended locations for surge suppressive equipment to be installed on existing gear at future locations.
- ix. Medium Voltage Dry Type Transformers shall be tested per NETA-MTS. Do not perform optional tests.

- x. Medium Voltage Liquid Type Transformers shall be tested per NETA-MTS. Include oil sampling and testing; provide results and correct all conditions where applicable or where unsatisfactory results are obtained.
 - xi. Low Voltage Transformers shall be tested per NETA-MTS and identify transformers that do not meet DOE energy efficient type, identify improperly mounted transformers for cooling impact, and provide a budgetary replacement assessment.
 - xii. Metal Enclosed Bus Ways shall be inspected and tested per NETA-MTS.
 - xiii. Capacitors/TVSS/PF Correction equipment shall be maintained per NETA-MTS.
 - xiv. Inspect equipment for corona and tracking damages. Correct critical issues found during investigation.
- L. Contractor shall de-energize/re-energize under V.A. supervision all Electrical Power Distribution Systems Equipment. The contractor shall assist and is required to dawn/doff appropriate PPE.

6. Summary of Work (Reports):

- A. A complete digital test and maintenance report of the work performed shall be provided to the VA within 7 days of completion of the testing and maintenance at each campus. Information shown in the reports shall be as following:
 - 1) Equipment Report Sheets shall be specific to the piece of equipment and indicate Inspection and Test Procedures used and the results of the

Visual, Mechanical, and Electrical Inspections and Test in accordance with NETA-MTS 2019. Optional tests performed shall be documented. Test Values shall be presented on the sheet. The sheet shall include a rating of good, fair, or poor based on NETA-MTS 2019 criteria and tables.

- 2) Company's name, addresses, telephone, and FAX numbers.
- 3) Name and signature of contractors who perform the maintenance and testing.
- 4) VA Work Contract Number, name and number of VA Contracting Officer.
- 5) Date and Time of work. Provide, for the Contractor personnel each subcontractor's personnel, certified payrolls showing specific time worked, normal hours worked, overtime hours worked, job classification and wages and benefits.
- 6) For each individual conducting testing and maintenance of equipment, provide copies of contractors' valid licenses, professional and training certificates.
- 7) Descriptions and model number of specialized tools and equipment used, such as torque wrench or infra-red scanning camera.
- 8) Location, Type, Name, and nameplate information of electrical equipment to be maintained and tested. Location shall include a) Station Name b) Building, c) Room Number or Corridor Designation and d) Equipment Name if Electrical Component has more than one item tested.
- 9) Descriptions of work items.
- 10) Test data and results. Provided in a format approved by The Joint Commission. Each electrical component tested shall have a digital photograph taken prior to removal for testing and a digital photo upon completion of testing. The photo taken after testing shall clearly show a label indicating successful completion of testing and maintenance.
- 11) Reference materials such as equipment manufacturer's specifications, coordination study, etc. used in the testing and maintenance.
- 12) Remarks on conditions of electrical equipment. List all deficiencies, if any.
- 13) Recommended corrective actions along with projected costs, if any.

- B. A complete digital infra-red report of each piece of equipment shall be provided to the VA within 14 days of completion of the infra-red testing at each campus. Information shown in the reports shall be as following:
- 1) Company's name, addresses, telephone, & FAX numbers.
 - 2) Name and signature of contractors who perform the maintenance and testing.
 - 3) VA Work Contract Number, name and number of VA Contracting Officer.
 - 4) Date and Time of work. Provide, for the Contractor personnel each subcontractor's personnel, certified payrolls showing specific time worked, normal hours worked, overtime hours worked, job classification and wages and benefits.
 - 5) For each individual conducting testing and maintenance of equipment, provide copies of contractors' valid licenses, professional and training certificates.
 - 6) Descriptions and model number of specialized tools and equipment used, such as torque wrench or infra-red scanning camera.
 - 7) Location, Type, Name, and nameplate information of electrical equipment to be maintained and tested.
 - 8) Descriptions of work items.
 - 9) Test data and results. Provided in a format approved by The Joint Commission. Each electrical component tested shall include a digital infra-red photograph. Electrical components showing deficiencies shall have a second digital infra-red photograph taken showing corrected deficiency.
- C. Upon acceptance of the digital reports, submit four (4) hard copies of the complete reports to VA Contracting Officer within Fourteen (14) calendar days of digital report acceptance.
- D. Hard copies of worksheets or raw data collected during the testing and maintenance shall be provided after each workday and prior to the start of the next work day. Information shall at a minimum include the following:

- 1) Required Testing Form
- 2) Company's name, addresses, telephone, & FAX numbers.
- 3) Name and signature of contractors who perform the maintenance and testing.
- 4) VA Work Contract Number, name and number of VA Contracting Officer.
- 5) Location, Type, Name, and nameplate information of electrical equipment to be maintained and tested. Location shall include a) Station Name b) Building, c) Room Number or Corridor Designation and d) Equipment Name if Electrical Component has more than one item tested.
- 6) Any deficiencies identified.

7. Scheduling and Power Outages

- A. This contract is for the testing and maintenance of a critical electrical distribution system and will require 150 calendars days for completion.
- B. The Contractor shall, within 30 calendar days after award, prepare and submit to the VA COR for acceptance a basic schedule showing the order in which the Contractor proposes to perform work, and proposed dates on which the Contractor contemplates, starting and completing work. The following are the basic elements of the schedule (the Contractor is not precluded from starting verification and validation and the Infra-Red Surveys prior to the schedule submission):
 - 1) Kick-off Meeting
 - 2) Verification and Validation of Electrical Components to be tested, inspected and maintained
 - 3) Infra-Red Survey
 - 4) Testing, Inspection and Maintenance of Electrical Components

- 5) Draft Report Submissions
 - 6) Final Report Submissions
- C. Upon Verification and Validation of the electrical components, the Contractor shall provide a proposed Detailed Outage schedule. Allow for 14 calendar days for scheduling of each outage after approval of detailed outage schedule. Due to the critical nature of the electrical distribution system, the VA may restrict the size and length of each outage.
- D. The Detailed Outage Schedule shall include the following:
- 1) Location for Locking Out Electrical Components for Each Outage
 - 2) Electrical Components to be Tested, Inspected and Maintained for Each Outage
 - 3) Length of Time of the Each Outage
 - 4) Proposed Date of Each Outage
 - 5) Number of Contractor Employees on-site for Each Outage
- E. Limitations on Each Outage:
- 1) Outages shall be completed during other than normal working hours (7:00AM to 5:30PM) unless specifically approved by the COR.
 - 2) Outages may be limited to night and weekend hours.
 - 3) Outages shall not last longer than 4 hours in a 24-hour period without the specific approval of the COR.

7. Miscellaneous Requirements

- A. The COR shall be contacted as to providing a working space for testing electrical components and an area for storage of materials. Medical Center

material storage space is extremely limited. Therefore, material storage space shall be the responsibility of the Contractor and should be mobile in nature (CONEX, trailer, etc.)

- B. Contractor parking will be coordinated with the COR.
- C. VA shall provide space for testing equipment and electrical power to run the Contractor testing equipment. The location for the equipment shall be designated by the COR and the location will not be moved without approval of the COR. Submit the power requirements for Contractor testing equipment in the Contractor Proposal. Connection to the power source for Contractor equipment is the responsibility of the Contractor to include protective devices, cables, etc. The VA electrical staff will de-energize any lines for Contractor to connect to.
- D. The contractor shall supply all labor, materials, supplies, equipment, vehicles, portable generators, lights, etc. necessary to accomplish work during power shutdowns. The VA will not furnish materials or equipment for the Contractor's use. Contractor shall be responsible for the labor, materials, equipment, tools, etc., to remove covers, lids, bars, plates, or other removable impediments to electrical components for access to the equipment to be testing, inspected and/or maintained. The VA will not provide labor for any work except for de-energizing and energizing electrical components and providing access to secure areas.
- E. Review of electrical distribution system prior to bidding is the responsibility of the Contractor. Documents/information provided in this solicitation is not sufficient to complete an accurate cost estimate/proposal. Failure to conduct a site visit will not be a reason for a Request for Equitable Adjustment after award of the contract.

8. VA Owned Transformers and Oil Filled Switches

- A. The contractor shall provide onsite; labor, material, tools, test equipment and supervision necessary to accomplish Testing on VA-Owned Transformers and Oil filled switches.

- B. All services for this contract must meet manufacturer's performance and technical specifications, Federal Regulations, and other specifications that may apply such as National Electric Code (NEC), Life Safety Code (LSC), Joint Commission on Accreditation of Healthcare Organizations (JCAHO), and VA Regulations. parking will be coordinated with the COR.

- C. Testing shall include but is not limited to the following features:
 - 1) Visual Inspection & Field Service History to include all fluid levels, temperature readings, pressure/vacuum, paint condition, leaks and history of maintenance services.

 - 2) Liquid Screen Test Data to include neutralization number, IFT, dielectric breakdown strength, color, specific gravity, and visual examination data. These tests are to evaluate the progress of oxidation, indicate needs for maintenance and identify contamination.

 - 3) Inhibitor Content – The most cost-effective point at which to perform oil maintenance is when the oxidation inhibitor has become depleted, but other oil quality results are still acceptable.

 - 4) Liquid Power Factor – Contamination from outside materials, moisture, and oil oxidation all raise the liquid power factor. The type of problem will be determined and evaluated using the liquid power factor analysis run at both 25 degrees Celsius and 100 degrees Celsius.

 - 5) Karl Fischer Moisture Determination – Moisture corrodes metal components, weakens the solid insulation, and promotes oxidation and increases the rate of aging for the equipment. At high levels, it lowers the insulating capabilities of the oil and solid insulation and can lead to flashover. Moisture analysis is required to monitor the progress of this damaging contaminant.

- 6) Furan Analysis – This is a method for determining the condition of the solid insulation by drawing and analyzing a sample of the insulating liquid. The profile of furans indicates whether an active fault condition is breaking down the paper and gives a reliable estimate concerning the extent to which the solid insulation has aged.
- 7) Dissolved Gas Analysis – Concentrations of nine gases dissolved in the insulating liquid are determined. The profile of gases is interpreted. An abnormal gas profile indicates an incipient transformer fault – oil or paper overheating, hot spot overheating, or an electrical discharge.
- 8) PCB Content – the PCB Content will be determined using packed column gas chromatography Documentation.

9. General Contract Requirements

A. General Information.

- 1) Visits to the site by Bidders may be made only by appointment with the VA Project Engineer upon the posting of the solicitation.
- 2) The Medical Center's normal working hours are from 7:00AM to 6:30PM. Monday through Friday. The contractor services shall be performed at various times including evenings, nights and weekends as necessary to facilitate power shutdowns.
- 3) Federal Holidays are as follows and include any other days specifically declared by the President of the United States to be a national holiday:

New Year's Day	Martin Luther King's Birthday
President's Day	Memorial Day
Independence Day	Labor Day

Columbus Day

Veterans' Day

Thanksgiving

Christmas

June Teeneth

- 4) Service Contract Act of 1965: All service employees who will be employed in the performance of the contract awarded as a result of this solicitation shall be paid no less than the wages shown on the Wage Determination which is incorporated and made a part of this solicitation and resulting contract.

B. Security Requirements

1) Definitions

Access means routine, unescorted physical entry into, and to the extent authorized, mobility within a government facility. Also, it means the ability to obtain, view, read, modify, delete, and/or otherwise make use of information technology.

Contractor employee means an employee of the prime contractor or of any subcontractor, affiliate, partner, joint venture, or team members with which the contractor is associated. It also includes consultants engaged by any of those entities.

Facility and *Government facility* mean buildings, including areas within buildings, owned, leased, shared, occupied, or otherwise controlled by the federal government.

Information technology means any equipment or interconnected system or subsystem of equipment, including telecommunications equipment that is used in the automatic acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. This includes both

major systems/applications and general support systems as defined by OMB Circular A-130, owned by VA or owned and operated on VA's behalf by another party.

Sensitive Information means documents showing the location, capability, and/or capacities of the electrical distribution system's electrical components.

- 2) The VA reserves the right to close down or shut down the project site and order Prime contractor's employees off the premises in the event of a national emergency. The Prime contractor may return to the site only with the written approval of the Contracting Officer.
- 3) All employees of the Contractor and subcontractors shall comply with VA security management program and obtain permission of the VA police, be identified by project and employer, and restricted from unauthorized access.
- 4) Access to VA Facilities or Systems
 - i. *General.* The performance of this contract requires contractor employees to have routine, unescorted access to VA facilities. All such employees who do not already possess a current Security Badge or PIV Card acceptable to VA shall be required to provide personal information, undergo an FBI National Criminal History Fingerprint Check, and obtain a Security Badge prior to being permitted access to any such facility in performance of this contract. No contractor employee will be permitted routine, unescorted access to a VA facility without a proper Security Badge.
 - ii. *Citizenship-related Requirements.* If required by the contract, each affected contractor employee as described in paragraph i. shall be a United States (U.S.) citizen or an alien lawfully admitted into the United States for permanent residence as evidenced by an Alien Registration Receipt Card Form I-151.

- iii. *Background Check.* After completion of the fingerprint check, the Contracting Officer will notify the contractor in writing if any Contractor employee is determined to be unsuitable to be given access to a government facility or VA system. If so notified, the contractor shall not allow such employees to perform work on this contract.

- iv. *Security Badge Issuance.* The VA will issue a Security Badge to each Contractor employee who is to be given routine, unescorted access to VA facilities or access to VA systems and does not already possess a Security Badge or PIV Card. VA will not issue a Security Badge until the contractor employee has successfully cleared the FBI National Criminal History Fingerprint Check. The Security Badge shall identify individuals as Contractor employees. Contractor employees shall display their Security Badge on their persons at all times while working in a VA facility and shall present their cards for inspection upon request by VA officials or VA security personnel. The normal process for obtaining a Security Badge takes at least 1 week to include 3 days to complete the fingerprint background check and 2 days to create the Security Badge; Contractor should plan for this time in their proposal. Additionally, Personal Identification is required to obtain a Security Badge; two pieces of identification are required, both must be issued by a Government entity, and one shall have a photograph of the individual applying for a Security Badge.

- v. *Security Badge Responsibility.* The contractor shall be responsible for all Security Badges issued to the Contractor's employees and/or subcontractor employees and shall immediately notify the COR if any Security Badges are lost or cannot be accounted for. The Contractor shall notify the Contracting Officer immediately whenever any contractor employee no longer has a need for his/her VA-issued Security Badge (e.g., employee terminates employment with the contractor, employee's duties no longer require access to VA facilities).

- vi. *Security Badge Return.* Upon expiration of this contract or when Contractor employee no longer requires a Security Badge, the Contractor will collect the VA-issued Security Badge(s) and return them to the COR. The Contractor shall not return Security Badges to any person other than the COR.
 - vii. *Control of access.* The VA shall have and exercise full and complete control over granting, denying, withholding, and terminating access of Contractor employees to VA facilities and systems. The Contracting Officer will notify the contractor immediately when VA has determined that an employee is unsuitable or unfit to be permitted access to a VA facility or system. The contractor shall immediately notify such an employee that he/she no longer has access to any VA facility or system, shall retrieve the employee's Security Badge from the employee, and shall provide a suitable replacement employee in accordance with the requirements of this clause. The Government may not be able to give the Contractor the reason for requiring the removal of the unsuitable contractor employee. The Government shall not be responsible for any costs incurred by the contractor as a result of removing such employee from the subject contract.
 - viii. *Termination.* Failure on the part of the Contractor to comply with the terms of this clause may result in termination of this contract for default.
- 5) No photography of VA premises is allowed without written permission of the Contracting Officer. Infra-Red photograph of electrical distribution system components are excluded from the official policy as they are required inspection tasks; infra-red and quality assurance photography is hereby approved.
- 6) Document Control.

