M - Evaluation Factors for Award

4.1 General Information

4.1.1 The Smithsonian Institution will evaluate offers in response to this RFP and award multiple contracts to the technically acceptable Offerors whose offer, conforming to the solicitation, will be most advantageous to the Smithsonian Institution.

4.1.2 Discussions may be conducted with all Offerors determined to be in the competitive range. However, Offerors are advised that award may be made without discussion or any contact concerning the proposals received. Therefore, proposals should be submitted initially on the most favorable terms, which the Offeror can submit to the Smithsonian Institution. Do not assume that you will be contacted or afforded an opportunity to clarify, discuss, or revise the proposal. The Smithsonian Institution may award without holding discussions.

4.2. Complete Information

Failure to furnish complete information requested in the RFP may cause the Offeror to be judged non-responsive and immediately be removed from further considerations.

4.3. Evaluation Summary

Proposals shall be evaluated in accordance with the following criteria being applied to the information requested in Section 3:

The Qualification Statement to be submitted consists of four (4) Parts:

- Part I - General Information
- Part II - Entity's Background
- Part III – Firm Past Experience/Firm Past Performance
- Part IV – Capabilities

4.5. There will be no cost evaluation associated with this RFP.

- a. Offerors shall provide three (3) examples of relevant experience and demonstrate technical competence in providing or performing services of similar size, scope, complexity, and type of client that indicates your firm's suitability for this project within the last five (5) years.
- b. Offeror's previous work must represent the highest standards of quality.

M.3. Award of a contract shall be made to the responsive, responsible Offeror, whose combined cost and technical proposal is, in the opinion of the Contracting Officer, determined to be the most advantageous and in the best interest of the Smithsonian Institution

M.5. The Smithsonian intends to evaluate proposals and award a contract without discussions with Offerors (except clarifications as described in FAR 15.306(a)). Therefore, the Offeror's initial proposal should contain the Offeror's best terms from a price and technical standpoint. The Smithsonian reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

M.6. Discussions may be conducted with all Offerors determined to be in the competitive range. However, Offerors are advised that award may be made without discussion or any contact concerning the proposals received. Therefore, proposals should be submitted initially on the most favorable terms that Offeror can submit to the Smithsonian Institution. Contractors should not assume that they will be contacted or afforded an opportunity to clarify, discuss, or revise their proposal.

M.7. Complete Information

Failure to furnish complete information requested in the RFP may cause Offeror to be judged non-responsive and immediately be removed from further consideration.
