SUBJ: SOLE SOURCE JUSTIFICATION MEMORANDUM TO ACQUIRE SDV MK8
DIVER TRANSCIVER EVALUATIONS AND APPROVED REPAIRS

[REDACTED]

1. Identification of the agency and the contracting activity, and specific identification of the document as a “Sole Source Justification.”

This is a sole source justification. Contracting activity is:

Naval Sea Systems Command
Naval Surface Warfare Center
Panama City Division (NSWC PCD)
110 Vernon Avenue
Panama City, FL 32407-7001

[REDACTED]

2. Nature and/or description of the action being approved.

This action will award a firm fixed price order to the following:

Undersea Systems International, Inc.
dba: Ocean Technology Systems

[REDACTED]

3. A description of the supplies or services required to meet the agency’s needs (including the estimated value).

This requirement is to purchase the following: SDV MK8 Diver Transceiver Evaluations, as described below.

Line No.	Item	Part Number	Qty	Unit Price	Total Price
1	Evaluation of SW-1000-SC, High Power NSW MAG Diver Transceiver, 70 watts. Includes battery, charger and transducer	900356-000	29 EA	[REDACTED]	[REDACTED]
2	Ground freight and individual wrapping boxing, and labeling of each unit.	N/A	29 EA	[REDACTED]	[REDACTED]

Line No.	Item	Part Number	Qty	Unit Price	Total Price
Total:					

[REDACTED] The Government's minimum needs have been verified by the certifying technical and requirements personnel. This memo does not authorize acquisition for other requirements. This acquisition will be conducted using simplified acquisition procedures with a total dollar value above micro-purchase levels but not exceeding the simplified acquisition threshold of \$350,000.00. [REDACTED]

4. Justification Rationale

This acquisition is conducted under the authority of FAR 12.102, Restricting Competition. The determination has been made that only one source is reasonably available to meet the Government's minimum needs.

NSWC PCD currently has a need for the evaluation and repair of 29 Ocean Technology Systems (OTS) SW-1000-SC, High Power NSW MAG Diver Transceivers, part number 900356-000, as referenced in Section 3 of this document. These transceivers are used with the existing Seal Delivery Vehicle (SDV) MK8 system. Ocean Technology Systems is the OEM and the only approved source of supply for the items listed in Section 3 per the approved engineering drawing. As such, OTS is the only service provider qualified to repair these transceivers. If another service provider were to evaluate and repair them, the repair specifications may not be accurate or complete, leaving the repaired transceivers questionably repaired, and subject to failures at inopportune times. As such, the government does not expect significant savings through competition. It is more advantageous to the Government to award on a sole source basis to OTS for the items listed in Section 3.

5. Best Value Determination in Accordance with FAR 12.102(a)

The Contracting Officer has determined that this order represents the best value to the Government. This determination is based on the unique and time-sensitive mission requirements [REDACTED] Awarding this as a sole-source order is the most advantageous approach. The best value is achieved by ensuring mission readiness and avoiding the costs and operational impacts of extended equipment downtime.

6. A description of the market research conducted among schedule holders and the results, or a statement of the reason market research was not conducted.

[REDACTED] No additional market research was conducted for the reasons discussed in paragraph 4 above, for any company other than Undersea Systems International, Inc. to provide the products.

7. Any other facts supporting the justification. None.

- 8. A statement of the actions, if any, the agency may take to remove or overcome any barriers that led to the restricted consideration before any subsequent acquisition for the supplies or services is made.**

As stated in paragraph 4 above, Undersea Systems International, Inc. is the only source that can meet the requirement.