- i. Before starting any work, the Contractor shall submit an electronic security memorandum describing the approach to maintaining confidentiality of “sensitive information.”
- ii. The Contractor is responsible for safekeeping of all drawings, project manual and other project information. This information shall be shared only with those with a specific need to accomplish the project.
- iii. All paper waste or electronic media such as CD’s and diskettes shall be shredded and destroyed in a manner acceptable to the VA
- iv. Notify Contracting Officer and Site Security Officer immediately when there is a loss or compromise of “sensitive information”.

C. Operations

- 1) The Contractor shall confine all operations (including storage of materials) on Government premises to areas authorized or approved by the Contracting Officer. The Contractor shall hold and save the Government, its officers and agents, free and harmless from liability of any nature occasioned by the Contractor's performance.
- 2) Workmen are subject to rules of Medical Center applicable to their conduct.
- 3) Execute work in such a manner as to interfere as little as possible with work being done by others. Keep roads clear of construction materials, debris, standing construction equipment and vehicles at all times.
- 4) Contractor shall furnish the COR with a proposed schedule of approximate dates on which the Contractor intends to accomplish work in each specific area of site.
- 5) The Contractor is responsible for cleaning up each work site prior to departing. Cleaning shall include the removal of all equipment, tools, materials and debris and leaving the areas in a clean, neat condition.

D. Protection of Existing Vegetation, Structures, Equipment, Utilities and Improvements

- 1) The Contractor shall protect from damage all existing improvements and utilities at or near the work site and on adjacent property of a third party, the locations of which are made known to or should be known by the Contractor. The Contractor shall repair any damage to those facilities, including those that are the property of a third party, resulting from failure to comply with the requirements of this contract or failure to exercise reasonable care in performing the work.
- 2) Any unreasonable damages caused by the Contractor, Contractor employees and subcontractors shall be remedied prior to final invoice submission. If the Contractor fails or refuses to repair the damage promptly, the Contracting Officer may have the necessary work performed and charge the cost to the Contractor.

E. Temporary Use of Mechanical and Electrical Equipment

- 1) Use of electrical equipment to provide light and power will be permitted subject to compliance with the following provisions:
 - i. Permission to use each unit or system must be given by Project Engineer. If the equipment is not installed and maintained in accordance with the following provisions, the Project Engineer will withdraw permission for use of the equipment.
 - ii. Voltage supplied to each item of equipment shall be verified to be correct. The electrical equipment shall be thoroughly cleaned before using it and again immediately before final inspection including vacuum cleaning and wiping clean interior and exterior surfaces.
- 2) Prior to final inspection, the equipment or parts used which show wear and tear beyond normal, shall be replaced with identical replacements, at no additional cost to the Government.

F. Temporary Use of Existing Elevators

- 1) Use of existing elevators for handling building materials and Contractor's personnel will be permitted subject to following provisions:
 - i. Contractor covers and provides maximum protection of following elevator components: a) Entrance jambs, heads soffits and threshold plates; b) Entrance columns, canopy, return panels and inside surfaces of car enclosure walls; and c) Finish flooring.
 - ii. Place elevator in condition equal, less normal wear, to that existing at time it was placed in service of Contractor as approved by COR.
- G. Temporary Toilets. Contractor may have for use of Contractor's workmen; such toilet accommodations as may be assigned to Contractor by the Medical Center. Contractor shall keep such places clean and be responsible for any damage done thereto by Contractor's workmen. Failure to maintain satisfactory condition in toilets will deprive Contractor of the privilege to use such toilets.
- H. Availability and Use of Utility Services
- 1) The Government shall make all reasonably required amounts of utilities available to the Contractor from existing outlets and supplies, as specified in the contract. The Contractor shall carefully conserve any utilities furnished without charge.
 - 2) The Contractor, at Contractor's expense and in a workmanlike manner satisfactory to the Contracting Officer, shall install and maintain all necessary temporary connections and distribution lines.
 - 3) Obtain electricity by connecting to the Medical Center electrical distribution system. The Government will de-energize and energize circuits to allow connectivity.
 - 4) While the Contractor's testing equipment is connected to the Medical Center's electrical distribution system, no outside testing of non-VA equipment is permitted.

10. Safety and Infection Control Requirements

- A. Site Safety and Health Officer and Competent Person

- 1) The Prime Contractor shall designate a minimum of one SSHO at each project site that will be identified as the SSHO to administer the Contractor's safety program.
- 2) Further, all specialized Competent Persons for the work crews will be supplied by the respective contractor as required by 29 CFR 1926 (i.e. Asbestos, Electrical, Cranes, & Derricks, Demolition, Fall Protection, Fire Safety/Life Safety, Ladder, Rigging, Scaffolds, and Trenches/Excavations).
- 3) Other than being the On-Site Supervising Field Service Engineer, the Competent Person can have collateral duties as the subcontractor's work crew lead person as well as fill more than one specialized CP role (i.e. Asbestos, Electrical, Cranes, & Derricks, Demolition, Fall Protection, Fire Safety/Life Safety, Ladder, Rigging, Scaffolds, and Trenches/Excavations).
- 4) The Competent Person will maintain presence during all Contractor activities.
- 5) The repeated presence of uncontrolled hazards during a contractor's work operations will result in the designated Competent Person as being deemed incompetent and result in the required removal of the employee in accordance with FAR Clause 52.236-5: Material and Workmanship, Paragraph (c).
- 6) The Competent Person shall notify the COR as soon as practical, but no more than four hours after any accident meeting the definition of OSHA Recordable Injuries or Illnesses or High Visibility Accidents, property damage equal to or greater than \$5,000, or any weight handling equipment accident. Within notification include contractor name; contract title; type of contract; name of activity, installation or location where accident occurred; date and time of accident; names of personnel injured; extent of property damage, if any; extent of injury, if known, and brief description of accident (to include type of construction equipment used, PPE used, etc.).
- 7) The contractor shall seek the COR and VAMC Safety Office's documented approval and entry form and adhere to site specific safety guidelines for Confined Space.

B. Personal Protective Equipment

- 1) PPE is governed in all areas by the nature of the work the employee is performing. Specific PPE required for performing work on electrical equipment is identified in NFPA 70E, Standard for Electrical Safety in the Workplace.
- 2) Safety Glasses. Wear of appropriate safety glasses meeting the ANSI Z.87.1 standard shall be determined by the Contractor Competent Person.
- 3) Hard Hats. Wear of appropriate hard hats shall be determined by the Contractor Competent Person.
- 4) Safety Shoes. Wear of appropriate safety shoes shall be determined by the Contractor Competent Person.
- 5) Hearing protection - Use personal hearing protection at all times in designated noise hazardous areas or when performing noise hazardous tasks.

C. Electrical Safety

- 1) All electrical work shall comply with NFPA 70 (NEC), NFPA 70B, NFPA 70E, 29 CFR Part 1910 Subpart J – General Environmental Controls, 29 CFR Part 1910 Subpart S – Electrical, and 29 CFR 1926 Subpart K in addition to other references required by contract.
- 2) All qualified persons performing electrical work under this contract shall be licensed journeyman or master electricians. All apprentice electricians performing under this contract shall be deemed unqualified persons unless they are working under the immediate supervision of a licensed electrician or master electrician.
- 3) All electrical work will be accomplished de-energized and in the Electrically Safe Work Condition (refer to NFPA 70E for Work Involving Electrical Hazards, including Exemptions to Work Permit). Any Contractor, subcontractor or temporary worker who fails to fully comply with this requirement is subject to immediate termination in accordance with FAR clause 52.236-5(c).
- 4) Ground-fault circuit interrupters. All 120-volt, single-phase 15- and 20-ampere receptacle outlets on construction sites shall have approved

ground-fault circuit interrupters for personnel protection. “Assured Equipment Grounding Conductor Program” only is not allowed.

- 5) All installation, maintenance, and servicing of equipment or machinery shall comply with 29 CFR 1910.147 except for specifically referenced operations in 29 CFR 1926 such as concrete & masonry equipment [1926.702(j)], heavy machinery & equipment [1926.600(a)(3)(i)], and process safety management of highly hazardous chemicals (1926.64). Control of hazardous electrical energy during the installation, maintenance, or servicing of electrical equipment shall comply with Section 1.15 to include NFPA 70E.

D. Fire Safety

- 1) Site and Building Access: Maintain free and unobstructed access to facility emergency services and for fire, police and other emergency response forces in accordance with NFPA 241.
- 2) Temporary Heating and Electrical: Install, use and maintain installations in accordance with 29 CFR 1926, NFPA 241 and NFPA 70
- 3) Means of Egress: Do not block exiting for occupied buildings, including paths from exits to roads
- 4) Egress Routes for Construction Workers: Maintain free and unobstructed egress. Inspect daily.
- 5) Fire Extinguishers: Provide and maintain extinguishers in construction areas and temporary storage areas in accordance with 29 CFR 1926, NFPA 241 and NFPA 10.
- 6) Flammable and Combustible Liquids: Store, dispense and use liquids in accordance with 29 CFR 1926, NFPA 241 and NFPA 30.
- 7) Existing Fire Protection: Do not impair automatic sprinklers, smoke and heat detection, and fire alarm systems.
- 8) Hot Work: Perform and safeguard hot work operations in accordance with NFPA 241 and NFPA 51B.
- 9) Smoking: Smoking is prohibited in and adjacent to construction areas inside existing buildings and additions under construction. In separate and detached buildings under construction, smoking is prohibited except in designated smoking rest areas.

- 10) Dispose of waste and debris in accordance with NFPA 241, remove daily.

E. Tuberculosis Screening. Contractor shall provide written certification that all Contractor employees assigned to the work site have had a pre-placement tuberculin screening within 90 days prior to assignment to the worksite and have been found to have negative TB screening reactions.

F. Infection Control

- 1) Infection Control is critical in all medical center facilities. Interior construction activities causing disturbance of existing dust, or creating new dust, must be conducted within ventilation-controlled areas that minimize the flow of airborne particles into patient areas.
- 2) An Infection Control Risk Assessment was completed for this electrical maintenance, inspection and testing work. The assessment resulted in the following infection control measures:
 - i. Each Contract Employee shall view the DVD on infection control titled, "Building on a Plan, Infection Prevention for Construction Personnel." The Competent Person shall provide written documentation to the COR that this has occurred; name and date of training is minimal notification requirement.
 - ii. The Government conducted ICRA shall be located/posted at each site where electrical testing, inspection and maintenance is being conducted.
 - iii. Execute all work to minimize dust generation. Grinding sanding or other abrasive operation must be done with the HEPA vacuum attachment to avoid dust generation.
 - iv. Compressed air is not permitted to be used to clean electrical components in patient care areas; a HEPA vacuum is required to clean up any debris generated.
 - v. Only two ceiling tiles may be removed at any one time.

- vi. Testing, maintenance, and inspection sites will be cleaned daily with a government approved cleaner/disinfectant. Wet mopping area upon completion of work is required; brooms are not permitted on the job site.
- vii. Contractor employees are not permitted in patient care areas unless they are free of dust and wear dust protection on their feet (booties).
- viii. Any debris generated in patient care areas shall be removed in a sealed container. The sealed container shall be wiped clean using a Government approved cleaner/disinfectant.

END

Attachment A

The following excerpt is from the NETA/ MTS 2019 ed. and is intended as a reference only to assist in bidding the project. It does not cover all aspects of the contract work required. The contractor is responsible for becoming familiar with this manual and complying with all requirements for the equipment listed on Table 1.

7. INSPECTION AND TEST PROCEDURES

7.1 Switchgear, Switchboard, and Panelboard Assemblies

Page 24

ANSI/NETA MTS-2019

A. Visual and Mechanical Inspection

1. Inspect physical, electrical, and mechanical condition.
2. Inspect anchorage, alignment, grounding, and required area clearances.
3. Prior to cleaning the unit, perform as-found tests, if required.
4. Clean the unit.
5. Verify that fuse and/or circuit breaker sizes and types correspond to drawings and coordination study as well as to the circuit breaker address for microprocessor communication packages.
6. Verify that current and voltage transformer ratios correspond to drawings.
7. Verify that wiring connections are tight and that wiring is secure to prevent damage during routine operation of moving parts.
8. Inspect bolted electrical connections for high resistance using one or more of the following methods:
 1. Use of a low-resistance ohmmeter in accordance with Section 7.1.B.1.
 2. Verify tightness of accessible bolted electrical connections by calibrated torque wrench method in accordance with manufacturer's published data or Table 100.12.
 3. Perform a thermographic survey in accordance with Section 9.
9. Confirm correct operation and sequencing of electrical and mechanical interlock systems.
 1. Attempt closure on locked-open devices. Attempt to open locked-closed devices.
 2. Make key exchange with all devices included in the interlock scheme as applicable.

10. Use appropriate lubrication on moving current-carrying parts and on moving and sliding surfaces.
11. Inspect insulators for evidence of physical damage or contaminated surfaces.
12. Verify correct barrier and shutter installation and operation.
13. Exercise all active components.
14. Inspect mechanical indicating devices for correct operation.
15. Verify that filters are in place and/or vents are clear.

7. INSPECTION AND TEST PROCEDURES

7.1 Switchgear, Switchboard, and Panelboard Assemblies (*continued*)

Page 25

ANSI/NETA MTS-2019

16. Perform visual and mechanical inspection of instrument transformers in accordance with Section 7.10.

17. Perform visual and mechanical inspection of surge arresters in accordance with Section 7.19.

18. Inspect control power transformers.

1. Inspect for physical damage, cracked insulation, broken leads, tightness of connections, defective wiring, and overall general condition.
2. Verify that primary and secondary fuse ratings or circuit breakers match drawings.
3. Verify correct functioning of drawout disconnecting and grounding contacts and interlocks.

19. Perform as-left tests.

B. Electrical Tests

1. Perform resistance measurements through bolted electrical connections with a low resistance ohmmeter in accordance with Section 7.1.A.7.1.

2. Perform insulation-resistance tests for one minute on each bus section, phase-to-phase and phase-to-ground. Apply voltage in accordance with manufacturer's published data. In the absence of manufacturer's published data, use Table 100.1.

*3. Perform a dielectric withstand voltage test on each bus section, each phase-to-ground with phases not under test grounded, in accordance with manufacturer's published data. Within the absence of manufacturer's published data, use Table 100.2. The test voltage shall be applied for one minute. Refer to Section 7.1.3 before performing test.

*4. Perform insulation-resistance tests on control wiring with respect to ground. The applied potential shall be 500 volts dc for 300-volt rated cable and 1000 volts dc for 600-volt rated cable. Test duration shall be one minute. For units with solid-state components or control devices that cannot tolerate the applied voltage, follow manufacturer's recommendation.

5. Perform electrical tests on instrument transformers in accordance with Section 7.10.

6. Perform ground-resistance tests in accordance with Section 7.13.

7. Test metering devices in accordance with Section 7.11.

7. INSPECTION AND TEST PROCEDURES

7.1 Switchgear, Switchboard, and Panelboard Assemblies (*continued*)

Page 26

ANSI/NETA MTS-2019

8. Control Power Transformers.

1. Perform insulation-resistance tests. Perform measurements from winding-to-winding and each winding-to-ground. Test voltages shall be in accordance with manufacturer's published data. In the absence of manufacturer's published data, use Table 100.1.
2. Verify correct function of control transfer relays located in switchgear with multiple power sources.
9. Verify operation of switchgear/switchboard heaters and their controller.
10. Perform electrical tests of surge arresters in accordance with Section 7.19.
- *11. Perform online partial-discharge survey in accordance with Section 11.
12. Perform system function tests in accordance with Section 8.

