15B. CONTRACTOR/OFFEROR		16B. UNITED STATES OF AMERICA	
15C. DATE SIGNED		16C. DATE SIGNED	
(Signature of person authorized to sign)		(Signature of Contracting Officer)	

Emergent IV BAA0001-22, dated June 14, 2022, is hereby Amended as follows:

1. The purpose of this Amendment is to revise the answer to question d. and question e. in Amendment 17:

d. **Question:** In section 4.1.c, what are the use cases provided? The announcement as written seems to possibly confuse the listed work areas/tasks for the aforementioned and omitted use cases. Will DLA be providing the use cases to support white paper submission? Is the government expecting offerors to initially propose useful use cases (functional business problems) focusing around the three AI/ML GenAI subtopics referenced in section 2.0 (content generation, data manipulation, and content assistance), or other applications of GenAI, within initial white paper submissions while attempting to address any one of the fourteen listed requirements? The problem DLA is attempting to prove it can solve with the use of GenAI is unclear.

REMOVE:

Answer: The initial use case will be provided to vendors who are selected to demonstrate their capabilities. The use case will be based on DLA business need and leverage the vendor's readiness to demonstrate what was written in their proposals. Sequence of events are vendors provide their White Paper. If vendor is selected, the Contracting Officer will request proposals. After review of proposal, if vendor is selected for next phase, a use case (as mentioned above) will be provided, then the vendor will demonstrate their capabilities in person. No, the Government is not expecting for the offerors to submit use cases. As mentioned, the Government will provide a use case for those that are selected for the demonstration phase. Furthermore, the Government hopes that the vendors have key knowledge of DLA's mission and business domain to develop a solution (i.e. prompt) that supports our global logistics span of influence.

REVISE:

Answer: The initial use case will be provided to vendors whose White Paper are selected for a cost and technical proposal. The use case will be based on DLA business need and leverage the vendor's readiness to demonstrate what was written in their cost and technical proposals. Sequence of events are vendors provide their White Paper. If vendor's White Paper is selected, the Contracting Officer will provide the vendor with a use case and request cost and technical proposals. The cost and technical proposal must be based on a solution to the use case provided. After review of cost and technical proposal and the acceptable evaluation approval of technical proposals (if vendor is selected for next phase) the vendor will be invited to demonstrate their solution and capabilities live in person. No, the Government is not expecting for the offerors to submit use cases. As mentioned, the Government will provide a use case for those whose White Paper is selected for a cost and technical proposal. Furthermore, the Government hopes that the vendors have key knowledge of DLA's mission and business domain to develop a solution (i.e. prompt) that supports our global logistics span of influence.

e. **Question:** Are offerors required to provide a Technical Design Document (TDD) along with this white paper or is this only required if an offeror is requested to submit a technical proposal? If required at white paper submission, will the required format of the TDD be provided?

REMOVE:

Answer: Our response is two-fold. The sequence of events, vendors provide their White Paper. If a vendor is selected, the Contracting Officer will request proposals. After review of the proposal, if a vendor is selected for the next phase, a use case (as mentioned above) will be provided, then the vendor will demonstrate their capabilities in person. For the initial response, only a White Paper is requested. The format for White Paper and proposals are published within the Emergent IV BAA.

REVISE:

Answer: Our response is two-fold. The sequence of events are vendors provide their White Paper. If vendor's White Paper is selected, the Contracting Officer will provide the vendor with a use case and request cost and technical proposals. The cost and technical proposal must be based on a solution to the use case provided. After review of cost and technical proposal and the acceptable evaluation approval of technical proposals (if vendor is selected for next phase) the vendor will be invited to demonstrate their solution and capabilities live in person. No, the Government is not expecting for the offerors to submit use cases. For the initial response, only a White Paper is requested. The format for White Paper and proposals are published within the Emergent IV BAA.

2. All other Terms and Conditions remain unchanged.