C. Test Values – Visual and Mechanical

1. Compare bolted connection resistance values to values of similar connections. Investigate values which deviate from those of similar bolted connections by more than 50 percent of the lowest value. (7.1.A.8.1)
2. Bolt-torque levels should be in accordance with manufacturer's published data. In the absence of manufacturer's published data, use Table 100.12. (7.1.A.8.2)
3. Results of the thermographic survey shall be in accordance with Section 9. (7.1.A.3)

D. Test Values – Electrical

1. Compare bolted connection resistance values to values of similar connections. Investigate values which deviate from those of similar bolted connections by more than 50 percent of the lowest value.
2. Insulation-resistance values of bus insulation should be in accordance with manufacturer's published data. In the absence of manufacturer's published data, use Table 100.1. Values of insulation resistance less than this table or manufacturer's recommendations should be investigated. Dielectric withstand voltage tests should not proceed until insulation-resistance levels are raised above minimum values.

3. If no evidence of distress or insulation failure is observed by the end of the total time of voltage application during the test, the test dielectric withstand voltage specimen is considered to have passed the test.

7. INSPECTION AND TEST PROCEDURES

7.1 Switchgear, Switchboard, and Panelboard Assemblies (*continued*)

Page 27

ANSI/NETA MTS-2019

4. Minimum insulation-resistance values of control wiring should be comparable to previously obtained results but not less than two megohms.
5. Results of electrical tests on instrument transformers should be in accordance with Section 7.10.
6. Results of ground resistance tests should be in accordance with Section 7.13.
7. Accuracy of metering devices should be in accordance with Section 7.11.
8. Control Power Transformers
 1. Insulation-resistance values of control power transformers should be in accordance with manufacturer's published data. In the absence of manufacturer's published data, use Table 100.5. Values of insulation resistance less than this table or manufacturer's recommendations should be investigated.
 2. Control transfer relays should perform as designed.
 9. Heaters should be operational.
 10. Results of electrical tests on surge arresters shall be in accordance with Section 7.19.
 11. Results of online partial-discharge survey should be in accordance with manufacturer's published data. In the absence of manufacturer's published data, refer to Table 100.23.
 12. Results of system function tests shall be in accordance with Section 8.

INSTRUCTIONS, CONDITIONS AND OTHER STATEMENTS TO BIDDERS/OFFERORS

PROPOSAL INSTRUCTIONS TO OFFERORS

FOR LOWEST PRICE TECHNICALLY ACCEPTABLE COMPETITION

SOLICITATION: 36C25526R0186

PROJECT: Triennial Electrical, 657A5-26-111

LOCATION: Department of Veteran Affairs, Marion VAMC, Illinois

1. PREPARATION AND SUBMITTAL OF PROPOSALS

a. GENERAL INFORMATION.

Selection of an offeror for contract award will be made based on an assessment of each offeror's response to the Request for Proposal (RFP). As a Request for Proposals (RFP) based on Lowest Price Technically Acceptable (LPTA) Source Selection Process, in accordance with Federal Acquisition Regulation (RFO) Part 15.103-2, the VA will make the award based on the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors. The Five (5) evaluation factors for determination of technical acceptability consist of:

1. Relevant Past Performance of Prime Contractor.
2. Technical Construction and Electrical Testing Experience of Prime Contractor.
3. Technical Construction Experience of the Electrical Subcontractor
4. Technical Qualifications of Proposed Staffing.
5. Prime Contractor Safety Plan.

NOTE: Failure to comply with the RFP requirements will be grounds to eliminate the proposal from further consideration for contract award.

b. THE OFFER.

The submission of the documentation specified below will constitute the Offeror's acceptance of the terms and conditions of the RFP, including the Plans & Specifications for the construction of this project. These instructions prescribe the format for the proposal and describe the approach for the development and presentation of proposal data. These instructions are designed to ensure the submission of necessary information to provide for the understanding and comprehensive evaluation of proposals.

Note: Proposals submitted by teaming arrangements other than VA SDVOSB Joint Ventures will not be considered. If Submitting as a Joint Venture, you are required to submit a copy of the Joint Venture agreement with proposal.

c. AWARD BASED ON INITIAL OFFERS.

Pursuant to clause 52.215-1 (included by reference), the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in RFO 15.202 (a)(2)). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price, and technical qualifications standpoint. The VA reserves the right to conduct discussions if the Contracting Officer later determines such discussions to be necessary.

d. NUMBER OF COPIES TO SUBMIT. Offerors shall e-mail three files to maria.hoover@va.gov and kevin.mahoney3@va.gov and the package shall include:

Volume 1 Technical Proposal and 852.219-75 VA Notice of Limitations on Subcontracting .

Volume 2 Price Proposal-1442, Amendments and Appendix 1

Volume 3 - Bid Bond

Marked: ORIGINAL - RESPONSE TO RFP – **36C25526R0186**

2. DOCUMENTS TO SUBMIT.

The proposal documents to be included in the e-mail identified above consist of:

a. STANDARD FORM 1442. Submit the SF 1442 issued under this solicitation, with Blocks 10 (Unique Entity Identification Number) and Blocks 14 through 20 properly filled-out by the Offeror. Include acknowledgment of any and all Amendments that may have been issued, either by: (1) listing them in Block 19 of the SF 1442, or (2) including copies of the Amendment document(s) (Standard Form 30) with Blocks 8 and 15 filled in and signed, or (3) including signed acknowledgement in the form of a separate letter that includes a reference to the solicitation and amendment numbers. NOTE: Failure to acknowledge any and all Amendments issued pursuant to this solicitation may be cause for rejection of your offer.

b. OFFER GUARANTEE (BID BOND). In accordance with solicitation provision 52.228-1, Bid Guarantee, failure to furnish a bid guarantee, in the proper form and amount, by the deadline established for submitting offers, will be cause for rejection of the offer.

c. DOCUMENTATION OF TECHNICAL ACCEPTABILITY. Proposals received in response to this solicitation will be evaluated in accordance with procedures outlined in Federal Acquisition Regulations (RFO) Part 15.103-2 for the Lowest Price Technically Acceptable (LPTA) Offer.

The following significant Evaluation Factors will be used as the basis for determining Technical Acceptability:

1. Relevant Past Performance of Prime Contractor.
2. Technical Construction and Electrical Testing Experience of Prime Contractor.
3. Technical Experience of the Electrical Subcontractor.
4. Technical Qualifications of Proposed Key Personnel.
5. Prime Contractor Safety Plan.

NOTE: There is a realistic possibility that some offerors may choose to submit the same construction project as a qualifying example for both the past performance and the technical experience evaluation factors. This is not prohibited, but the supporting documentation must demonstrate that the submitted projects absolutely do comply with the specific minimal requirements, identified below, for each separate evaluation factor.

FACTOR 1: RELEVANT PAST PERFORMANCE OF THE PRIME CONTRACTOR

To be Technically Acceptable, Offerors should identify no less than TWO (2), and no more than THREE (3), previously awarded, and completed construction contracts, which were issued by either: Federal, State, or Local Government Agencies; and/or Private Organizations. To be evaluated as Relevant Past Performance, the construction contracts submitted by offerors must involve:

(a) Construction work and electrical testing , at a hospital or medical facility, as a prime contractor that is similar in scope to the work required under this contract; (NAICS Code: 238210– Electrical Contractors and Other Wiring Installation Contractors) that was equal to, or greater than \$500,000.00;

(b) Work that was 100% completed within a time period of no more than FIVE (5) years prior to the date of submitting this proposal. If the contract/work is incomplete or was completed more than five years prior to the date of submitting this proposal, it will not be deemed relevant and will not be considered.

(c) To be considered Technically Acceptable, relevant past performance must be satisfactory or better.

For each of the submitted Relevant Past Performance contracts, provide the following information.:

- (1) The name of the construction or electrical testing contract, and the contract ID number;
- (2) The name of the contracting agency or organization the contract was awarded by;
- (3) The date of the construction or electrical testing contract award and the contract award amount in dollars;
- (4) The date of the construction or electrical testing contract completion, and the final contract amount, in dollars;
- (5) A brief description of the construction or electrical testing contract scope of work;
- (6) Identification of at least one point-of-contact at the organization that awarded the submitted contract, including: the name of the point-of-contact; their current mailing address; phone number; and email address (if applicable).

Factor 1 SPECIAL NOTE for Offerors That May Lack Past Performance Information: *In accordance with RFO Part 15.202(c)(1) in the case of an offeror that is without a record of relevant past performance, or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance. Such offerors may submit relevant past performance information regarding predecessor companies; key personnel who have relevant experience; or subcontractors that will be performing major or critical aspects of this requirement, provided that such information is relevant to the construction in this*

solicitation. Offerors may provide information on problems encountered on the identified contracts and the offeror's corrective actions. The government also reserves the right to consider past performance information from all available sources, in addition to any information submitted by offerors.

FACTOR 2: TECHNICAL CONSTRUCTION AND ELECTRICAL TESTING EXPERIENCE OF PRIME CONTRACTOR.

To be Technically Acceptable, offerors must provide evidence that they have the technical qualifications and experience needed to meet the technical performance requirements of this project. Offerors must submit no less than TWO (2) and no more than three (3) examples of their technical construction experience with projects that involved technical requirements similar to the requirements of this project. The construction project submitted must involve:

- A. Work as a prime under the same NAICS code as this solicitation (238210– Electrical Contractors and Other Wiring Installation Contractors).
- B. Work of a dollar magnitude equal to, or greater than \$500,000.00. If offering subcontracted work as proof of technical electrical testing experience, offerors must submit evidence that supports the magnitude of the work they performed as a subcontractor.
- C. **In accordance with 852.219-73, For general construction contracts, the SDVOSB prime contractor will not pay more than 85% of the amount paid by the government to the prime for contract performance, excluding the cost of materials, to firms that are not VIP-listed SDVOSBs. The offeror is required to perform at least fifteen percent (15%) of the project labor on site using their own employees or employees of other eligible SDVOSB concerns.**
- D. Work that was of a similar nature to the scope of work for this project. This is defined as work performed in electrical testing.

For each of the submitted Technical Construction Experience projects, provide the following information:

- (1) The name and location of the construction or electrical testing project.

- (2) The performance period, including the starting and completion dates.
- (3) The total cost of the project in dollars.
- (4) The percentage of total labor self-performed by the offeror's employees.
- (5) A brief description of the construction or electrical testing project scope of work, which explains how the project involved work as a prime contractor under NAICS Code 238210 involving construction work that was technically similar to the project work under this Solicitation.

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects shall be submitted for each Joint Venture partner. Offerors who fail to submit experience for all Joint Venture partners will receive no further consideration.

FACTOR 3: TECHNICAL EXPERIENCE OF THE ELECTRICAL SUBCONTRACTOR.

To be Technically Acceptable, offerors must provide evidence that their electrical subcontractor has the technical qualifications and experience needed to meet the technical performance requirements of this project. Offerors must submit no less than TWO (2) and no more than three (3) examples of their subcontractor's successful technical construction experience with projects that involved technical requirements similar to the requirements of this project that were previously awarded and completed. Subcontractor must have technical qualifications of at least five years of successful experience. The construction project submitted must involve:

1. Contractors shall be experienced Electrical Contractors that regularly engages in the construction, repair, testing and maintenance of industrial and commercial electrical distribution systems and electrical equipment devices. Contractors shall have permanent staff that shall be properly trained, certified and licensed to perform the proposed work.
2. Contractors shall be certified by the International Electrical Testing Association (NETA) or equivalent certifying organization as Certified Technicians with each having completed the Occupational Safety & Health Administration (OSHA) approved 10-hour construction safety training. NETA certification level shall be at the appropriate level for accomplishing the varies maintenance, inspection and testing requirements identified in this SOW.
3. Contractors shall have technical training and demonstrable track records of working experience in maintenance, inspection, and testing of the Electrical Power Distribution Systems and related components in healthcare, industrial, educational, and commercial facilities for a minimum of five (5) continuous years. Electrical components on which the Contractors have experience shall include, but not be limited to, switchboards & switchgear

(low and medium voltage); low voltage controls; emergency and standby generators; automatic transfer switches, wiring, transformers, meters, and other electrical appurtenances.

Factor 3 Special Note: *When an offeror submits its proposal in response to this Request for Proposals, and the name and experience of a specific subcontractor is a required evaluation factor, then that subcontractor who is offered will be the same subcontractor who will actually perform the specified work on the project. If, during performance of the contract, it becomes necessary for the contractor to substitute a subcontractor for one of those whose qualifications were the basis for evaluation of the offer and award of the contract, the contractor shall submit to the Contracting Officer the same information that was required in the initial proposal regarding the proposed substitute subcontractor. The Contracting Officer shall have the right to review the qualifications of the proposed substitute subcontractor and to approve or disapprove its qualifications. If the proposed substitute subcontractor's qualifications are disapproved by the Contracting Officer, the contractor will propose another subcontractor who does possess equivalent qualifications.*

FACTOR 4: TECHNICAL QUALIFICATIONS OF PROPOSED STAFFING .

To be technically acceptable under this factor, qualified offerors must submit a detailed resume of each key individual. This will be evaluated to determine if they have the appropriate technical training and or previous construction experience to meet the technical requirements of a project of this nature. No one individual can perform more than two of the staffing positions below. Project Manager and Superintendent cannot be the same person:

(a.) Supervising Field Service Engineer – Must be accredited as a Certified Electrical Testing Technologist by the National Institute for Certification of Engineering Technologists (NICET) or NETA and have a minimum of 5 years' experience on similar testing projects of the scope identified in this SOW. Contractor to submit name of Supervising Field Engineer along with 3 examples of work completed within the last 5 years. Supervising Field Service Engineer that has a BS or higher degree in electrical engineering need not be accredited, or certified, provided that they can demonstrate the required specialized knowledge and at least 5 years of experience in testing, inspection and maintenance of electrical power distribution systems and components.

(b). Field Technicians – Must be certified by NICET, NETA, or have equivalent qualification certification.

(c.) Contractors shall have safety training – either on-the-job or class-room type - in electrical safety outlined in the OSHA Standard 29 Code of Federal Regulations (CFR) 1910 Subpart S – Electrical, and the NFPA 70E – Standard for Electrical Safety in the Workplace. Training certification shall be provided indicating each technician is a Qualified Person as defined by NFPA 70E. Training certifications shall be submitted to the VA Contracting Officer prior to award of the service contract.

Special Note: *When an offeror submits its proposal in response to this Request for Proposals, and the name and experience of a specific subcontractor is a required evaluation factor, then that subcontractor who is offered will be the same subcontractor who will actually perform the specified work on the project. If, during performance of the contract, it becomes necessary for the contractor to substitute a subcontractor for one of those whose qualifications were the basis for evaluation of the offer and award of the contract, the contractor shall submit to the Contracting Officer the same information that was required in the initial proposal regarding the proposed substitute subcontractor. The Contracting Officer shall have the right to review the qualifications of the proposed substitute subcontractor and to approve or disapprove its qualifications. If the proposed substitute subcontractor's qualifications are disapproved by the Contracting Officer, the contractor will propose another subcontractor who does possess equivalent qualifications.*

FACTOR 5: PRIME CONTRACTOR'S SAFETY PLAN

To be Technically Acceptable under this factor, Offerors must provide a construction safety plan:

A. The contractor's Safety Plan shall be evaluated for their compliance with local/State/Federal rules and regulations and the company's consideration of safety of its employees and the general public. The contractor's Safety Plan at the minimum shall address their safety policy, commitment to safety, detailed disciplinary action to be taken with respect to employees violating safety requirements, personnel safety responsibilities, personnel safety training, personal protective equipment, accident / incident reporting procedure and investigations, emergency procedures guidelines.

B. The contractor's Safety Plan shall address their plan for completing all contract work on and around an active hospital without impact patient care and completing all work in accordance with all construction documents and all local/State/Federal rules and regulations.

d. PRICE PROPOSAL.

Price is to be submitted on pages 5 and 6. Offerors must provide a price for each contract line item (bid item). In addition, offerors shall include a breakdown of material and labor costs, by specification division for each line item. Overhead, profit and bond costs shall be added after a subtotal of materials and labor costs has been calculated. Please use **Appendix 1**.

Note: It is intended that award will be made on contract line item 1.

3. BASIS OF AWARD.

VA will make the award based on the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors. Note that offers that are not technically acceptable cannot be selected, regardless of price.

4. SPECIAL CONTRACT REQUIREMENTS

SUBSTITUTIONS OF SUBCONTRACTORS AND / OR KEY PERSONNEL

1. When an offeror submits its proposal in response to this Request for Proposals, and key personnel who are proposed to work on the project are required to be submitted, those personnel who are offered will be the same personnel who will actually perform on the project. If, during performance of the contract, it becomes necessary for the contractor to substitute personnel for one of those whose qualifications were the basis for evaluation of the offer and award of the contract, the contractor shall submit to the Contracting Officer the same information that was required in the initial proposal regarding the proposed substitute employee. The Contracting Officer shall have the right to review the qualifications of the proposed substitute employee and to approve or disapprove his or her qualifications. If the proposed substitute employee's qualifications are disapproved by the Contracting Officer, the contractor will propose another employee who does possess equivalent qualifications.

2. When an offeror submits its proposal in response to this Request for Proposals, and the name and experience of a specific subcontractor is a required evaluation factor, then that subcontractor who is offered will be the same subcontractor who will actually perform the specified work on the project. If, during performance of the contract, it becomes necessary for the contractor to substitute a subcontractor for one of those whose qualifications were the basis for evaluation of the offer and award of the contract, the contractor shall submit to the Contracting Officer the same information that was required in the initial proposal regarding the proposed substitute subcontractor. The Contracting Officer shall have the right to review the qualifications of the proposed substitute subcontractor and to approve or disapprove its qualifications. If the proposed substitute subcontractor's qualifications are disapproved by the Contracting Officer, the contractor will propose another subcontractor who does possess equivalent qualifications.

5. CONTRACTOR'S RESPONSIBILITY DETERMINATION

A Determination of Responsibility will be accomplished for the apparent awardee prior to processing the award in accordance with the RFO part 9.104-1, VAAM M809.104-1 and M809.105.

NOTE: Any information received by the Government that would cause for a negative *Determination of Responsibility* will make the bidder/offeror ineligible for award.

This requirement is applicable to all subcontracting tiers, and prospective prime contractors are responsible for determining the responsibility of their prospective subcontractors.

(END OF INSTRUCTIONS TO OFFERORS)

PRICE BREAKDOWN AND CALCULATION OF SELF-PERFORMED/SUBCONTRACTED WORK - Appendix 1

Offerors for General Construction (NAICS code 236220) must provide at least 15 percent (25% for NAICS codes 238210 & 238220) of the cost of the contract performance incurred for personnel will be spent on the concern's employees or the employees of other eligible service-disabled veteran owned-small business concerns. Provide a breakdown of material and

personnel costs, by specification division listed for the project. Home Office overhead, profit/fee and bond costs shall be added after a subtotal of personnel and material/Equipment costs has been calculated. Clearly identify the personnel costs you will be performing, and the personnel costs of other eligible service-disabled veteran owned-small business concerns. **Below is the required format.**

(THIS DOCUMENT MUST BE COMPLETED FOR EACH BID ITEM.)

Specification Division	SDVOSB Vendor (Y or N)	Personnel Cost	Material/Equipment Costs	TOTAL COSTS
Division 01		\$	\$	
Division 02		\$	\$	
Division 03		\$	\$	
Division 05		\$	\$	
Division 06		\$	\$	
Division 07		\$	\$	
Division 08		\$	\$	
Division 09		\$	\$	
Division 10		\$	\$	
Division 11		\$	\$	
Division 14		\$	\$	
Division 21		\$	\$	
Division 22		\$	\$	
Division 23		\$	\$	
Division 26		\$	\$	
Division 27		\$	\$	
Division 28		\$	\$	
		\$	\$	
	Sub Total (Personnel Costs,	\$	\$	

	Material/Equipment Costs)			
		Profit	\$	
		Home Office Overhead	\$	
		Bond	\$	
		Grand Total	\$	

Calculation of self-performed personnel costs:

1. Total personnel costs ** both prime and all subcontractors: \$ _____

2. Subtract all subcontractor personnel costs** that are not SDVOSB companies that will perform work on this contract: \$ _____

3. Remainder is 'Total amount of work to be self-performed under the Contract': \$ _____

4. Self-performed work = Line 3/Line 1 x 100 = _____ %

I certify the above representations are true and correct to the best of my knowledge.

Signature
(Typed Name of Authorized Representative)

Date

(Title of Authorized Representative)

2.1 52.216-1 TYPE OF CONTRACT (NOV 2025) (DEVIATION)

The Government contemplates award of a Firm-Fixed-Price contract resulting from this solicitation.

(End of Provision)

2.2 52.222-5 CONSTRUCTION WAGE RATE REQUIREMENTS— SECONDARY SITE OF THE WORK (NOV 2025) (DEVIATION)

(a)(1) The offeror must notify the Government if the offeror intends to perform work at any secondary site of the work, as defined in paragraph (a)(1)(ii) of the FAR clause at 52.222-6, Construction Wage Rate Requirements, of this solicitation.

(2) If the offeror is unsure if a planned work site satisfies the criteria for a secondary site of the work, the offeror must request a determination from the Contracting Officer.

(b)(1) If the wage determination provided by the Government for work at the primary site of the work is not applicable to the secondary site of the work, the offeror must request a wage determination from the Contracting Officer.

(2) The due date for receipt of offers will not be extended as a result of an offeror's request for a wage determination for a secondary site of the work.

(End of Provision)

2.3 52.225-10 NOTICE OF BUY AMERICAN REQUIREMENT— CONSTRUCTION MATERIALS (MAY 2014)

(a) *Definitions.* "Commercially available off-the-shelf (COTS) item," "construction material," "domestic construction material," and "foreign construction material," as used in this provision, are defined in the clause of this solicitation entitled "Buy American—Construction Materials" (Federal Acquisition Regulation (FAR) clause 52.225-9).

(b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR 52.225-9 in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.

(c) Evaluation of offers.

(1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR 52.225-9.

(2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

(d) Alternate offers.

(1) When an offer includes foreign solicitation in paragraph (b)(2) of the clause at FAR 52.225-9, the offeror also may submit an alternate offer based on use of equivalent domestic construction material.

(2) If an alternate offer is submitted, the offeror shall submit a separate Standard Form 1442 for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR 52.225-9 for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.

(3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR 52.225-9 does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested—

(i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or

(ii) May be accepted if revised during negotiations.

(End of Provision)

2.4 52.228-1 BID GUARANTEE (SEP 1996)

(a) Failure to furnish a bid guarantee in the proper form and amount, by the time set for opening of bids, may be cause for rejection of the bid.

(b) The bidder shall furnish a bid guarantee in the form of a firm commitment, e.g., bid bond supported by good and sufficient surety or sureties acceptable to the Government, postal money order, certified check, cashier's check, irrevocable letter of credit, or, under Treasury Department regulations, certain bonds or notes of the United States. The Contracting Officer will return bid guarantees, other than bid bonds—

(1) To unsuccessful bidders as soon as practicable after the opening of bids; and

(2) To the successful bidder upon execution of contractual documents and bonds (including any necessary coinsurance or reinsurance agreements), as required by the bid as accepted.

(c) The amount of the bid guarantee shall be 20 percent of the bid price or \$3 million, whichever is less.

(d) If the successful bidder, upon acceptance of its bid by the Government within the period specified for acceptance, fails to execute all contractual documents or furnish executed bond(s) within 10 days after receipt of the forms by the bidder, the Contracting Officer may terminate the contract for default.

(e) In the event the contract is terminated for default, the bidder is liable for any cost of acquiring the work that exceeds the amount of its bid, and the bid guarantee is available to offset the difference.

(End of Provision)

2.5 52.228-17 INDIVIDUAL SURETY—PLEDGE OF ASSETS (BID GUARANTEE) (FEB 2021)

(a) Offerors shall obtain from each person acting as an individual surety on a bid guarantee—

(1) A pledge of assets that meets the eligibility, valuation, and security requirements described in the Federal Acquisition Regulation (FAR) 28.203–1; and

(2) Standard Form 28, Affidavit of Individual Surety.

(b) The Offeror shall include with its offer the information required at paragraph (a) of this provision within the timeframe specified in the provision at FAR 52.228–1, Bid Guarantee, or as otherwise established by the Contracting Officer.

(c) The Contracting Officer may release the security interest on the individual surety's assets in support of a bid guarantee based upon evidence that the offer supported by the individual surety will not result in contract award.

(End of Provision)

2.6 52.233-2 SERVICE OF PROTEST (SEP 2006)

Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from:

Maria Hoover

Hand-Carried Address:

Department of Veterans Affairs

Network Contracting Office (NCO) 15
3450 S 4th Street Trafficway

Leavenworth KS 66048

Mailing Address:

Department of Veterans Affairs

Network Contracting Office (NCO) 15
3450 S 4th Street Trafficway

Leavenworth KS 66048

(b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

(End of Provision)

2.7 52.240-90 SECURITY PROHIBITIONS AND EXCLUSIONS REPRESENTATIONS AND CERTIFICATIONS (NOV 2025) (DEVIATION)

(a) *Definitions.* As used in this provision—

Backhaul, covered article, covered telecommunications equipment or services, critical technology, FASCSA order, Intelligence community, interconnection arrangements, national security system, roaming, sensitive compartmented information, sensitive compartmented information system, source, and substantial or essential component have the meanings provided in the clause 52.240-91, Security Prohibitions and Exclusions.

Business operations means engaging in commerce in any form, including by acquiring, developing, maintaining, owning, selling, possessing, leasing, or operating equipment, facilities, personnel, products, services, personal property, real property, or any other apparatus of business or commerce.

Marginalized populations of Sudan means—

(1) Adversely affected groups in regions authorized to receive assistance under section 8(c) of the Darfur Peace and Accountability Act (Pub. L. 109-344) (50 U.S.C. 1701 note); and

(2) Marginalized areas in Northern Sudan described in section 4(9) of such Act.

Restricted business operations means business operations in Sudan that include power production activities, mineral extraction activities, oil-related activities, or the production of military equipment, as those terms are defined in the Sudan Accountability and Divestment Act of 2007 (Pub. L. 110-174). Restricted business operations do not include business operations that the person (as that term is defined in Section 2 of the Sudan Accountability and Divestment Act of 2007) conducting the business can demonstrate—

(1) Are conducted under contract directly and exclusively with the regional government of southern Sudan;

(2) Are conducted under specific authorization from the Office of Foreign Assets Control in the Department of the Treasury, or are expressly exempted under Federal law from the requirement to be conducted under such authorization;

(3) Consist of providing goods or services to marginalized populations of Sudan;

(4) Consist of providing goods or services to an internationally recognized peacekeeping force or humanitarian organization;

(5) Consist of providing goods or services that are used only to promote health or education;
or

(6) Have been voluntarily suspended.

Sensitive technology—

(1) Means hardware, software, telecommunications equipment, or any other technology that is to be used specifically—

(i) To restrict the free flow of unbiased information in Iran; or

(ii) To disrupt, monitor, or otherwise restrict speech of the people of Iran; and

(2) Does not include information or informational materials the export of which the President does not have the authority to regulate or prohibit pursuant to section 203(b)(3) of the International Emergency Economic Powers Act (50 U.S.C. 1702(b)(3)).

(b) Procedures.

(1) *Covered telecommunications and video surveillance.* The Offeror shall review the list of excluded parties in the System for Award Management (SAM) at <https://www.sam.gov> for entities excluded from receiving federal awards for “covered telecommunications equipment or services.”

(2) FASCSA Orders.

(i) The Offeror shall search in SAM for the phrase “FASCSA order” for any covered article, or any products or services produced or provided by a source, if there is an applicable FASCSA order described in paragraph (e) of FAR 52.240-91, Security Prohibitions and Exclusions.

(ii) The Offeror shall review the solicitation for any FASCSA orders that are not in SAM but are effective and apply to the solicitation and resultant contract (see FAR 40.204-1(c)(2)).

(iii) FASCSA orders issued after the date of solicitation do not apply unless added by an amendment to the solicitation.

(c) Covered telecommunications equipment or services representations. By submission of its offer, the Offeror represents that, after conducting a reasonable inquiry (that looks at any information in the Offeror’s possession but does not need to include an internal or third-party audit)—

(1) It will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation, except as waived by the solicitation, or as disclosed in paragraph (g); and

(2) It does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services, except as waived by the solicitation, or as disclosed in paragraph (g).

(d) FASCSA Representation. By submission of this offer, the offeror represents that it has conducted a reasonable inquiry, and that the offeror does not propose to provide or use in response to this solicitation any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by an applicable FASCSA order in effect on the date the solicitation was issued, except as waived by the solicitation, or as disclosed in paragraph (g). A reasonable inquiry will look at any information in the offeror’s possession but does not need to include an internal or third-party audit.

(e) Sudan certification. By submission of its offer, the offeror certifies, after conducting a reasonable inquiry (that looks at any information in the offeror’s possession but does not need

to include an internal or third-party audit), that the offeror does not conduct any restricted business operations in Sudan.

(f) Iran Representation and Certifications.

(1) Except as provided in paragraph (f)(2) of this provision or if a waiver has been granted in accordance with FAR 40.203-3, the offeror, after conducting a reasonable inquiry (that looks at any information in the offeror's possession but does not need to include an internal or third-party audit), by submission of its offer—

(i) Represents, to the best of its knowledge and belief, that the offeror does not export any sensitive technology to the government of Iran or any entities or individuals owned or controlled by, or acting on behalf or at the direction of, the government of Iran;

(ii) Certifies that the offeror, or any person (as defined at section 15 of the Iran Sanctions Act of 1996, Pub. L. 104-172, 50 U.S.C. 1701 note) owned or controlled by the offeror, does not engage in any activities for which sanctions may be imposed under section 5 of the Act. These sanctioned activities are in the areas of development of the petroleum resources of Iran, production of refined petroleum products in Iran, sale and provision of refined petroleum products to Iran, and contributing to Iran's ability to acquire or develop certain weapons or technologies; and

(iii) Certifies that the offeror, and any person owned or controlled by the offeror, does not knowingly engage in any transaction that exceeds \$15,000 with Iran's Revolutionary Guard Corps or any of its officials, agents, or affiliates, the property and interests in property of which are blocked pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.) (see OFAC's Specially Designated Nationals and Blocked Persons List at <https://www.treasury.gov/resource-center/sanctions/SDN-List/Pages/default.aspx>)

(2) Exception for trade agreements. The representation and certification requirements of paragraph (f)(1) of this provision do not apply if—

(i) This solicitation includes a trade agreements notice or certification (e.g., 52.225-6, Trade Agreements Certificate); and

(ii) The offeror has certified that all the offered products to be supplied are designated country end products or designated country construction material.

(iii) The offeror shall email questions concerning sensitive technology to the Department of State at CISADA106@state.gov.

(g) Disclosure.

(1) If the Offeror is not able to represent compliance with the prohibitions in paragraphs (c) or (d), then the Offeror shall disclose within 72 hours to the contracting office identified in paragraph (g)(2) the following information for each product or service not compliant:

(i) Contract number and order number, if applicable;

(ii) Identification of whether this disclosure relates to paragraph (c) on covered telecommunication equipment or services, or to paragraph (d) on FASCSA orders;

(iii) A description of the products or services that the Contractor identifies or has reason to suspect is prohibited (include brand; model number, such as the original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable);

(iv) The entity that produced the product or service (include entity name, unique entity identifier, Contractor and Government Entity (CAGE) code, facilities responsible for design, fabrication, assembly, packaging, and test of the product, and whether the entity was the OEM or a distributor (provide manufacturer codes and distributor codes used for the product));

(v) Description of the functionality of the product or service and how that functionality impacts the risk to the product or service;

(vi) An explanation of any factors relevant to determining if the product or service should be permitted by an applicable exception, exemption, or waiver (if the offeror would like the Government to consider a waiver);

(vii) Whether alternative products or services are available that would be compliant with the prohibition;

(viii) If the product or service is related to item maintenance, include the following information on the item being maintained:

(A) Brand;

(B) Model number, OEM number, manufacturer part number, or wholesaler number; and

(C) Item description, as applicable.

(ix) Any readily available information about mitigation actions undertaken or recommended.

(2) If a disclosure is required to be submitted to a contracting office, the offeror shall submit the disclosure as follows:

(i) If a Department of Defense contracting office, the offeror shall submit the disclosure to the website at <https://dibnet.dod.mil>.

(ii) For all other contracting offices, the Offeror shall submit the disclosure to the Contracting Officer.

(3) If the disclosure provided does not contain any of the information required by paragraph (1), and the Offeror later discovers new information that is required by paragraph (1), then the Offeror shall submit a subsequent disclosure within 72 hours of discovering the new information.

(h) *Executive agency review of disclosures.* The Contracting Officer will review disclosures provided in paragraph (g) to determine if any applicable waiver may be sought. The Contracting Officer may choose not to pursue a waiver and may instead make an award to an Offeror that does not require a waiver.

(End of Provision)

2.8 52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

2.9 52.209-13 VIOLATION OF ARMS CONTROL TREATIES OR AGREEMENTS—CERTIFICATION (NOV 2021)

(a) This provision does not apply to acquisitions at or below the simplified acquisition threshold or to acquisitions of commercial products and commercial services as defined in Federal Acquisition Regulation 2.101.

(b) *Certification.* [Offeror shall check either (1) or (2).]

_____ (1) The Offeror certifies that—

(i) It does not engage and has not engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for->

[arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/](https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/); and

(ii) No entity owned or controlled by the Offeror has engaged in any activity that contributed to or was a significant factor in the President's or Secretary of State's determination that a foreign country is in violation of its obligations undertaken in any arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. The determinations are described in the most recent unclassified annual report provided to Congress pursuant to section 403 of the Arms Control and Disarmament Act (22 U.S.C. 2593a). The report is available at <https://www.state.gov/bureaus-offices/under-secretary-for-arms-control-and-international-security-affairs/bureau-of-arms-control-verification-and-compliance/>; or

_____ (2) The Offeror is providing separate information with its offer in accordance with paragraph (d)(2) of this provision.

(c) Procedures for reviewing the annual unclassified report (see paragraph (b)(1) of this provision). For clarity, references to the report in this section refer to the entirety of the annual unclassified report, including any separate reports that are incorporated by reference into the annual unclassified report.

(1) Check the table of contents of the annual unclassified report and the country section headings of the reports incorporated by reference to identify the foreign countries listed there. Determine whether the Offeror or any person owned or controlled by the Offeror may have engaged in any activity related to one or more of such foreign countries.

(2) If there may have been such activity, review all findings in the report associated with those foreign countries to determine whether or not each such foreign country was determined to be in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or to be not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. For clarity, in the annual report an explicit certification of noncompliance is equivalent to a determination of violation. However, the following statements in the annual report are not equivalent to a determination of violation:

- (i) An inability to certify compliance.
- (ii) An inability to conclude compliance.
- (iii) A statement about compliance concerns.

(3) If so, determine whether the Offeror or any person owned or controlled by the Offeror has engaged in any activity that contributed to or is a significant factor in the determination in the report that one or more of these foreign countries is in violation of its obligations undertaken in an arms control, nonproliferation, or disarmament agreement to which the United States is a party, or is not adhering to its arms control, nonproliferation, or disarmament commitments in which the United States is a participating state. Review the narrative for any such findings reflecting a determination of violation or non-adherence related to those foreign countries in the

report, including the finding itself, and to the extent necessary, the conduct giving rise to the compliance or adherence concerns, the analysis of compliance or adherence concerns, and efforts to resolve compliance or adherence concerns.

(4) The Offeror may submit any questions with regard to this report by email to NDAA1290Cert@state.gov. To the extent feasible, the Department of State will respond to such email inquiries within 3 business days.

(d) Do not submit an offer unless—

(1) A certification is provided in paragraph (b)(1) of this provision and submitted with the offer; or

(2) In accordance with paragraph (b)(2) of this provision, the Offeror provides with its offer information that the President of the United States has—

(i) Waived application under U.S.C. 2593e(d) or (e); or

(ii) Determined under 22 U.S.C. 2593e(g)(2) that the entity has ceased all activities for which measures were imposed under 22 U.S.C.2593e(b).

(e) *Remedies*. The certification in paragraph (b)(1) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly submitted a false certification, in addition to other remedies available to the Government, such as suspension or debarment, the Contracting Officer may terminate any contract resulting from the false certification.

4.1 52.219-28 POSTAWARD SMALL BUSINESS PROGRAM REREPRESENTATION (NOV 2025) (DEVIATION)

(a) *Definitions.* As used in this clause—

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern—

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at <https://www.sba.gov/document/support-table-size-standards>.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

(1) The Contractor represents that it ☐ is, ☐ is not a small business concern under NAICS Code 238210 assigned to contract number TBD.

(2) *[Complete only if the Contractor represented itself as a small business concern in paragraph (g)(1) of this clause.]* The Contractor represents that it ☐ is, ☐ is not, a small disadvantaged business concern as defined in 13 CFR 124.1001.

(3) *Women-owned small business (WOSB) joint venture eligible under the WOSB Program.* The Contractor represents that it ☐ is, ☐ is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). *[The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.]*

(4) *Economically disadvantaged women-owned small business (EDWOSB) joint venture.* The Contractor represents that it [] is, [] is not a joint venture that complies with the requirements of 13 CFR 127.506(a) through (c). *[The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.]*

(5) *Service-disabled veteran-owned small business (SDVOSB) joint venture eligible under the SDVOSB Program.* The Contractor represents that it [] is, [] is not an SDVOSB joint venture eligible under the SDVOSB Program that complies with the requirements of 13 CFR 128.402. *[The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.]*

(6) *HUBZone joint venture eligible under the HUBZone Program.* *[Complete only if the offeror is a HUBZone small business concern.]* The offeror represents, as part of its offer, that It [] is, [] is not a HUBZone joint venture that complies with the requirements of 13 CFR 126.616(a) through (c). *[The Contractor shall enter the name and unique entity identifier of each party to the joint venture: _____.]* Each HUBZone small business concern participating in the HUBZone joint venture must be certified as a HUBZone concern.

[Contractor to sign and date and insert authorized signer's name and title.

_____]

(End of Clause)

4.2 52.222-40 NOTIFICATION OF EMPLOYEE RIGHTS UNDER THE NATIONAL LABOR RELATIONS ACT (NOV 2025) (DEVIATION)

(a) During the term of this contract, the Contractor must post an employee notice, of such size and in such form, and containing such content as prescribed by the Secretary of Labor, in conspicuous places in and about its plants and offices where employees covered by the National Labor Relations Act engage in activities relating to the performance of the contract, including all places where notices to employees are customarily posted both physically and electronically, in the languages employees speak, in accordance with 29 CFR 471.2(d) and (f).

(1) Physical posting of the employee notice must be in conspicuous places in and about the Contractor's plants and offices so that the notice is prominent and readily seen by employees who are covered by the National Labor Relations Act and engage in activities related to the performance of the contract.

(2) If the Contractor customarily posts notices to employees electronically, then the Contractor must also post the required notice electronically by displaying prominently, on any Web site that is maintained by the Contractor and is customarily used for notices to employees about terms and conditions of employment, a link to the Department of Labor's Web site that contains the full text of the poster. The link to the Department's Web site, as referenced in (b)(3) of this section, must read, "Important Notice about Employee Rights to Organize and Bargain Collectively with Their Employers."

(b) This required employee notice, printed by the Department of Labor, may be—

(1) Obtained from the Division of Interpretations and Standards, Office of Labor-Management Standards, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N-5609,

Washington, DC 20210, (202) 693-0123, or from any field office of the Office of Labor-Management Standards or Office of Federal Contract Compliance Programs;

(2) Provided by the Federal contracting agency if requested;

(3) Downloaded from the Office of Labor-Management Standards Web site at <http://www.dol.gov/olms/regs/compliance/EO13496.htm>; or

(4) Reproduced and used as exact duplicate copies of the Department of Labor's official poster.

(c) The required text of the employee notice referred to in this clause is located at Appendix A, Subpart A, 29 CFR Part 471.

(d) The Contractor must comply with all provisions of the employee notice and related rules, regulations, and orders of the Secretary of Labor.

(e) In the event that the Contractor does not comply with the requirements set forth in paragraphs (a) through (d) of this clause, this contract may be terminated or suspended in whole or in part, and the Contractor may be suspended or debarred in accordance with 29 CFR 471.14 and subpart 9.4. Such other sanctions or remedies may be imposed as are provided by 29 CFR part 471, which implements Executive Order 13496 or as otherwise provided by law.

(f) Subcontracts.

(1) The Contractor must include the substance of this clause, including this paragraph (f), in every subcontract that exceeds \$10,000 and will be performed wholly or partially in the United States, unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 3 of Executive Order 13496 of January 30, 2009, so that such provisions will be binding upon each subcontractor.

(2) The Contractor must not procure supplies or services in a way designed to avoid the applicability of Executive Order 13496 or this clause.

(3) The Contractor must take such action with respect to any such subcontract as may be directed by the Secretary of Labor as a means of enforcing such provisions, including the imposition of sanctions for noncompliance.

(4) However, if the Contractor becomes involved in litigation with a subcontractor, or is threatened with such involvement, as a result of such direction, the Contractor may request the United States, through the Secretary of Labor, to enter into such litigation to protect the interests of the United States.

(End of Clause)

4.3 52.222-90 ADDRESSING DEI DISCRIMINATION BY FEDERAL CONTRACTORS (DEVIATION APR 2026)

(a) *Definitions.* As used in this clause—

Program participation means membership or participation in, or access or admission to: training, mentoring, or leadership development programs; educational opportunities; clubs; associations; or similar opportunities that are sponsored or established by the contractor or subcontractor.

Racially discriminatory diversity, equity, and inclusion (DEI) activities means disparate treatment based on race or ethnicity in the recruitment, employment (e.g., hiring, promotions), contracting (e.g., vendor agreements), program participation, or allocation or deployment of an entity's resources.

(b) In connection with the performance of work under this contract, the Contractor agrees as follows:

(1) The Contractor will not engage in any racially discriminatory DEI activities;

(2) The Contractor will furnish all information and reports, including providing access to books, records, and accounts, as required by the Contracting Officer, for purposes of ascertaining compliance with this clause;

(3) In the event of the Contractor's or a subcontractor's noncompliance with this clause, this contract may be canceled, terminated, or suspended in whole or in part, and the Contractor or subcontractor may be declared ineligible for further Government contracts;

(4) The Contractor will report any subcontractor's known or reasonably knowable conduct that may violate this clause to the Contracting Officer and take any appropriate remedial actions directed by the Contracting Officer; and

(5) The Contractor will inform the Contracting Officer if a subcontractor sues the Contractor and the suit puts at issue, in any way, the validity of this clause.

(6) The Contractor recognizes that compliance with the requirements of this clause are material to the Government's payment decisions for purposes of 31 U.S.C. 3729(b)(4).

(c) The Contractor must include the substance of this clause, including this paragraph (c), in subcontracts at any tier, including those for commercial products and commercial services, except those where the place of delivery or performance is outside the United States.

(End of Clause)

4.4 52.225-9 BUY AMERICAN—CONSTRUCTION MATERIALS (DEVIATION) (NOV 2025)

(a) *Definitions.* As used in this clause—

Commercially available off-the-shelf (COTS) item—

(1) Means any item of supply (including construction material) that is—

(i) A commercial product (as defined in paragraph (1) of the definition of “commercial product” at Federal Acquisition Regulation (FAR) 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4), such as agricultural products and petroleum products.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means—

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

Critical component means a component that is mined, produced, or manufactured in the United States and deemed critical to the U.S. supply chain. The list of critical components is at FAR 25.105.

Critical item means a domestic construction material or domestic end product that is deemed critical to U.S. supply chain resiliency. The list of critical items is at FAR 25.105.

Domestic construction material means—

(1) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both—

(i) An unmanufactured construction material mined or produced in the United States; or

(ii) A construction material manufactured in the United States, if—

(A) The cost of its components mined, produced, or manufactured in the United States exceeds 60 percent of the cost of all its components, except that the percentage will be 65 percent for items delivered in calendar years 2024 through 2028 and 75 percent for items delivered starting in calendar year 2029. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic. Components of unknown origin are treated as foreign; or

(B) The construction material is a COTS item; or

(2) For construction material that consists wholly or predominantly of iron or steel or a combination of both, a construction material manufactured in the United States if the cost of foreign iron and steel constitutes less than 5 percent of the cost of all components used in such construction material. The cost of foreign iron and steel includes but is not limited to the cost of foreign iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the construction material and a good faith estimate of the cost of all foreign iron or steel components excluding COTS fasteners. Iron or steel components of unknown origin are treated as foreign. If the construction material contains multiple components, the cost of all the materials used in such construction material is calculated in accordance with the definition of “cost of components”.

Fastener means a hardware device that mechanically joins or affixes two or more objects together. Examples of fasteners are nuts, bolts, pins, rivets, nails, clips, and screws.

Foreign construction material means a construction material other than a domestic construction material.

Foreign iron and steel means iron or steel products not produced in the United States. Produced in the United States means that all manufacturing processes of the iron or steel must take place in the United States, from the initial melting stage through the application of coatings, except metallurgical processes involving refinement of steel additives. The origin of the elements of the iron or steel is not relevant to the determination of whether it is domestic or foreign.

Predominantly of iron or steel or a combination of both means that the cost of the iron and steel content exceeds 50 percent of the total cost of all its components. The cost of iron and steel is the cost of the iron or steel mill products (such as bar, billet, slab, wire, plate, or sheet), castings, or forgings utilized in the manufacture of the product and a good faith estimate of the cost of iron or steel components excluding COTS fasteners.

Steel means an alloy that includes at least 50 percent iron, between 0.02 and 2 percent carbon, and may include other elements.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the domestic content test of the Buy American statute is waived for construction material that is a COTS item, except that for construction material that consists wholly or predominantly of iron or steel or a combination of both, the domestic content test is applied only to the iron and steel content of the construction materials, excluding COTS fasteners. The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

(2) This requirement does not apply to information technology that is a commercial product or to the construction materials or components listed by the Government as follows:

None

(3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that-

(i) The cost of domestic construction material would be unreasonable.

(A) For domestic construction material that is not a critical item or does not contain critical components.

(1) The cost of a particular domestic construction material subject to the requirements of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent;

(2) For construction material that is not a COTS item and does not consist wholly or predominantly of iron or steel or a combination of both, if the cost of a particular domestic construction material is determined to be unreasonable or there is no domestic offer received, and the low offer is for foreign construction material that is manufactured in the United States and does not exceed 55 percent domestic content, the Contracting Officer will treat the lowest offer of foreign construction material that exceeds 55 percent domestic content as a domestic offer and determine whether the cost of that offer is unreasonable by applying the evaluation factor listed in paragraph (b)(3)(i)(A)(1) of this clause.

(3) The procedures in paragraph (b)(3)(i)(A)(2) of this clause will no longer apply as of January 1, 2030.

(B) For domestic construction material that is a critical item or contains critical components.

(1) The cost of a particular domestic construction material that is a critical item or contains critical components, subject to the requirements of the Buy American statute, is unreasonable when the cost of such material exceeds the cost of foreign material by more than 20 percent plus the additional preference factor identified for the critical item or construction material containing critical components listed at FAR 25.105.

(2) For construction material that does not consist wholly or predominantly of iron or steel or a combination of both, if the cost of a particular domestic construction material is determined to be unreasonable or there is no domestic offer received, and the low offer is for foreign construction material that does not exceed 55 percent domestic content, the Contracting Officer will treat the lowest foreign offer of construction material that is manufactured in the United States and exceeds 55 percent domestic content as a domestic offer, and determine whether the cost of that offer is unreasonable by applying the evaluation factor listed in paragraph (b)(3)(i)(B)(1) of this clause.

(3) The procedures in paragraph (b)(3)(i)(B)(2) of this clause will no longer apply as of January 1, 2030.

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute.

(1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including-

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute or Balance of Payments Program.

(d) *Data*. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars)*
Item 1:			
Foreign construction material.			
Domestic construction material.			
Item 2:			
Foreign construction material.			
Domestic construction material.			

(End of Clause)

4.5 SUPPLEMENTAL INSURANCE REQUIREMENTS

In accordance with FAR 28.307-2 and FAR 52.228-5, the following minimum coverage shall apply to this contract:

(a) Workers' compensation and employers liability: Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a Contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least \$100,000 is required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers.

(b) General Liability: \$500,000.00 per occurrences.

(c) Automobile liability: \$200,000.00 per person; \$500,000.00 per occurrence and \$20,000.00 property damage.

(d) The successful bidder must present to the Contracting Officer, prior to award, evidence of general liability insurance without any exclusionary clauses for asbestos that would void the general liability coverage.

(End of Clause)

4.6 52.240-91 SECURITY PROHIBITIONS AND EXCLUSIONS (NOV 2025) (DEVIATION)

(a) *Definitions*. As used in this clause—

American Security Drone Act-covered foreign entity means an entity included on a list that the Federal Acquisition Security Council (FASC) develops and maintains and publishes in the

System for Award Management (SAM) at <https://www.sam.gov> (section 1822 of Pub. L. 118-31, 41 U.S.C. 3901 note prec.).

Backhaul means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (e.g., connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (e.g., fiber optic, coaxial cable, Ethernet).

Covered application means the social networking service TikTok or any successor application or service developed or provided by ByteDance Limited or an entity owned by ByteDance Limited.

Covered article, as defined in 41 U.S.C. 4713(k), means:

- (1) Information technology, as defined in 40 U.S.C. 11101, including cloud computing services of all types;
- (2) Telecommunications equipment or telecommunications service, as those terms are defined in section 3 of the Communications Act of 1934 (47 U.S.C. 153);
- (3) The processing of information on a Federal or non-Federal information system, subject to the requirements of the Controlled Unclassified Information program (see 32 CFR part 2002); or
- (4) Hardware, systems, devices, software, or services that include embedded or incidental information technology.

Covered foreign country means The People's Republic of China.

Covered telecommunications equipment or services means—

- (1) Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);
- (2) For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);
- (3) Telecommunications or video surveillance services provided by such entities or using such equipment; or
- (4) Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

Critical technology means—

(1) Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

(2) Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled—

(i) Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

(ii) For reasons relating to regional stability or surreptitious listening;

(3) Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

(4) Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

(5) Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

(6) Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

FASC-prohibited unmanned aircraft system means an unmanned aircraft system manufactured or assembled by an American Security Drone Act—covered foreign entity.

FASCSA order means any of the following orders issued under the Federal Acquisition Supply Chain Security Act (FASCSA) requiring removing covered articles from executive agency information systems or excluding one or more named sources or named covered articles from executive agency procurement actions, as described in 41 CFR 201-1.303(d) and (e):

(1) The Secretary of Homeland Security may issue FASCSA orders that apply to civilian agencies, to the extent not covered by paragraph (2) or (3) of this definition. This type of FASCSA order may be referred to as a Department of Homeland Security (DHS) FASCSA order.

(2) The Secretary of Defense may issue FASCSA orders that apply to the Department of Defense (DoD) and national security systems other than sensitive compartmented information systems. This type of FASCSA order may be referred to as a DoD FASCSA order.

(3) The Director of National Intelligence (DNI) may issue FASCSA orders that apply to the intelligence community and sensitive compartmented information systems, to the extent not covered by paragraph (2) of this definition. This type of FASCSA order may be referred to as a DNI FASCSA order.

Information technology, as defined in 40 U.S.C. 11101(6)—

(1) Means any equipment or interconnected system or subsystem of equipment, used in the automatic acquisition, storage, analysis, evaluation, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information by the executive agency, if the equipment is used by the executive agency directly or is used by a contractor under a contract with the executive agency that requires the use—

(i) Of that equipment; or

(ii) Of that equipment to a significant extent in the performance of a service or the furnishing of a product;

(2) Includes computers, ancillary equipment (including imaging peripherals, input, output, and storage devices necessary for security and surveillance), peripheral equipment designed to be controlled by the central processing unit of a computer, software, firmware and similar procedures, services (including support services), and related resources; but

(3) Does not include any equipment acquired by a Federal contractor incidental to a Federal contract.

Intelligence community, as defined by 50 U.S.C. 3003(4), means the following—

(1) The Office of the Director of National Intelligence;

(2) The Central Intelligence Agency;

(3) The National Security Agency;

(4) The Defense Intelligence Agency;

(5) The National Geospatial-Intelligence Agency;

(6) The National Reconnaissance Office;

(7) Other offices within the Department of Defense for the collection of specialized national intelligence through reconnaissance programs;

(8) The intelligence elements of the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the Federal Bureau of Investigation, the Drug Enforcement Administration, and the Department of Energy;

(9) The Bureau of Intelligence and Research of the Department of State;

(10) The Office of Intelligence and Analysis of the Department of the Treasury;

(11) The Office of Intelligence and Analysis of the Department of Homeland Security; or

(12) Such other elements of any department or agency as may be designated by the President, or designated jointly by the Director of National Intelligence and the head of the department or agency concerned, as an element of the intelligence community.

Interconnection arrangement means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately

delivered (e.g., connecting a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

Kaspersky Lab-covered article means any hardware, software, or service that—

- (1) Is developed or provided by a Kaspersky Lab-covered entity;
- (2) Includes any hardware, software, or service developed or provided in whole or in part by a Kaspersky Lab-covered entity; or
- (3) Contains components using any hardware or software developed in whole or in part by a Kaspersky Lab-covered entity.

Kaspersky Lab-covered entity means—

- (1) Kaspersky Lab;
- (2) Any successor entity to Kaspersky Lab, including any change in name, e.g., “Kaspersky”;
- (3) Any entity that controls, is controlled by, or is under common control with Kaspersky Lab; or
- (4) Any entity of which Kaspersky Lab has a majority ownership.

National security system, as defined in 44 U.S.C. 3552, means any information system (including any telecommunications system) used or operated by an agency or by a contractor of an agency, or other organization on behalf of an agency—

(1) The function, operation, or use of which involves intelligence activities; involves cryptologic activities related to national security; involves command and control of military forces; involves equipment that is an integral part of a weapon or weapons system; or is critical to the direct fulfillment of military or intelligence missions, but does not include a system that is to be used for routine administrative and business applications (including payroll, finance, logistics, and personnel management applications); or

(2) Is protected at all times by procedures established for information that have been specifically authorized under criteria established by an Executive order or an Act of Congress to be kept classified in the interest of national defense or foreign policy.

Roaming means cellular communications services (e.g., voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

Sensitive compartmented information means classified information concerning or derived from intelligence sources, methods, or analytical processes, which is required to be handled within formal access control systems established by the Director of National Intelligence.

Sensitive compartmented information system means a national security system authorized to process or store sensitive compartmented information.

Source means a non-Federal supplier, or potential supplier, of products or services, at any tier.

Subsidiary means an entity in which more than 50 percent of the entity is owned directly by a parent corporation or through another subsidiary of a parent corporation.

Substantial or essential component means any component necessary for the proper function or performance of a piece of equipment, system, or service.

Unmanned aircraft means an aircraft that is operated without the possibility of direct human intervention from within or on the aircraft (49 U.S.C. 44801(11)).

Unmanned aircraft system means an unmanned aircraft and associated elements (including communication links and the components that control the unmanned aircraft) that are required for the operator to operate safely and efficiently in the national airspace system (49 U.S.C. 44801(12)).

(b) *Prohibitions on providing or using specific products or services in performance of contract.* Unless a waiver or exception applies, the Contractor is prohibited from providing any products or services to the Government or using in the performance of the contract any of the following:

(1) A covered application on any information technology owned or managed by the Government, or on any information technology used or provided by the Contractor under this contract, including equipment provided by the Contractor's employees (section 102 of Division R of the Consolidated Appropriations Act, 2023 (Pub. L. 117-328));

(2) A Kaspersky Lab-covered article (Section 1634 of Division A of the National Defense Authorization Act for Fiscal Year 2018 (Pub. L. 115-91));

(3) Covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system (paragraphs (a)(1)(A) of section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232)). This does not prohibit contractors from providing—

(i) A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Prohibition on unmanned aircraft systems manufactured or assembled by American Security Drone Act—covered foreign entities.

(1) Prohibition. The Contractor is prohibited from—

(i) Delivering any FASC-prohibited unmanned aircraft system, which includes unmanned aircraft (i.e., drones) and associated elements (sections 1823 and 1826 of American Security Drone Act of 2023, within the National Defense Authorization Act for Fiscal Year 2024, Pub. L. 118-31, Div. A, Title XVIII, Subtitle B, 41 U.S.C. 3901 note prec.);

(ii) On or after December 22, 2025, operating a FASC-prohibited unmanned aircraft system in the performance of the contract (section 1824 of Pub. L. 118-31); and

(iii) On or after December 22, 2025, using Federal funds to procure or operate a FASC-prohibited unmanned aircraft system (section 1825 of Pub. L. 118-31).

(2) *Procedures.* The Contractor shall search SAM for the FASC-maintained list of American Security Drone Act—covered foreign entities before proposing, or using in performance of the contract, any unmanned aircraft system. Also, the Contractor shall ensure any effort or expenditure associated with a FASC-prohibited unmanned aircraft system is consistent with a corresponding exemption, exception, or waiver determination expressly stated in the contract.

(3) *Exemptions, exceptions, and waivers.* The prohibitions in paragraph (c) of this clause do not apply where the agency has determined an exemption, exception, or waiver applies, and the contract indicates that such a determination has been made. See sections 1823 through 1825 and 1832 of Public Law 118-31 for statutory requirements pertaining to exemptions, exceptions, and waivers.

(d) *Prohibition on using or providing specific products or services or conducting certain transactions regardless of connection to contract.*

(1) *Certain telecommunications and video surveillance equipment, systems, or services.*

(i) Unless an applicable waiver has been issued by the Government, the Contractor cannot use any equipment, systems, or services that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system (paragraph (a)(1)(B) of section 889 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232)).

(ii) This prohibition applies to using covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. This does not prohibit the contractor from using—

(A) A service that connects to the facilities of a third party, such as backhaul, roaming, or interconnection arrangements; or

(B) Telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) *Office of Foreign Assets Control Restrictions.*

(i) Except as authorized by the Office of Foreign Assets Control (OFAC) in the Department of the Treasury, the Contractor shall not acquire, for use in the performance of this contract, any supplies or services if any proclamation, Executive order, or statute administered by OFAC, or if OFAC's implementing regulations at 31 CFR chapter V, would prohibit such a transaction by a person subject to the jurisdiction of the United States.

(ii) Except as authorized by OFAC, most transactions involving Cuba, Iran, and Sudan are prohibited, as are most imports from Burma or North Korea, into the United States or its outlying areas.

(A) For lists of entities and individuals subject to economic sanctions, see OFAC's List of Specially Designated Nationals and Blocked Persons at <https://home.treasury.gov/policy-issues/financial-sanctions/specially-designated-nationals-and-blocked-persons-list-sdn-human-readable-lists>.

(B) For more information about these restrictions, as well as updates, see OFAC's regulations at 31 CFR chapter V and at <https://home.treasury.gov/policy-issues/office-of-foreign-assets-control-sanctions-programs-and-information>.

(C) To conduct electronic screens of potential parties to regulated transactions, see the consolidated screening list at <https://www.trade.gov/consolidated-screening-list>, which consolidates multiple export screening lists of the Departments of Commerce, State, and the Treasury.

(3) *Sudan prohibition.* The Contractor is prohibited from conducting any restricted business operations in Sudan in accordance with Accountability and Divestment Act of 2007 (Pub. L. 110-174).

(4) *Iran prohibitions.*

(i) Unless an exception applies according to paragraph (d)(4)(iii) or the Government grants a waiver, the contractor shall not engage in certain activities or transactions relating to Iran (section 6(b)(1)(A) of Iran Sanctions Act (50 U.S.C. 1701 note)).

(ii) Unless an exception applies according to paragraph (d)(4)(iii) or the Government grants a waiver, contractor shall not export certain sensitive technology to Iran, as determined by the President, and has an active exclusion in SAM (22 U.S.C. 8515).

(iii) The prohibition in paragraphs (d)(4)(i) and (d)(4)(ii) do not apply if the acquisition is subject to trade agreements and the offeror certifies that all the offered products are designated country end products or designated country construction material (see part 25).

(iv) Unless an exception applies or the Government grants a waiver, contractors are prohibited from knowingly engaging in any significant transaction (i.e., over \$15,000) with Iran's Revolutionary Guard Corps or any of its officials, agents, or affiliates, the property and interests in property of which are blocked according to the International Emergency Economic Powers Act (section 6(b)(1)(B) of Iran Sanctions Act (50 U.S.C. 1701 note)).

(e) *Governmentwide exclusion and removal orders.*

(1) Unless the Government has issued an applicable waiver, contractors shall not provide or use as part of the performance of the contract any covered article, or any products or services produced or provided by a source, if the covered article or the source is prohibited by an applicable FASCSA order as follows:

(i) For solicitations and contracts awarded by a Department of Defense contracting office, DoD FASCSA orders apply.

(ii) For all other solicitations and contracts, DHS FASCSA orders apply.

(2) The Contractor shall search for the phrase “FASCSA order” in the System for Award Management (SAM) at <https://www.sam.gov> to locate applicable FASCSA orders.

(3) The Government may identify in the solicitation other FASCSA orders that are not in SAM, which are effective and apply to the solicitation and resulting contract.

(4) A FASCSA order issued after the date of solicitation applies to this contract only if added by an amendment to the solicitation or modification to the contract (see FAR 40.204-1(c)).

(f) *Reasonable inquiry.* The contractor shall conduct a reasonable inquiry to determine if there are any prohibited products or services. The inquiry will look at any information in the entity’s possession but does not need to include an internal or third-party audit.

(g) *Removal of prohibited products and services.* For Federal Supply Schedules, Governmentwide acquisition contracts, multi-agency contracts or any other procurement instrument intended for use by multiple agencies, upon notification from the Contracting Officer, during the performance of the contract, the Contractor shall promptly make any necessary changes or modifications to remove any product or service produced or provided by a source that this clause prohibits.

(h) *General report.*

(1) If the Contractor identifies or is notified by any source, (including a subcontractor at any tier), that any product or service provided or used (or to be provided or used) during contract performance does not comply with any prohibition in this clause, then the Contractor shall report the following information, or as much information is known, in writing to the contracting office as identified in paragraph (h)(2) within 72 hours:

(i) Contract number and order number, if applicable;

(ii) The specific prohibition the product or service is not complying with;

(iii) A description of the products or services that the Contractor identifies or has reason to suspect is prohibited (include brand; model number, such as the original equipment manufacturer (OEM) number, manufacturer part number, or wholesaler number; and item description, as applicable);

(iv) The entity that produced the product or service (include entity name, unique entity identifier, Contractor and Government Entity (CAGE) code, facilities responsible for design, fabrication, assembly, packaging, and test of the product, and whether the entity was the OEM or a distributor (provide manufacturer codes and distributor codes used for the product));

(v) Description of the functionality of the product or service and how that functionality impacts the risk to the product or service;

(vi) An explanation of any factors relevant to determining if the product or service should be permitted by an applicable exception, exemption, or waiver (if the contractor would like the Government to consider a waiver, and asks for such a waiver);

(vii) Whether alternative products or services are available that would comply with the prohibition;

(viii) If the product or service is related to item maintenance, include the following information on the item being maintained:

(A) Brand;

(B) Model number, OEM number, manufacturer part number, or wholesaler number; and

(C) Item description, as applicable.

(ix) Any readily available information about mitigation actions implemented or recommended.

(2) If a report must be submitted to a contracting office, the Contractor shall submit the report as follows:

(i) If a Department of Defense contracting office, the Contractor shall report to the website at <https://dibnet.dod.mil>.

(ii) For all other contracting offices, the Contractor shall report to the Contracting Officer.

(iii) For indefinite delivery contracts, the Contractor shall report to both the contracting office for the indefinite delivery contract and the contracting office for any affected order.

(3) If the report provided does not contain any of the information required by paragraph (h)(1) of this clause, and the contractor later discovers new information that is required by paragraph (h)(1) of this clause, then the contractor shall submit a subsequent report within 72 hours of discovering the new information.

(4) The contractor shall also report the information in paragraph (h)(1) if the contractor wishes to ask for a waiver of the requirements of a new FASCSA order being applied through modification.

(i) *New FASCSA orders report.*

(1) During contract performance, the Contractor shall review SAM at least once every three months, or as advised by the Contracting Officer, to check for covered articles subject to FASCSA order(s), or for products or services produced by a source subject to FASCSA order(s) not currently identified under paragraph (e) of this clause.

(2) If the Contractor identifies a new FASCSA order(s) that could impact their supply chain, then the Contractor shall conduct a reasonable inquiry to identify whether a covered article or product or service produced or provided by a source subject to the FASCSA order(s) was provided to the Government or used during contract performance. The inquiry will look at any information in the entity's possession but does not need to include an internal or third-party audit.

(3) The Contractor shall submit a report to the contracting office identified in paragraph (h)(2) of this clause if the Contractor identifies, including through any notification by a subcontractor at any tier, that a covered article or product or service produced or provided by a source was provided to the Government or used during contract performance and is subject to a FASCSA order(s). For indefinite delivery contracts, the Contractor shall report to both the contracting

office for the indefinite delivery contract and the contracting office for any affected order. The Contractor shall report the following information within 72 hours for each covered article or each product or service produced or provided by a source, where the covered article or source is subject to a FASCSA order:

- (i) Contract number and order number, if applicable;
- (ii) Name of the covered article or source subject to a FASCSA order;
- (iii) The specific FASCSA order the product or service does not comply with;
- (iv) The elements of (h)(1)(iii) through (ix) of this clause.

(j) Subcontracts. The Contractor shall insert the substance of this clause, including this paragraph (j) but excluding subparagraphs (d)(1) and (i)(1), in all subcontracts and other contractual instruments, including subcontracts for acquiring commercial products or commercial services.

(End of Provision)

4.7 52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

https://www.acquisition.gov/far-overhaul/far-part-deviation-guide/far-overhaul-part-52#FAR_52_252_1

4.8 VAAR 852.219-73 VA NOTICE OF TOTAL SET-ASIDE FOR CERTIFIED SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESSES (JAN 2023) (DEVIATION)

(a) *Definition.* for the Department of Veterans Affairs, “*Service-disabled Veteran-owned small business concern or SDVOSB*”:

(1) Means a small business concern—

(i) Not less than 51 percent of which is owned by one or more service-disabled Veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled Veterans or eligible surviving spouses (see VAAR 802.201, Surviving Spouse definition);

(ii) The management and daily business operations of which are controlled by one or more service-disabled Veterans (or eligible surviving spouses) or, in the case of a service-disabled Veteran with permanent and severe disability, the spouse or permanent caregiver of such Veteran;

(iii) The business meets Federal small business size standards for the applicable North American Industry Classification System (NAICS) code identified in the solicitation document;

(iv) The business has been certified for ownership and control pursuant to 38 U.S.C. 8127, 13 CFR 128, and is listed as certified in the SBA certification database at <https://veterans.certify.sba.gov/>; and

(v) The business agrees to comply with VAAR subpart 819.70 and Small Business Administration (SBA) regulations regarding small business size, government contracting, and the Veteran Small Business Certification Program at 13 CFR parts 121, 125, and 128.

(2) The term “Service-disabled Veteran” means a Veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

(3) The term “small business concern” has the meaning given that term under section 3 of the Small Business Act (15 U.S.C. 632).

(4) The term “small business concern owned and controlled by Veterans with service-connected disabilities” has the meaning given the term “*small business concern owned and controlled by service-disabled veterans*” under section 3(q)(2) of the Small Business Act (15 U.S.C. 632(q)(2)).

(5) The term “*SDVOSB participant*” or *certified SDVOSB* means a small business that has been certified in the SBA Veteran Small Business Certification Program and listed in the SBA certification database (see 13 CFR 128.102).

(b) *General.* In order for a concern to submit an offer and be eligible for the award of an SDVOSB set-aside or sole source contract, the concern must qualify as a small business concern under the size standard corresponding to the NAICS code assigned to the contract and be listed as an SDVOSB participant in the SBA certification database as set forth in 13 CFR 128.

(1) Offers received from entities that are not certified SDVOSBs and listed in the SBA certification database at the time of offer shall not be considered.

(2) Any award resulting from this solicitation shall be made to a certified SDVOSB listed in the SBA certification database who is eligible at the time of submission of offer(s) and at the time of award.

(3) The requirements in this clause apply to any contract, order or subcontract where the firm receives a benefit or preference from its designation as an SDVOSB, including set-asides, sole source awards, and evaluation preferences.

(c) *Representation.* Pursuant to 38 U.S.C. 8127(e), only certified SDVOSBs listed in the SBA certification database are considered eligible to receive award of a resulting contract. By submitting an offer, the prospective contractor represents that it is an eligible and certified SDVOSB as defined in this clause, 13 CFR 121, 125, and 128, and VAAR subpart 819.70.

(d) *Agreement/LOS certification.* When awarded a contract action, including orders under multiple award contracts, an SDVOSB agrees that in the performance of the contract, the SDVOSB shall comply with requirements in VAAR subpart 819.70 and SBA regulations on small business size, and government contracting programs at 13 CFR part 121 and part 125, including the non-manufacturer rule and limitations on subcontracting (LOS) requirements in 13 CFR 121.406(b) and 13 CFR 125.6. For the purpose of limitations on subcontracting, only certified SDVOSBs listed in the SBA certification database (including independent contractors) shall be considered eligible and/or “similarly situated” (i.e., a firm that has the same small business program status as the prime contractor). An otherwise eligible firm further agrees to comply with the required LOS certification requirements in this solicitation (see 852.219–75 or 852.219–76 as applicable). These requirements are summarized as follows:

(1) *Services.* In the case of a contract for services (except construction), the SDVOSB prime contractor will not pay more than 50% of the amount paid by the government to the prime for contract performance to firms that are not certified SDVOSBs listed in the SBA certification database (excluding direct costs to the extent they are not the principal purpose of the acquisition and the SDVOSB/ VOSB does not provide the service, such as airline travel, cloud computing services, or mass media purchases). When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract.

(2) *Supplies/products.*

(i) In the case of a contract for supplies or products (other than from a non-manufacturer of such supplies), the SDVOSB prime contractor will not pay more than 50% of the amount paid by the government to the prime for contract performance, excluding the cost of materials, to firms that are not certified SDVOSBs listed in the SBA certification database. When a contract includes both supply and services, the 50 percent limitation shall apply only to the supply portion of the contract.

(ii) In the case of a contract for supplies from a non-manufacturer, the SDVOSB prime contractor will supply the product of a domestic small business manufacturer or processor, unless a waiver as described in 13 CFR 121.406(b)(5) has been granted. Refer to 13 CFR 125.6(a)(2)(ii) for guidance pertaining to multiple item procurements.

(3) *General construction.* In the case of a contract for general construction, the SDVOSB prime contractor will not pay more than 85% of the amount paid by the government to the prime for contract performance, excluding the cost of materials, to firms that are not certified SDVOSBs listed in the SBA certification database.

(4) *Special trade construction contractors.* In the case of a contract for special trade contractors, no more than 75% of the amount paid by the government to the prime for contract performance, excluding the cost of materials, may be paid to firms that are not certified SDVOSBs listed in the SBA certification database.

(5) *Subcontracting.* An SDVOSB subcontractor must meet the NAICS size standard assigned by the prime contractor and be certified and listed in the SBA certification database to count as similarly situated. Any work that a first tier SDVOSB subcontractor further subcontracts will count towards the percent of subcontract amount that cannot be exceeded. For supply or construction contracts, the cost of materials is excluded and not considered to be subcontracted. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the portion of the contract with the preponderance of the expenditure upon which the assigned NAICS is based. For information and more specific requirements, refer to 13 CFR 125.6.

(e) *Required limitations on subcontracting compliance measurement period.* An SDVOSB shall comply with the limitations on subcontracting as follows:

[X] By the end of the base term of the contract or order, and then by the end of each subsequent option period; or

[] By the end of the performance period for each order issued under the contract.

(f) *Joint ventures.* A joint venture may be considered eligible as an SDVOSB if the joint venture complies with the requirements in 13 CFR 128.402 and the managing joint venture partner makes the representations under paragraph (c) of this clause. A joint venture agrees that, in the performance of the contract, the applicable percentage specified in paragraph (d) of this clause will be performed by the aggregate of the joint venture participants.

(g) *Precedence.* The VA Veterans First Contracting Program, as defined in VAAR 802.101, subpart 819.70, and this clause, takes precedence over any inconsistencies between the requirements of the SBA Veteran Small Business Certification Program and the VA Veterans First Contracting Program.

(h) *Misrepresentation.* Pursuant to 38 U.S.C. 8127(g), any business concern, including all its principals, that is determined by VA to have willfully and intentionally misrepresented a company's SDVOSB status is subject to debarment from contracting with the Department for a period of not less than five years (see VAAR 809.406–2 Causes for Debarment).

(End of Clause)

4.9 VAAR 852.219-75 VA NOTICE OF LIMITATIONS ON SUBCONTRACTING—CERTIFICATE OF COMPLIANCE FOR SERVICES AND CONSTRUCTION (JAN 2023) (DEVIATION)

(a) Pursuant to 38 U.S.C. 8127(l)(2), the offeror certifies that—

(1) If awarded a contract (see FAR 2.101 definition), it will comply with the limitations on subcontracting requirement as provided in the solicitation and the resultant contract, as follows:

(i) ☐ *Services*. In the case of a contract for services (except construction), the contractor will not pay more than 50% of the amount paid by the government to it to firms that are not certified SDVOSBs listed in the SBA certification database as set forth in 852.219–73 or certified VOSBs listed in the SBA certification database as set forth in 852.219–74. Any work that a similarly situated certified SDVOSB/VOSB subcontractor further subcontracts will count towards the 50% subcontract amount that cannot be exceeded. Other direct costs may be excluded to the extent they are not the principal purpose of the acquisition and small business concerns do not provide the service as set forth in 13 CFR 125.6.

(ii) ☐ *General construction*. In the case of a contract for general construction, the contractor will not pay more than 85% of the amount paid by the government to it to firms that are not certified SDVOSBs listed in the SBA certification database as set forth in 852.219–73 or certified VOSBs listed in the SBA certification database as set forth in 852.219–74. Any work that a similarly situated certified SDVOSB/VOSB subcontractor further subcontracts will count towards the 85% subcontract amount that cannot be exceeded. Cost of materials are excluded and not considered to be subcontracted.

(iii) ☒ *Special trade construction contractors*. In the case of a contract for special trade contractors, the contractor will not pay more than 75% of the amount paid by the government to it to firms that are not certified SDVOSBs listed in the SBA certification database as set forth in 852.219–73 or certified VOSBs listed in the SBA certification database as set forth in 852.219–74. Any work that a similarly situated certified SDVOSB/VOSB subcontractor further subcontracts will count towards the 75% subcontract amount that cannot be exceeded. Cost of materials are excluded and not considered to be subcontracted.

(2) The offeror acknowledges that this certification concerns a matter within the jurisdiction of an Agency of the United States. The offeror further acknowledges that this certification is subject to Title 18, United States Code, Section 1001, and, as such, a false, fictitious, or fraudulent certification may render the offeror subject to criminal, civil, or administrative penalties, including prosecution.

(3) If VA determines that an SDVOSB/ VOSB awarded a contract pursuant to 38 U.S.C. 8127 did not act in good faith, such SDVOSB/VOSB shall be subject to any or all of the following:

(i) Referral to the VA Suspension and Debarment Committee;

(ii) A fine under section 16(g)(1) of the Small Business Act (15 U.S.C. 645(g)(1)); and

(iii) Prosecution for violating 18 U.S.C. 1001.

(b) The offeror represents and understands that by submission of its offer and award of a contract it may be required to provide copies of documents or records to VA that VA may review to determine whether the offeror complied with the limitations on subcontracting requirement specified in the contract. Contracting officers may, at their discretion, require the contractor to demonstrate its compliance with the limitations on subcontracting at any time during performance and upon completion of a contract if the information regarding such compliance is not already available to the contracting officer. Evidence of compliance includes, but is not limited to, invoices, copies of subcontracts, or a list of the value of tasks performed.

(c) The offeror further agrees to cooperate fully and make available any documents or records as may be required to enable VA to determine compliance with the limitations on subcontracting requirement. The offeror understands that failure to provide documents as requested by VA may result in remedial action as the Government deems appropriate.

(d) Offeror completed certification/fill-in required. The formal certification must be completed, signed and returned with the offeror's bid, quotation, or proposal. The Government will not consider offers for award from offerors that do not provide the certification, and all such responses will be deemed ineligible for evaluation and award.

Certification

I hereby certify that if awarded the contract, [insert name of offeror] will comply with the limitations on subcontracting specified in this clause and in the resultant contract. I further certify that I am authorized to execute this certification on behalf of [insert name of offeror].

(End of Clause)

4.10 VAAR 852.236-71 SPECIFICATIONS AND DRAWINGS FOR CONSTRUCTION (APR 2019)

The clause entitled "Specifications and Drawings for Construction" in FAR 52.236– 21 is supplemented as follows:

(a) The Contracting Officer's interpretation of the drawings and specifications will be final, subject to the Disputes clause.

(b) The Contractor shall—

(1) Check all drawings and specifications furnished immediately upon receipt;

(2) Compare all drawings and the specifications, and verify the figures before laying out the work;

(3) Promptly notify the Contracting Officer of any discrepancies;

(4) Be responsible for any errors that might have been avoided by complying with this paragraph (b); and

(5) Reproduce and print contract drawings and specifications as needed.

(c) In general—

(1) Drawings of greater detail shall govern over drawings of lesser detail unless specifically noted otherwise; and

(2) Figures and numerical quantities noted on drawings govern over scale measurements.

(d) Omissions from the drawings or specifications or the misdescription of details of work that are manifestly necessary to carry out the intent of the drawings and specifications, or that are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed details of the work. The Contractor shall perform such details as if fully and correctly set forth and described in the drawings and specifications.

(e) The work shall conform to the specifications and the contract drawings identified on the following index of drawings:

Title	File	Drawing No.
-------	------	-------------

(End of Clause)

4.11 VAAR 852.236-79 CONTRACTOR PRODUCTION REPORT (APR 2019)

(a) The Contractor shall furnish to the resident engineer, for each workday, a consolidated report for the preceding workday. Reporting shall begin from date of mobilization until the date of final acceptance except for authorized holidays. VA Form 10101, Contractor Production Report, or a Contractor generated form containing the same type of information shall be signed, dated and submitted by the Contractor superintendent.

(b) Each report shall include and specifically identify at least one safety topic germane to the jobsite that day.

(End of Clause)

4.12 VAAR 852.242-70 GOVERNMENT CONSTRUCTION CONTRACT ADMINISTRATION (OCT 2020)

(a) Contract administration functions set forth in FAR 42.302 are hereby delegated to:

Department of Veterans Affairs
Network Contracting Office (NCO) 15
3450 S 4th Street Trafficway

Leavenworth, KS 66048

(b) The following functions will be retained by the Contracting Officer or Administrative Contracting Officer (ACO) and are not redelegable to Resident Engineers:

(1) Award of contract modifications either through supplemental agreements or change orders that exceed the ACO's appointed warrant limitations.

(2) Issuance of default letters.

(3) Issuance of Cure or Show-Cause Notices.

(4) Suspension of work letters and/or modifications.

(5) Issuance of Contracting Officer final determination letters.

(6) Issuance of termination notices.

(7) Authorization of final payment.

(c) The work will be under the direction of a Department of Veterans Affairs Contracting Officer, who may designate another VA employee to act as resident engineer at the construction site who possesses limited warranted authority.

(d) Except as provided below, the resident engineer's directions will not conflict with or change contract requirements. Within the limits of any specific authority delegated by the Contracting Officer, the resident engineer may, by written direction, make changes in the work. The Contractor shall be advised of the extent of such authority prior to execution of any work under the contract.

(e) The Contracting Officer or an Administrative Contracting Officer identified in paragraph (a) may further delegate limited authority and specialized support services responsibilities below to the following warranted Resident Engineer personnel on site, not to exceed the dollar value and threshold of their warrant:

(1) Conduct post-award orientation conferences.

(2) Issue administrative changes (see FAR 43.101) correcting errors or omissions, contractor address, facility or activity code, remittance address, computations which do not required additional contract funds, and other such changes.

(3) For actions not to exceed negotiate and execute supplemental agreements resulting from change orders issued under the Changes clause.

(4) Negotiate and execute supplemental agreements changing contract delivery schedules where the time extension does not exceed calendar days.

(End of Clause)

4.13 VAAR 852.243-70 CONSTRUCTION CONTRACT CHANGES— SUPPLEMENT (SEP 2019)

The FAR clauses 52.236-2, Differing Site Conditions; 52.243-4, Changes; and 52.243-5, Changes and Changed Conditions, are supplemented as follows:

(a) Submission of request for equitable adjustment proposals. When directed by the Contracting Officer or requested by the Contractor, the Contractor shall, in accordance with FAR 15.403-5, submit proposals for changes in the work exceeding \$500,000 in writing to the Contracting Officer or Administrative Contracting Officer (ACO), and to the resident engineer.

(1) The Contractor must provide an itemized breakdown for changes exceeding the micro-purchase threshold (see FAR 2.101).

(2) The itemized breakdown shall include materials, quantities, unit prices, labor costs (separated into trades), construction equipment, etc. Labor costs shall be identified with specific material placed or operation performed.

(3) Proposals shall be submitted to the Contracting Officer or ACO and the resident engineer as expeditiously as possible, but not later than calendar days, after receipt of a written change order by the Contracting Officer.

(4) Proposals shall be signed by each subcontractor participating in the change.

(5) The Contracting Officer will consider issuing a settlement by determination to the contract if the Contractor's proposal required by paragraph (a)(3) of this clause is not received within the time period specified in paragraph (a)(3), or if agreement has not been reached.

(b) Paragraphs (a)(1) through (5) of this clause and the following paragraphs (b)(1) and (2) apply to proposals for changes in the work \$500,000 or less:

(1) As a basis for negotiation, allowances not to exceed 10 percent each for overhead and profit for the party performing the work will be based on the value of labor, material, and equipment required to accomplish the change. As the value of the change increases, a declining scale will be used in negotiating the percentage of overhead and profit. This declining scale will also be used to negotiate the prime Contractor's or upper-tier subcontractor's fee when work is performed by lower-tier subcontractors (to a maximum of three tiers) and will be based on the net increased cost to the prime or upper-tier subcontractor, as applicable. Profit (fee) shall be

computed by multiplying the profit percentage by the sum of the direct costs and computed overhead costs. Allowable percentages on changes will not exceed the following:

- (i) 10 percent overhead and/or 10 percent profit (fee) on the first \$20,000.
- (ii) 7.5 percent overhead and/or 7.5 percent profit (fee) on the next \$30,000.
- (iii) 5 percent overhead and/or 5 percent profit (fee) on a balance over \$50,000.

(2) The Contracting Officer will consider issuing a settlement by determination to the contract if the Contractor's proposal required by paragraph (3) is not received within 30 calendar days, or if agreement has not been reached.

(c)(1) Overhead and Contractor's fee percentages shall be considered to include insurance other than mentioned herein, field and office supervisors and assistants, security police, use of small tools, incidental job burdens, and general home office expenses and no separate allowance will be made. Assistants to office supervisors include all clerical, stenographic and general office help. Incidental job burdens include, but are not necessarily limited to, office equipment and supplies, temporary toilets, telephone and conformance to OSHA requirements. Items such as, but not necessarily limited to, review and coordination, estimating and expediting relative to contract changes are associated with field and office supervision and are considered to be included in the Contractor's overhead and/or fee percentage.

(2) Where the Contractor's or subcontractor's portion of a change involves credit items, such items must be deducted prior to adding overhead and profit for the party performing the work. The Contractor's fee is limited to the net increase to Contractor or subcontractors' portions of cost computed in accordance with this clause.

(3) Where a change involves credit items only, a proper measure of the amount of downward adjustment in the contract price is the reasonable cost to the Contractor if it had performed the deleted work. A reasonable allowance for overhead and profit are properly includable as part of the downward adjustment for a deductive change. The amount of such allowance is subject to negotiation.

(End of Clause)

<u>FAR Number</u>	<u>Title</u>	<u>Date</u>
852.201-70	CONTRACTING OFFICER'S REPRESENTATIVE	DEC 2022
852.203-70	COMMERCIAL ADVERTISING	MAY 2018
852.222-71	COMPLIANCE WITH EXECUTIVE ORDER 13899 (DEVIATION) (APR 2025)	APR 2025

4.14 VAAR 852.228-70 BOND PREMIUM ADJUSTMENT (JAN 2008)

When net changes in original contract price affect the premium of a Corporate Surety Bond by \$5 or more, the Government, in determining the basis for final settlement, will provide for bond premium adjustment computed at the rate shown in the bond.

(End of Clause)

4.15 VAAR 852.232-70 PAYMENTS UNDER FIXED-PRICE CONSTRUCTION CONTRACTS (WITHOUT NAS– CPM) (NOV 2018)

The clause FAR 52.232–5, Payments Under Fixed-Price Construction Contracts, is implemented as follows:

(a) Retainage.

(1) The Contracting Officer may retain funds—

(i) Where performance under the contract has been determined to be deficient or the Contractor has performed in an unsatisfactory manner in the past; or

(ii) As the contract nears completion, to ensure that deficiencies will be corrected and that completion is timely.

(2) Examples of deficient performance justifying a retention of funds include, but are not restricted to, the following—

(i) Unsatisfactory progress as determined by the Contracting Officer;

(ii) Failure to meet schedule in Schedule of Work Progress;

(iii) Failure to present submittals in a timely manner; or

(iv) Failure to comply in good faith with approved subcontracting plans, certifications, or contract requirements.

(3) Any level of retention shall not exceed 10 percent either where there is determined to be unsatisfactory performance, or when the retainage is to ensure satisfactory completion. Retained amounts shall be paid promptly upon completion of all contract requirements, but nothing contained in this paragraph (a)(3) shall be construed as limiting the Contracting Officer's right to withhold funds under other provisions of the contract or in accordance with the general law and regulations regarding the administration of Government contracts.

(b) The Contractor shall submit a schedule of cost to the Contracting Officer for approval within 30 calendar days after date of receipt of notice to proceed. Such schedule will be signed and submitted in triplicate. The approved cost schedule will be one of the bases for determining progress payments to the Contractor for work completed. This schedule shall show cost by the work activity/event for each building or unit of the contract, as instructed by the resident engineer.

(1) The work activities/events shall be subdivided into as many sub-activities/events as are necessary to cover all component parts of the contract work.

(2) Costs as shown on this schedule must be true costs and the resident engineer may require the Contractor to submit the original estimate sheets or other information to substantiate the detailed makeup of the schedule.

(3) The sums of the sub-activities/events, as applied to each work activity/event, shall equal the total cost of such work activity/event. The total cost of all work activities/events shall equal the contract price.

(4) Insurance and similar items shall be prorated and included in the cost of each branch of the work.

(5) The cost schedule shall include separate cost information for the systems listed in the table in this paragraph (b)(5). The percentages listed in the following table are proportions of the cost listed in the Contractor's cost schedule and identify, for payment purposes, the value of the work to adjust, correct and test systems after the material has been installed. Payment of the listed percentages will be made only after the Contractor has demonstrated that each of the systems is substantially complete and operates as required by the contract.

VALUE OF ADJUSTING, CORRECTING, AND TESTING SYSTEM	
System	Percent
Pneumatic tube system.....	10
Incinerators (medical waste and trash).....	5
Sewage treatment plant equipment.....	5
Water treatment plant equipment.....	5
Washers (dish, cage, glass, etc.).....	5
Sterilizing equipment.....	5
Water distilling equipment.....	5
Prefab temperature rooms (cold, constant temperature).....	5
Entire air-conditioning system (Specified under 600 Sections).....	5
Entire boiler plant system (Specified under 700 Sections).....	5
General supply conveyors.....	10
Food service conveyors.....	10
Pneumatic soiled linen and trash system.....	10
Elevators and dumbwaiters.....	10
Materials transport system.....	10
Engine-generator system.....	5
Primary switchgear.....	5
Secondary switchgear.....	5

Fire alarm system.....	5
Nurse call system.....	5
Intercom system.....	5
Radio system.....	5
TV (entertainment) system.....	5

(c) In addition to this cost schedule, the Contractor shall submit such unit costs as may be specifically requested. The unit costs shall be those used by the Contractor in preparing its bid and will not be binding as pertaining to any contract changes.

(d) The Contracting Officer will consider for monthly progress payments material and/or equipment procured by the Contractor and stored on the construction site, as space is available, or at a local approved location off the site, under such terms and conditions as the Contracting Officer approves, including but not limited to the following—

(1) The materials or equipment are in accordance with the contract requirements and/or approved samples and shop drawings;

(2) The materials and/or equipment are approved by the resident engineer;

(3) The materials and/or equipment are stored separately and are readily available for inspection and inventory by the resident engineer;

(4) The materials and/or equipment are protected against weather, theft and other hazards and are not subjected to deterioration; and

(5) The Contractor obtains the concurrence of its surety for off-site storage.

(e) The Government reserves the right to withhold payment until samples, shop drawings, engineer's certificates, additional bonds, payrolls, weekly statements of compliance, proof of title, nondiscrimination compliance reports, or any other requirements of this contract, have been submitted to the satisfaction of the Contracting Officer.

(f) The Contracting Officer will notify the Contractor in writing within 10 calendar-days of exercising retainage against any payment in accordance with FAR clause 52.232–5(e). The notice shall disclose the amount of the retainage in value and percent retained from the payment, and provide explanation for the retainage.

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Note: Executive Order 13658 generally applies to contracts subject to the Davis-Bacon Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. Executive Order 13658 does not apply to contracts subject only to the Davis-Bacon Related Acts regardless of when they were awarded. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least \$13.65 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract from May 11, 2026, through December 31, 2026. The applicable Executive Order minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under Executive Order 13658 is available at

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classifications and wage rates that have been found to be prevailing for the type(s) of construction and geographic area covered by the wage determination. The classifications are listed in alphabetical order under rate identifiers indicating whether the particular rate is a union rate (current union negotiated rate), a survey rate, a weighted union average rate, a state adopted rate, or a supplemental classification rate.

Union Rate Identifiers

A four-letter identifier beginning with characters other than SU , UAVG , SA , or SC denotes that a union rate was prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2024. PLUM is an identifier of the union whose collectively bargained rate prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2024 in the example, is the effective date of the most current negotiated rate.

Union prevailing wage rates are updated to reflect all changes over time that are reported to WHD in the rates in the collective bargaining agreement (CBA) governing the classification.

Union Average Rate Identifiers

The UAVG identifier indicates that no single rate prevailed for those classifications, but that 100% of the data reported for the classifications reflected union rates. EXAMPLE: UAVG-OH-0010 01/01/2024. UAVG indicates that the rate is a weighted union average rate. OH indicates the State of Ohio. The next number, 0010 in the example, is an internal number used in producing the wage determination. The date, 01/01/2024 in the example, indicates the date the wage determination was updated to reflect the most current union average rate.

A UAVG rate will be updated once a year, usually in January, to reflect a weighted average of the current rates in the collective bargaining agreements on which the rate is based.

Survey Rate Identifiers

The SU identifier indicates that either a single non-union rate prevailed (as defined in 29 CFR 1.2) for this classification in the survey or that the rate was derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As a weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SUFL2022-007 6/27/2024. SU indicates the rate is a single non-union prevailing rate or a weighted average of survey data for that classification. FL indicates the State of Florida. 2022 is the year of the survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 6/27/2024 in the example, indicates the survey completion date for the classifications and rates under that identifier.

SU wage rates typically remain in effect until a new survey is conducted. However, the Wage and Hour Division (WHD) has the discretion to update such rates under 29 CFR 1.6(c)(1).

State Adopted Rate Identifiers

The SA identifier indicates that the classifications and prevailing wage rates set by a state (or local) government were adopted under 29 C.F.R 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. The date, 01/03/2024 in the example, reflects the date on which the classifications and rates under the SA identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1) Has there been an initial decision in the matter? This can be:

- a) a survey underlying a wage determination
- b) an existing published wage determination
- c) an initial WHD letter setting forth a position on a wage determination matter
- d) an initial conformance (additional classification and rate) determination

On survey related matters, initial contact, including requests for summaries of surveys, should be directed to the WHD Branch of Wage Surveys. Requests can be submitted via email to davisbaconinfo@dol.gov or by mail to:

Branch of Wage Surveys
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

Regarding any other wage determination matter such as

conformance decisions, requests for initial decisions should be directed to the WHD Branch of Construction Wage Determinations. Requests can be submitted via email to BCWD-Office@dol.gov or by mail to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2) If an initial decision has been issued, then any interested party (those affected by the action) that disagrees with the decision can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Requests for review and reconsideration can be submitted via email to dba.reconsideration@dol.gov or by mail to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:
Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210.

=====

END OF GENERAL DECISION

"

Special Notes regarding FAR 52.229-3: Federal, State and Local Taxes:

Offerors are hereby notified that under Illinois Admin. Code tit. 86, § 130.2075 - Sales to Construction Contractors, sales of materials to construction contractors for incorporation into real estate owned by governmental bodies are exempt from Retailers' Occupation Tax and Use Tax. Therefore, the contractor's purchase of such building and construction materials within the State of Illinois to be incorporated into the real property belonging to the U.S. Department of Veterans Affairs (VA) is subject to the exemption from Illinois' Retailer's Occupation Tax and Use Tax. To take advantage of the tax exemption, the VA will furnish to the contractor at award a State of Illinois Contractor Exempt Purchase Statement for the project

involved, and the contractor may present this form when purchasing materials for incorporation into such project.

Notwithstanding FAR 52.229-3, all bids received in response to this solicitation are presumed to reflect this tax exemption, and therefore should not include Illinois' Retailer's Occupation Tax or Use Tax on sales of materials for incorporation into VA real estate under this contract.
